## HIGH ALERT: SCAM WARNING!!!

### TO ALL SUPPLIERS AND SERVICE PROVIDERS OF THE GOVERNMENT PRINTING WORKS

It has come to the attention of the *GOVERNMENT PRINTING WORKS* that there are certain unscrupulous companies and individuals who are defrauding unsuspecting businesses disguised as representatives of the *Government Printing Works (GPW)*.

The scam involves the fraudsters using the letterhead of *GPW* to send out fake tender bids to companies and requests to supply equipment and goods.

Although the contact person's name on the letter may be of an existing official, the contact details on the letter are not the same as the *Government Printing Works*. When searching on the Internet for the address of the company that has sent the fake tender document, the address does not exist.

The banking details are in a private name and not company name. Government will never ask you to deposit any funds for any business transaction. *GPW* has alerted the relevant law enforcement authorities to investigate this scam to protect legitimate businesses as well as the name of the organisation.

Example of e-mails these fraudsters are using:

[PROCUREMENT@GPW-GOV.ORG](mailto:PROCUREMENT@GPW-GOV.ORG)

Should you suspect that you are a victim of a scam, you must urgently contact the police and inform the *GPW*.

*GPW* has an official email with the domain as [@gpw.gov.za](mailto:@gpw.gov.za)

Government e-mails DO NOT have org in their e-mail addresses. All of these fraudsters also use the same or very similar telephone numbers. Although such number with an area code 012 looks like a landline, it is not fixed to any property.

*GPW* will never send you an e-mail asking you to supply equipment and goods without a purchase/order number. *GPW* does not procure goods for another level of Government. The organisation will not be liable for actions that result in companies or individuals being resultant victims of such a scam.

*Government Printing Works* gives businesses the opportunity to supply goods and services through RFQ / Tendering process. In order to be eligible to bid to provide goods and services, suppliers must be registered on the National Treasury's Central Supplier Database (CSD). To be registered, they must meet all current legislative requirements (e.g. have a valid tax clearance certificate and be in good standing with the South African Revenue Services - SARS).

The tender process is managed through the Supply Chain Management (SCM) system of the department. SCM is highly regulated to minimise the risk of fraud, and to meet objectives which include value for money, open and effective competition, equitability, accountability, fair dealing, transparency and an ethical approach. Relevant legislation, regulations, policies, guidelines and instructions can be found on the tender's website.

## Fake Tenders

National Treasury's CSD has launched the Government Order Scam campaign to combat fraudulent requests for quotes (RFQs). Such fraudulent requests have resulted in innocent companies losing money. We work hard at preventing and fighting fraud, but criminal activity is always a risk.

### How tender scams work

There are many types of tender scams. Here are some of the more frequent scenarios:

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to a company to invite it to urgently supply goods. Shortly after the company has submitted its quote, it receives notification that it has won the tender. The company delivers the goods to someone who poses as an official or at a fake site. The Department has no idea of this transaction made in its name. The company is then never paid and suffers a loss.

OR

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to Company A to invite it to urgently supply goods. Typically, the tender specification is so unique that only Company B (a fictitious company created by the fraudster) can supply the goods in question.

Shortly after Company A has submitted its quote it receives notification that it has won the tender. Company A orders the goods and pays a deposit to the fictitious Company B. Once Company B receives the money, it disappears. Company A's money is stolen in the process.

Protect yourself from being scammed

- If you are registered on the supplier databases and you receive a request to tender or quote that seems to be from a government department, contact the department to confirm that the request is legitimate. Do not use the contact details on the tender document as these might be fraudulent.
- Compare tender details with those that appear in the Tender Bulletin, available online at [www.gpwonline.co.za](http://www.gpwonline.co.za)
- Make sure you familiarise yourself with how government procures goods and services. Visit the tender website for more information on how to tender.
- If you are uncomfortable about the request received, consider visiting the government department and/or the place of delivery and/or the service provider from whom you will be sourcing the goods.
- In the unlikely event that you are asked for a deposit to make a bid, contact the SCM unit of the department in question to ask whether this is in fact correct.

## **5. Purpose**

- (1) This policy provides direction to Umalusi and its stakeholders in respect of the responsibilities associated with the development, registration and publication of

qualifications for the GFETQSF. This is in keeping with Umalusi mandate to ensure the development of qualifications for its Sub-framework as laid out in Section 27(h) of the NQF Act.

- (2) This policy addresses responsibilities associated with the development of new, and the review of existing qualifications and their associated curricula for the GFETQSF.

## **6. Objective**

- (1) The objective of this policy is to determine the criteria for the development, registration and publication of qualifications on the GFETQSF, taking into account the relevant legislation, policy and criteria as contemplated in the NQF Act.

## **7. Scope and application**

- (1) This policy applies to Umalusi, the Department of Basic Education, the Department of Higher Education and Training, the SAQA, the CHE and the QCTO, assessment bodies, institutions that are accredited and those seeking accreditation, and other stakeholders with an interest in qualifications in the GFETQSF context.

**CHAPTER 3****8. Development of qualifications**

- (1) In accordance with the requirements laid out in the *Policy for the General and Further Education and Training Qualifications Sub-framework*, Umalusi oversees and quality-assures the development of qualifications and recommends qualifications to the SAQA for registration on the NQF.

- (2) New qualifications developed for the GFETQSF need to align with one of four levels of the NQF (viz. Levels 1 – 4) and must be named in accordance with the qualification type associated with the NQF Level:

Level 4: National Certificate

Level 3: Intermediate Certificate

Level 2: Elementary Certificate

Level 1: General Certificate

- (3) The appropriate NQF Level of the qualification is determined by:
- (a) Using the NQF Level Descriptors published by the SAQA,
  - (b) Umalusi's own standard-setting requirements, which include an analysis of the qualification structure and design, and
  - (c) other qualification-related documents such as curricula and assessment requirements.
- (4) A new qualification is one which has not existed before, or one which has, during a review process, been significantly changed in terms of its purpose and/or target group and/or institutional location and design.
- (5) The qualification under development needs to be a new variant at the NQF Level. In other words, the proposed qualification needs to have a purpose distinct from the variants already on the Sub-framework, and that distinctiveness may well be reflected in a novel qualification structure.

## 9. Criteria for the development of qualifications

- (1) The Departments of Education accredited private assessment bodies and private education providers are eligible to propose the development of new qualifications for the GFETQSF. The party proposing the development of a new qualification must submit a written proposal to the Chair of Umalusi Council for consideration. The submission must include at least the following information:
- (a) Details of the proposer and those persons selected by it to assist with the development of the proposed new qualification.
  - (b) The unique purpose to be served by the new qualification, and a motivation for its establishment in the form of a completed feasibility study.
  - (c) The feasibility study is required to provide information on at least the following:
    - i. Justifiable need for the development of a new qualification
    - ii. Mapping that has been done against existing qualifications on the GFETQSF, and if need be, on both/ either of the other Higher Education Qualifications Sub-framework [HEQSF] and the Occupational Qualifications Sub-framework [OQSF], which will provide information on the purpose of the proposed qualification; how the purpose of the proposed qualification differs from those of existing qualifications, and how the proposed qualification would articulate with other qualifications on the GFETQSF (and/or qualifications in the HEQSF and the OQSF), and its relationship to existing qualifications on the GFETQSF;
    - iii. The number of learners who are likely to enroll for the qualification annually and their institutional location (schools, colleges, community learning centres, etc.)
    - iv. A draft implementation plan for the qualification proposed, and
    - v. If the proposer is not a Department of Education, the accredited assessment body that will assess the proposed qualification.
- (2) In addition, the proposer is required to submit the qualification of detailed information of the following:
- (a) The qualification title
  - (b) NQF level of the qualification (the SAQA published NQF Level Descriptors must be used to determine the level of the qualification)

- (c) Its credits (the credits must be calculated on the basis of one (1) credit is equal to ten (10) notional hours of learning)
  - (d) The Sub-framework into which it fits
  - (e) Overview of the qualification
  - (f) The purpose of the qualification
  - (g) The rationale (need) for the qualification
  - (h) Target group identity
  - (i) Duration, general enrolment and registration requirements
  - (j) Recognition of Prior Learning (RPL)
  - (k) Exit level outcomes (ELOs) and Associated Assessment Criteria (AACs)
  - (l) Specific post qualification articulation as approved by the Quality Council overseeing the NQF Sub-framework in which the post-qualifications lie
  - (m) Qualification structure and design
  - (n) Qualification requirements, including rules of combination and provisos
  - (o) Concessions
  - (p) Promotion and certification requirements
  - (q) Curriculum review
  - (r) Assessment structure
  - (s) Recording and reporting
  - (t) Rating scale
  - (u) Minimum accreditation requirements for offering the qualification
  - (v) Critical Cross-Field Outcomes
  - (w) Transitional arrangements
  - (x) A statement indicating international comparability.
- (3) Umalusi Council approves or rejects qualifications for recommendation to the SAQA for registration in line with the *SAQA Policy and Criteria for the registration of qualifications and part-qualifications on the NQF*. Umalusi's approval of a qualification is dependent on the qualification providing an educational opportunity distinct from those provided by existing qualifications on the GFETQSF. Such a distinction should be

evident from the purpose, structure and design of the qualification and the curricula associated with the qualification.

- (4) In fulfilling its mandate in respect of the development and maintenance of the GFETQSF, Council is required to advise the relevant Minister(s) of Education of its intention to amend the GFETQSF by introducing a new qualification, and/or its intention no longer to quality assure an existing qualification when Umalusi considers the qualification to be too poorly served by the assessment body/-ies.
- (5) Qualifications included on the GFETQSF will have an inception date, which will coincide with the date that the qualification is placed on the NQF by being included in the SAQA's National Learners' Records Database (NLRD). The inception date of the qualification precedes the implementation date.
- (6) Qualifications placed on the GFETQSF will not have an expiry date unless transitional arrangements for the cessation of a qualification have been determined.
- (7) Even qualifications which have ceased to be offered remain on the GFETQSF as a part of the historical record, since the value of the qualification remains even if the qualification is no longer offered.
- (8) In order to advise and assist the process of qualification development, Umalusi appoints a Qualifications Reference Group (QRG) under the auspices of the Qualifications Standards Committee (QSC), a committee of the Umalusi Council that advises Council with respect to the development and maintenance of the GFETQSF. Such a reference group will be appointed taking into consideration both the expertise of the members and the need for a wide range of possible stakeholder representation in the group.
- (9) Qualifications proposed by bodies other than the Departments of Education for inclusion on the GFETQSF must be submitted in accordance with the requirements laid down in this policy. These requirements will form the basis for the appraisal of the qualification being submitted.
- (10) The Ministers of Education provide for norms and standards for education offered in South Africa and could therefore direct or initiate the development of a new qualification or introduction of a new curriculum in the education system as deemed necessary. The proposal for the introduction of new qualification or curriculum must

always be done in consultation with Umalusi and follow the prescribed criteria outlined in this policy.

## CHAPTER 4

### 10. Criteria for the registration of qualifications on the NQF

- (1) In terms of Section 13 (1) h (ii) of the NQF Act, the registration of qualifications on the Sub-frameworks of the NQF is a SAQA function, and to that end the Quality Councils co-operate in the formulation of the policy and criteria for the registration of qualifications as required.
- (2) The purpose of registering a qualification serves as a formal recognition on the NQF of South Africa.
- (3) Qualifications recommended to the SAQA for registration are required to comply with the *SAQA Policy and Criteria for the registration of qualifications and part-qualifications on the National Qualifications Framework*, and the requirements of the *Policy for the General and Further and Training Qualifications Sub-framework*.
- (4) Council must consider that one of the requirements of the NQF is that the qualifications registered on the NQF will be subject to the quality assurance processes of the relevant Quality Council.
- (5) All qualifications on the GFETQSF are audited and reviewed every three (3) years for re-registration with the SAQA on the NQF to ensure their uptake and currency.
- (6) A qualification cannot be offered until it is registered on the NQF.

### 11. Criteria for the recommendation of qualifications for registration to SAQA

- (1) In approving the proposed qualification for registration on the NQF, Umalusi must consider whether the qualification fulfills the requirements and criteria established for qualifications on the GFETQSF, as laid out in this policy.
- (2) In approving a qualification for registration, Council must satisfy itself that:

- (a) Umalusi has consulted widely before submitting a qualification for approval for registration;
  - (b) The qualification conforms to the requirements of this policy, and Chapter 3 (9)(2) in particular;
  - (c) The qualification is necessary for and complementary to the overall functioning of the national education and training system;
  - (d) The qualification does not have the potential to prejudice the value of existing registered qualifications;
  - (e) Its articulation with other qualifications, within and across the NQF Sub-frameworks, has been identified and established in principle;
  - (f) The qualification meets or exceeds the legislated minimum standards for comparable qualifications on the Sub-framework;
  - (g) The qualification will be offered in public and/or accredited private education institutions and assessed by a recognized assessment body/ies.
  - (h) The qualification is sustainable, flexible and caters for diverse modes of delivery.
- (3) Council is not obliged to recommend a proposed qualification as additional to the existing qualifications registered on the Sub-framework if, in its judgement, the registration of such a qualification has the potential to impact negatively on the existing qualifications it quality assures and certifies.
- (4) After Umalusi approval of a qualification, the qualification is:
- (a) submitted to the SEIAS for vetting and compliance,
  - (b) gazetted for public comment,
  - (c) submitted to the legal services of the relevant Department of Education or the proposer to scrutinise the policy for constitutionality, legality and conflict with existing legislation,
  - (d) submitted as advice to the relevant Minister and
  - (e) recommended to the SAQA for registration on the NQF.
- (5) Where a qualification approved by Council is required to have effect in law, Umalusi advises the relevant Minister that it has approved the qualification. Once approved, the qualification is enacted through a government gazette as national policy.

## CHAPTER 5

### 12. Criteria for inclusion of qualifications on the GFETQSF

- (1) Umalusi must consider qualifications submitted to it for possible inclusion on the Sub-framework.
- (2) Council is required to consider the request for approval of a new qualification, the fairness of the processes of evaluation and recommendations of the QSC, and then decide whether the request of the proposed qualification is:
  - (a) in the interests of the education system as a whole, and does not have the potential to devalue existing qualifications or contribute to the proliferation of qualifications on the GFETQSF,
  - (b) in the interests of a group or groups of learners whose needs are not serviced by existing qualifications and
  - (c) designed to meet the specific needs of the sector for which it is established.
- (3) Any qualification submitted to Umalusi for inclusion on the GFETQSF must conform to the requirements expressed in the *Policy for the GFETQSF*, and further explicated in this policy.
- (4) The submission of a request for the inclusion of a qualification is undertaken on the understanding that one of the requirements of the NQF Act, set out in section 27 (h) (i)-(iii), is that the Quality Council is required to ensure that such quality assurance as is necessary for the Sub-framework is undertaken.
- (5) Should the qualification so submitted be considered as potentially in accordance with the requirements set out in this policy, the proposer may need to demonstrate, at their cost and to the satisfaction of Umalusi, that:

- (a) The qualification meets or exceeds the legislated minimum standards of a qualification (or qualifications) to be regarded as comparable, and
  - (b) Articulation relationships, as set out in the *Ministerial Policy on Articulation*, have been (or are being) established, for example, through negotiation with Universities South Africa (USAf) and/or the relevant QC.
- (6) The proposer of such a qualification would need to be willing to work with (or establish) an accredited assessment body capable of offering assessment in accordance with Umalusi's quality assurance expectations and the necessary directives, guidelines and requirements that would need to be developed for the proposed qualification, and any other relevant policies.
  - (7) The proposer would also need to be able to identify or establish accredited education institutions prepared to offer the qualification.
  - (8) Should the qualification and its supporting documents not fulfill the necessary criteria, the qualification may be returned to the proposer for amendment or rejected.
  - (9) The costs of considering a qualification for inclusion on the Sub-framework shall be borne by the proposer. Council annually determines tariffs based on the processes required for this work.

### 13. Review process

- (1) Should Council decide that a qualification presented for its consideration should not be included on the Sub-framework, it informs the proposer within thirty (30) calendar days of its decision.
- (2) The proposer, in turn, has thirty (30) days in which to request for a review in writing to Umalusi Council.
- (3) Council will submit the request for a review to the relevant structures for adjudication and pronounce on the outcome.
- (4) The Council's decision will be regarded as final.

---

**14. Criteria for the publication of qualifications on the National Qualifications Framework**

- (1) The publication of qualifications on the NQF is recognized as a SAQA function and is governed by the SAQA's *Policy and Criteria for registration of qualifications and part-qualifications on the NQF*. Quality Councils are led by, and collaborate with the SAQA in this qualification registration and publication process.
- (2) The purpose of publication serves as public acknowledgement of the acceptance of a qualification as an integral part of the NQF.
- (3) Once the qualification is registered by the SAQA, the qualification will be published on the SAQA website as part of the NQF and on the Umalusi website.
- (4) A qualification registered on the NQF is a national qualification and can be offered by anyone with the right credentials in accordance with applicable legislation, policies and directives.
- (5) Umalusi is the custodian of all qualifications on the GFETQSF; hence, no qualification may be amended or terminated without Umalusi's recommendation.

**CHAPTER 6****15. Criteria for introducing a new subject within a qualification and reviewing existing curriculum for qualifications on the GFETQSF**

- (1) All qualifications on the GFETQSF are specified at the level of a curriculum for the subjects within each qualification. The design specifications of the qualification, as well as the quality of its supporting curriculum, and the nature of its assessment (site-based assessment and examinations) provide insight into the standard of education required.
- (2) The development of a new qualification for consideration by Umalusi must be followed by the development of its underpinning curricula.
- (3) A Department of Education (DBE or DHET) or any assessment body or organization or member of the public, may propose the introduction of a new subject or a review of an existing subject for a qualification on the GFETQSF.
- (4) The proposer of a new subject must apply to Umalusi in writing, to introduce a new subject or to review an existing subject. The development of a new curriculum for an existing qualification may occur if there is a need to include another subject into the national curriculum.
- (5) The proposer shall provide a motivation for its proposal in the form of a completed feasibility study. The motivation must include the level and credit and its impact on the credits of the qualification. Consideration should be made on its impact on the Exit Level Outcomes (ELOs) and Associated Assessment Criteria (AACs).
- (6) The feasibility study is required to provide information on at least the following:
  - (a) Justifiable need for the development of a new curriculum or review of an existing curriculum.
  - (b) The gap that the new curriculum or the revised curriculum will fill in the system.
  - (c) A mapping that has been done against existing curricula (on the sub- framework, and if need be, on both/ either of the other two sub- frameworks), which will provide information on;

- i. the purpose of the proposed curriculum,
  - ii. how the purpose of the proposed curriculum differs from those of existing curricula,
  - iii. fitness for purpose and the relevance of the proposed curriculum in relation to the envisaged learner group,
  - iv. how the curriculum will articulate with other qualifications on the GFETQSF and/or the QCTO and CHE , and its relationship to existing curricula on the Sub-framework,
  - v. the reasons existing curricula cannot fulfil the purpose of the proposed curriculum.
- (d) The type of education institution that is envisaged to provide the curriculum,
- (e) The number of learners that are likely to take the curriculum annually, and their institutional location (schools/colleges/ community learning centres)
- (f) A draft comprehensive and coherent implementation plan for the proposed curriculum
- (g) If the proposer is not one of the Departments of Education, the assessment body that will assess the proposed curriculum must be identified.
- (7) Umalusi will evaluate the proposal and inform the proposer, within six months, of the acceptance or rejection of the proposal to introduce a curriculum for a new subject or to review an existing subject underpinning a qualification on the GFETQSF.
- (8) Should the proposal be accepted, the proposer will be advised to proceed with the development of the proposed curriculum or with the review of existing one.
- (9) Umalusi will give guidance to curriculum developers or reviewers on curriculum dimensions to be considered during the evaluation process.

## **16. Roles and responsibilities associated with the introduction of a new curriculum or a review of an existing curriculum**

### **(1) Proposer's responsibilities**

- (a) The proposer takes responsibility for submitting the intended curriculum documents to Umalusi for appraisal in line with this policy and its criteria. Umalusi may request additional documents where needed.
- (b) The proposer accepts financial responsibility for the appraisal of the curriculum.
- (c) Where recommendations for strengthening the curriculum are needed, it is the responsibility of the proposer to resubmit the curriculum with necessary refinements required.
- (d) The evaluation process for the refined aspects will fall outside the eighteen (18) month period referred to in **Section (2)(d)** below.
- (e) It is the responsibility of the proposer to ensure that the curriculum is not implemented until the appraisal process has been completed and the Minister responsible has gazetted it. The gazette will include the implementation date.

### **(2) Umalusi's responsibilities**

- (a) Umalusi is responsible for informing the proposer, in writing, within six (6) months, of the acceptance or rejection of the proposal to introduce a new subject.
- (b) In the event that the proposal is rejected, Umalusi must provide reasons for the rejection.
- (c) In the event that the proposal is accepted, Umalusi's response must include the financial implications of the intended appraisal.
- (d) On a written acceptance of the financial implications by the proposer, and submission of curriculum documents, Umalusi must complete the appraisal within eighteen (18) months.

(e) Umalusi must submit the curriculum to the relevant Minister as advice.

**(3) The Minister's responsibilities**

(a) The relevant Minister determines the implementation date.

(b) The relevant Minister will regulate the new curriculum through a gazette.

**17. Short Title**

This Policy may be cited as the ***Policy and Criteria for the development, registration and publication of qualifications for the General and Further Education and Training Qualifications Sub-framework*** and will commence on the day of its promulgation in the Government Gazette.

**Annexure A****Criteria for the development and format of qualifications registered on the General and Further Education Training Qualifications Sub-framework****1) The title of the qualification**

The qualification has a title which accords with the qualification type at the level on which the qualification is to be registered. So, for example, a qualification to be registered at Level 1 on the Sub-framework will be a General Certificate, while one on Level 4 will be named a National Certificate. (It should be noted, however, that there are some historical anomalies in the naming conventions: the NC(V) Levels 2 and 3 are cases in point. These names are recognized as not conforming, but have been allowed to remain.)

- *Is the proposed qualification named in accordance with the qualification type for the level at which it is to be registered?*
- *Is the proposed name distinctive, and therefore not to be confused with other qualifications on the Sub-framework?*

**2) The NQF Level of the qualification on the Sub-framework**

The level of the qualification is informed by the level descriptors.

The qualification type selected for the development of the qualification determines its level. Qualifications submitted for consideration for inclusion on the Sub-framework must, by law, conform to the qualification type identified at that level for the particular Sub-framework.

The level on the General and Further Education and Training Qualifications Sub-framework at which the qualification will be located is determined by establishing (or investigating) its standing relative to other qualifications on the Sub-framework at the NQF Level in question. An explanation should be provided for the location of the qualification at the level where it is (to be) registered. Thus, while the position of the qualification on a specific NQF Level is determined in part with reference to the level descriptors developed by the SAQA, it is primarily established with reference to Umalusi's own quality assurance requirements.

- *From the information available, does the qualification accord with the requirements of the qualification type associated with the identified level on the Sub-framework?*
- *Is the qualification policy accompanied by an account of the relationship to existing qualifications at the same NQF Level which demonstrates its comparability to the other qualifications in terms of the NQF Level, curriculum- and assessment requirements?*

### **3) The number of credits**

All qualifications registered on the Sub-framework have a minimum of 120 credits, but may be registered with more than 120 credits. SAQA registers a qualification according to the minimum credits for the qualification type. The rules of combination will indicate the total credits for the qualification.

- *Does the policy identify the number of credits allocated to the qualification and to the component subjects which constitute the qualification? Does the policy conform to the required minimum for a qualification on the Sub-framework?*

### **4) The policy framework into which the qualification fits**

All existing legislative policies that have an effect on the new qualification need to be acknowledged. Both internal Umalusi policies and externally developed policies, for example, by the relevant department of education or an accredited assessment body may have reference.

- *Has the qualification policy identified all the existing legislation that has a bearing on its formulation, implementation, quality assurance and certification?*
- *Has the qualification policy identified and considered the necessary Umalusi policies that have a bearing on the development and delivery of the qualification?*

**5) Qualification overview**

This section provides a brief description of the whole qualification in order to locate the subsequent descriptions of aspects of the qualification meaningfully.

- *Has the policy provided a succinct overview of the proposed qualification that illuminates the nature of the qualification in simple language? Is this overview useful in interpreting the subsequent description of the qualification?*

**6) The rationale for the qualification**

The qualification policy must provide a rationale for its contribution to the education and training environment, and hence its proposed presence on the Sub-framework. The rationale for the qualification is distinct from its purpose, and is considered in terms of how well the existence of and need for the qualification is motivated. In order to be considered for registration, the qualification needs to be able to serve sufficient learners to be sustainable. A qualification for small numbers of learners is not able to support the costs associated with quality assuring, assessing and certifying the qualification, and cannot therefore be considered for approval.

- *Does the rationale offered for the proposed qualification identify its role as distinctive in the education and training system?*
- *Does the rationale motivate for a long term, sustainable role for the qualification, one that fulfils a specific national need?*
- *Does the motivation for the presence of the proposed qualification argue for servicing a particular need/set of needs and/or a particular group of learners not serviced otherwise?*
- *Is the rationale serviced by the structure and design of the proposed qualification?*

**7) The stated qualification purpose**

The stated purpose of the qualification is explained in terms of what its intent is in respect of learner achievement. The purpose makes reference to the highest level outcomes envisaged for successful achievement of the qualification as a whole. The purpose is evaluated in terms of its description of what possible career and

employment opportunities may become available on successful completion of the qualification, as well as its indication of the prospects of a candidate who has successfully completed the qualification in terms of progressing to further education or higher education. The high level outcomes will influence the structure and design of the qualification, guiding the combinations and choices of subjects on offer in the particular qualification.

- *Is the purpose for the proposed qualification identifiably different from that of other qualifications on the Sub-framework? (Qualifications that serve an almost identical function to existing qualifications on the Sub-framework, and which may compete with existing national qualifications, are regarded as problematic.)*
- *Is the purpose for the qualification in keeping with the nature of the qualifications registered on the Sub-framework?*
- *Is the purpose of the qualification supported by its structure and design?*

## **8) The Exit Level Outcomes and Associated Assessment Criteria**

The Exit Level Outcomes (ELOs) and the Associated Assessment Criteria (AAC) express the intent which informs the teaching, learning and assessment for all the constituent elements of the qualification. They represent, in generic form, the capacities, skills and competencies to be developed and acquired by successful candidates in the course of their learning. The success of a qualification is measured against the extent to which qualifying candidates have internalized and are able to express the capacities expressed in the ELOs and AAC.

This section of the qualification policy also provides an explanation of horizontal and post-qualification articulation possibilities. The articulation possibilities must relate meaningfully to the exit level achievements associated with the qualification being described. The qualification should be designed to facilitate horizontal, vertical and diagonal progression of credits and qualifications into another qualification or related qualification within the Sub-framework and across different Sub-frameworks if learners meet the minimum admission requirements.

- *Do the ELOs and AAC identified for the qualification conform in general terms with the requirements of the relevant NQF level descriptor?*
- *Are the ELOs and AAC linked to competencies and skills to be acquired and comparable with but distinct from those expressed in the qualifications most proximate to the proposed qualifications?*
- *Does the policy identify both horizontal and post-qualification articulation possibilities with corresponding articulation pathway maps?*

### **9) The entry requirements and entry articulation options**

The qualification policy must explain and briefly motivate for the minimum learning requirements, if any, that allow candidates to enroll for the qualification. The requirements for prospective candidates must have been considered both in terms of inclusion in, and exclusion from, study. A description of the articulation of other qualifications on the NQF which could provide access—both horizontally and vertically—to the qualification under consideration, is included.

- *Has the proposed qualification identified and explained the minimum entry requirements, where such exist?*
- *Does the policy identify other qualifications on the NQF that would provide access to the new qualification? Are these access routes proposed reasonable, considering the receiving qualification?*

### **10. The identity of the particular target group for the qualification**

The policy requires a generic description the identity of the group of candidates for whom this qualification is intended. This identity should be clearly explained in general terms such as typical age cohort, previous educational experience and future educational and/or employment expectations. In addition, for an established qualification, its uptake in the education system is considered in terms of learner numbers that have previously been and /or are currently registered for the qualification.

- *Is the identity of the learner group targeted for the qualification well explained in terms of age, previous educational experience, current learning needs and future prospects?*
- *What other qualifications on the Sub-framework (and the NQF as a whole) are seen also to target this particular learning group? Is there a potential for conflict or confusion as a result of the possible introduction of this new qualification?*

### **11) The duration of the qualification**

In terms of this criterion, the qualification is considered in terms of:

- a. how the minimum and the maximum lengths of time required for completion are compatible with the characteristics of the targeted learner group;
- b. whether the time constraints (if any) may cause a learner not to complete the qualification in the maximum set duration; and finally,
- c. the chances of the target learner group completing the qualification within the determined minimum and maximum duration of the qualification.

- *Is the duration proposed for learning for the qualification reasonable? If not, how should the duration be re-considered?*
- *What purpose is served by the identification of a duration?*

### **12) The qualification structure and design**

In terms of this criterion, the qualification describes how its credit value is assigned to its component parts, and, in doing so, identifies the size and nature of the units of learning/subjects in the qualification itself. These decisions will influence the duration of learning required for the various components which comprise the qualification.

- *Does the qualification structure and design accord with critical other elements in the qualification such as rationale, purpose, ELOs, target group?*
- *Is the structure and design of the qualification laid out in such a way that prevents ambiguity?*
- *Given the structure and design of the qualification, is the time-frame identified a reasonable one?*

### **13) The rules of combination**

The rules of combination identify the subjects/areas of learning that are offered to fulfill the requirements for the qualification. Where applicable, the rules identify which subjects are compulsory to the structure, and which subjects – or combinations of subjects – are a matter of candidate choice. In assessing the usefulness of the new proposed qualification, the categories and rules are evaluated in terms of how useful these are in the qualification design.

- *Are the rules of combination which identify the requirements for the fulfilment of the qualification clearly explained?*
- *Is there clarity about compulsory vs optional subjects? About possible provisos?*

### **14) The certification requirements**

The certification requirements explain the various achievement levels determined for the award of the qualification, and are evaluated in terms of how suitable these requirements are in terms of the stated purpose of the qualification and its ELOs.

- *Does the policy fully explain the conditions under which the qualification is (not) awarded?*
- *Do these certification requirements align well with the purpose of the qualifications and the ELOs identified?*

### **15) Curriculum overview**

This criterion determines whether any curriculum summaries/ frameworks have been submitted with the qualification. Information regarding the curriculum framework, the approach to the development and implementation of the curricula needs to have been developed by the time the qualification is submitted for registration. Such a document is used to guide subsequent curriculum development, the protocols for assessment, advocacy for the qualification, planning for teacher development, support funding proposals and influence the development of the systems required to implement the qualification etc. Such material does not need to be submitted for registration, but needs to have been developed by that time.

- *Has the proposer provided supplementary information regarding the nature of the curricula associated with the subjects identified in the structure and design of the qualification?*
- *Is the information regarding curriculum consonant with the approach Umalusi takes as articulated in Chapter 2 of this policy?*

## 16) Assessment

This requirement stipulates the mandatory weighting requirements and descriptions for external and internal assessments for the proposed qualification.

In terms of Umalusi requirements, the external component of assessment should comprise no less than 50% of the total marks awarded. The weighting for mandatory practical/workplace assessment requirements for vocational qualifications learning areas/ subjects with a practical component should be specified where applicable. Both summative and formative assessment should make provision for the development of a range of cognitive abilities.

- *Does the qualification fulfil the requirement that at least 50% of the final marks awarded to the candidate are derived from external assessments that are duly monitored by the relevant assessment body and moderated and/or verified by Umalusi?*
- *Is explicit guidance provided that supports a sufficiently demanding assessment, whether this is a written or a practical examination? If not, how should this guidance be strengthened?*
- *Is the assessment guidance available and useful to examiners, moderators and to teachers? Will it be?*

**17) Recording and reporting**

The qualification outlines the requirements around recording and reporting achievement within the qualification.

- *Does the proposed qualification policy provide suitable guidance regarding the recording and reporting of learner performance?*

**18) The minimum accreditation requirements for offering the qualification**

Information pertaining to the requirements for provision of the qualification must be provided. These requirements are evaluated when the educational institution or assessment body undergoes the accreditation process in order to offer the qualification.

- *Have minimum accreditation requirements been identified for the offering of the qualification? Do these synergise with Umalusi's established approach to accreditation. These requirements must especially be spelled out for subjects (and programmes) which have a strong practical element.*

**19) Critical Cross-field Outcomes (CCFOs)**

In terms of this criterion, the development (or evaluation) of the qualification considers the relationship between the CCFOs and the type of knowledge and skills to be mastered by the candidate upon successful completion of the qualification.

- *Is there evidence in the construction of the qualification and in the curriculum overview that the CCFOs have been considered as an element in the development of the qualification?*

**20) Transitional arrangements**

Where required, a qualification policy must indicate the necessary transitional

arrangements, providing information about special measures needed for the implementation of the qualification.

- *Considering the context into which the proposed qualification is to be inserted, has thought been given to the measures needed to introduce and implement the qualification and, if need be to phase out one or more existing qualifications.*

## **21) International Comparability**

- This section of the policy provides information on how the qualification compares with and relates to similar international qualifications offered by accredited institutions or organizations in other parts of the world. This description will not necessarily be an in-depth comparison but provides sufficient information to highlight similarities and differences in approach to qualifications with similar purposes and on comparable levels of learning. The comparability should include a paragraph that summarizes the lessons drawn from the study of the selected countries and a conclusion that states why a particular approach/model should be followed or applied.

- *Has some form of preliminary comparison been attempted during the development of the qualification?*
- *Is this information such that a benchmarking activity could be undertaken once the qualification has been implemented?*

## **22) The proposer of the qualification**

The proposer of the qualification is considered in terms of its interest in the qualification as well as in terms of the assessment body or professional body nominated to conduct and regulate the external assessment for the qualification. The proposer of a qualification may be a department of education, an assessment body or a consortium of interested parties.

- *Has the proposer identified itself fully as well as its interest in the qualification proposed?*
- *Has the proposer identified all the expertise involved in the development of the proposed qualification?*

## CHAPTER 3

### ENUNCIATION OF UMALUSI'S PROCESSES AND PROCEDURES TO DEVELOP AND MANAGE AN APPROPRIATE SYSTEM FOR THE CERTIFICATION OF CANDIDATE ACHIEVEMENTS

#### 8. Purpose

- (1) The purpose of this policy is to provide direction to assessment bodies and Umalusi for the responsibilities associated with the certification of learner achievements as stipulated in *section 17A(6) of the GENFETQA Act, 2001*. This policy addresses responsibilities associated with the certification of existing qualifications, as well as with the certification of new qualifications developed for the GFETQSF managed by Umalusi.
- (2) The policy provides a common understanding of the responsibility and requirement stipulated in the *GENFETQA Act, 2001*.
- (3) The policy directs assessment bodies to request certification for candidates who satisfied the requirements of certificates listed in paragraph 4(1).

#### 9. Processes and procedures for the development and management of an appropriate certification system

In pursuance of its aim, namely, to issue credible certificates to successful candidates which are nationally and internationally comparable, Umalusi has to develop processes and procedures for the development of such a certification system, as set out in paragraph 9(1). In the event of

discrepancies that may occur during the certification process, special provision has been made to cater for these discrepancies in paragraph 9(3).

(1) Processes and procedures-

- (a) The resulting data must be approved after an examination was conducted by the assessment bodies;
- (b) Requests for the certification of candidate achievements must only be done after the results have been approved by Umalusi;
- (c) All applications and requests for certification must be submitted to Umalusi by an assessment body within three months of the release of the results;
- (d) Certification for candidates who did not apply for a re-mark or re-checking or a supplementary examination must be submitted within 10 days after the closing date for applications for re-marks, re-checks or supplementary examinations;
- (e) A signed declaration to confirm the accuracy and authenticity of the examination data must be submitted to Umalusi with the request for the bulk certification;
- (f) Rules of combination and pass requirements may change from year to year and therefore care must be taken to ensure that evaluation and resulting for a specific year is done in terms of the rules that apply to that examination, irrespective of what the future rules may be. In view of this, the rules applicable are those that applied at the date of the last examination that is included in the examination;
- (g) The directives for certification, as published by Umalusi, must be adhered to for the certification of candidate records; and

- (h) Amendments to certificates may be requested, provided such amendments comply with the *Policy for the Re-issue of National Certificates*.

(2) Financial management-

- (a) The following financial principles must be applied-
  - (i) Certification tariffs for private assessment bodies and private institutions are revised and set by Umalusi;
  - (ii) Private assessment bodies must be advised well in advance of changes to the tariffs to allow for budgeting;
  - (iii) New tariffs must be implemented on 1 April of each year;
  - (iv) Private assessment bodies must ensure that these tariffs are shared with their relevant stakeholders;
  - (v) Once a data set has been approved for certification, an invoice is generated for the attention of the private assessment body or private institution;
  - (vi) Certificates are released to the private assessment body or the college/school – as the case may be – if the invoices are paid; and
  - (vii) The certificates of private colleges with accounts in arrears for more than 90 days will be withheld until payment is received.

(3) The occurrence of discrepancies in the certification process-

- (a) Discrepancy between the date for credit accumulation and the date of the enactment of the current certification requirements-
  - (i) A candidate is certified when the minimum requirements have been met for a specific qualification or

subject/learning area, as stipulated in policy/regulations and directives that were in place and effective in the qualifying year;

- (ii) If the date for obtaining the minimum requirements differs from the enactment date of the certification requirements, e.g. the final examination was completed in 1996, but the application for certification was in 2007, the qualification will be awarded in terms of the rules that applied in 1996, and the candidate will be resulted and issued with a certificate according to the rules effective in 1996. The current, i.e. 2007, rules do not apply in this case. In other words, the rules for the qualifying year will be applied; and
  - (iii) The application of different certification requirements, as contemplated in sub-paragraph (3)(a)(ii) above, is subject to a verification process by Umalusi to establish whether the differences in dates of meeting the minimum qualification requirements and the certification requirements are valid.
- (b) Recognition of credits previously obtained-
- (i) In the case that a candidate obtains credits towards a national qualification assessed by any of the education departments prior to 1992, i.e. the Senior Certificate, National Senior Certificate, National Technical Education (NATED) Certificate 190/191 or N3 Certificate, such credits may be recognised for the award of the Senior Certificate, National Senior Certificate, NATED 190/191 or N3 Certificate, subject to the compliance of

the candidate with all the requirements for the award of the qualification; and

- (ii) Changes to any of the qualifications, as contemplated in sub-paragraph (2)(b)(i) above, may affect the ruling as contemplated in the set sub-paragraph, should different transitional arrangements be determined.

(c) Review of qualifications-

- (i) Following the review of a qualification, it may need to be amended or even regarded as no longer serving a need in the system. In such a case, Umalusi and the relevant ministry of education jointly determine a date after which the offering of a qualification on the GFETQSF ceases;
- (ii) Transitional arrangements must be regulated, and the South African Qualifications Authority (SAQA) must be advised accordingly. Both parties determine and put into effect the transitional arrangements simultaneously; and
- (iii) Institutions offering qualifications registered on the GFETQSF (public and private schools, public and private technical and vocational education and training (TVET)/community education and training (CET) colleges, and public and private adult learning/education centres) must be fully advised by means of a circular of amendments to a qualification, or of the transitional arrangements for a qualification that ceases to be offered.

- (d) Completion of outstanding requirements in order to meet certification requirements-
  - (i) The certification of a qualification, as contemplated in sub-paragraph (3)(c)(i), nevertheless remains a possibility. Should Umalusi establish whether the rules of combination prescribed in the policy document have met its approval, it could grant approval to a candidate for the completion of the outstanding requirements by offering a subject/s from an existing qualification;
  - (ii) Subject to Umalusi's decision in such a case, as contemplated in sub-paragraph (3)(d)(i), the qualification will be awarded, and the certificate issued will be effective in the month following the offering of the last subject.
- (e) Phased-out qualifications-
  - (i) A qualification that is no longer offered is nevertheless retained on the GFETQSF and remains valid.

**10. Responsibilities of the assessment bodies for the development and management of an appropriate certification system**

- (1) Assessment bodies must adhere to the regulations pertaining to the conduct, administration and management of the national examinations.

The following sections from the regulations are of importance to the certification system-

- (b) Management of irregularities;
  - (c) Registration and accreditation of independent schools as examination centres;
  - (d) Access to certification information; and
  - (e) Minimum requirements for an examination computer system.
- (2) Assessment bodies must adhere to Umalusi's requirements for standardisation, statistical moderation and resulting, and must submit all candidate records to Umalusi for the approval of the examination results.
- (3) Only candidates' records that were approved during the resulting process must be submitted to Umalusi for certification.
- (4) The certification data submitted to Umalusi must comply with the directives for certification as published by Umalusi for the qualifications registered on the GFETQSF.

- (7) Assessment bodies must ensure that all candidates' records are submitted for certification and are certified by Umalusi.

- (8) Assessment bodies must ensure that candidates that are enrolled at private institutions are registered at an examination centre that is accredited by Umalusi.
- (9) The resulting and certification computer system must also support the automatic combination of academic records (subject statements) into a certificate and be able to process replacements (duplicates) or re-issues of certificates.
- (10) Assessment bodies must ensure and apply stringent security measures during the processing of queries, the combination of results and the verification of results.
- (11) Assessment bodies must ensure that there are backup copies of the electronic certification records and that data is securely saved.
- (12) Assessment bodies are responsible for the collection of the certificates from Umalusi and distribution thereof to certificate holders.

**11. Responsibilities of Umalusi for the development and management of an appropriate certification system**

- (1) Umalusi must ensure that policy and regulations governing the qualifications are translated into directives for certification for implementation on the certification processes and system.

- (2) Umalusi is responsible for ensuring that, through rigorous quality assurance processes, the certificate it issues meets the minimum requirements for the qualification.
- (3) Umalusi must approve the resulting data during the standardisation and resulting processes and provide feedback on non-approved transactions.
- (4) Umalusi must process requests for certification and ensure that all candidates who qualified for a certificate are issued with a certificate.
- (5) Umalusi must ensure that all datasets are processed, records are certified and certificates are issued by ensuring the certification of candidate records and the issuing of certificates to candidates who have achieved a part or full qualification.
- (6) To certify qualifications, Umalusi must verify that the computer system used by the assessment body complies with the qualification policy and requirements and that the data submitted for certification is reliable and valid.
- (7) Umalusi manages the certification of candidate records through developing and managing a certification and verification system that complies with policy requirements and Umalusi's directives for certification, and which verifies and approves data for candidate certification submitted by accredited assessment bodies.
- (8) Umalusi develops and manages suitable systems, processes and procedures for both the certification and verification of qualifications.

- (9) Umalusi maintains an updated database of all certificates issued, and keeps an audit trail on transactions executed by users on the system.
- (10) Umalusi controls access to the system and trains users to undertake the processing of information for candidate certification.
- (11) Umalusi verifies candidate records on request.
- (12) Umalusi must ensure that National Learners' Records Database (NLRD) data is submitted 30 days after quality assurance processes are completed.
- (13) Candidates from unaccredited institutions will not be certified by Umalusi.

## CHAPTER 4

### SECURITY OF THE CERTIFICATION SYSTEM AND THE SAFEKEEPING OF HISTORICAL CERTIFICATE RECORDS

#### 12. Creation of a credible and secure certification environment

##### (1) Principles for ensuring security-

The following safety measures must be adhered to-

- (a) Users with controlled access to the system must sign a declaration of confidentiality;
- (b) All activities on the system must leave an audit trail;
- (c) Accountable officers such as the system administrators must maintain and manage user access to the system;
- (d) A modular approach for easy management of the system must be followed;
- (e) Storage and printing of certificates must take place in a secure environment;
- (f) A record of all certificates issued must be maintained;
- (g) Credible certificate background paper, which has security features that are regularly enhanced, must be used; and
- (h) Backup and storage of data must be maintained.

##### (2) Security features of the certificate-

Umalusi must ensure that the format for the certificate background paper includes various security features, and must improve these security features frequently by introducing the latest developments

in the field of security printing, with the aim of avoiding the possibility of fraudulent certificates being produced.

(3) Monitoring of the security system-

Umalusi must-

- (a) Monitor whether its printers comply with security policy; and
- (b) Manage the printing and storage of certificates issued to candidates.

**13. Unclaimed certificates**

- (1) All unclaimed certificates should be shredded after a period of five (5) years. All unclaimed certificates should be kept as follows at a venue or storage before shredding can take place-
  - (a) School: one (1) year;
  - (b) District or circuit: two (2) years; and
  - (c) Assessment body (Head Office): two (2) years.
- (2) After five (5) years, the assessment body should shred all unclaimed certificates during the sixth year.
- (3) Records for all shredded certificates should be captured and stored on the electronic certification system of the assessment body and that of Umalusi.

## CHAPTER 5

### CERTIFICATION OF CANDIDATE ACHIEVEMENT

#### **15. Underlying principles for the certification of qualifications registered on the GFETQSF**

- (1) Each qualification that is registered on the GFETQSF is underpinned by-
  - (a) its own policy, which determines the candidate registration and certification requirements; and
  - (b) the necessary supporting documentation that allows for the implementation of the qualification.
- (2) All policy and directives for the certification of qualifications are informed by the following, and are explicated in the relevant directives for certification-
  - (a) *The Policy for Further Education and Training Qualifications Sub-framework, Government Gazette No 38029 of 29 September 2014; and*
  - (b) The individual qualification requirements, derived from the qualification policy.

#### **16. Procedure for the issuing of certificates by means of public or private accredited assessment bodies**

- (1) Umalusi is responsible for the registration of qualifications on the GFETQSF of the NQF at SAQA to serve as a formal recognition of a qualification on the NQF.

- 
- (2) Prior to the issuing of a certificate for a qualification, Umalusi must satisfy itself that the results are verified as being of the required standard. Only after such approval of results by Umalusi, may a request from an assessment body for the issuing of a certificate be considered.
  - (3) The qualification submitted to Umalusi to be certified must comply with the following-
    - (a) Rules of combination;
    - (b) Council requirements for certification in terms of the *GENFETQA Act, 2001*;
    - (c) The policy governing the specific qualification; and
    - (d) The directives for certification.
  - (4) Umalusi must determine the following-
    - (a) Format of the certificate;
    - (b) Printed information on the certificate; and
    - (c) The way in which certificates are replaced.
  - (5) The final certificate to be issued must be signed by the CEO of Umalusi.
  - (6) The issuing of subject statements is optional and will be issued on request from the assessment body.
  - (7) A certification fee must be paid by private colleges and private assessment bodies for the issuing of certificates.

- (8) Candidates from colleges that are suspended from receiving certificates due to fees not being paid may apply at Umalusi for the issuing of their individual certificates. The certificates will be printed upon receipt of proof of payment. The certification fee for this category will be reviewed annually.

**17. Certification of foreign qualifications and jointly quality assured qualifications**

- (1) Umalusi may consider the certification of qualifications that are jointly quality assured with other quality councils.
- (2) Should Umalusi agree to certify a qualification (or a variant of a registered qualification) in terms of an inter-governmental agreement, Umalusi will advise the relevant minister of education regarding the role and responsibilities it is able to undertake in respect of the agreement, and will issue directives for certification in this regard.
- (3) Where it has been agreed among the parties that Umalusi will serve as the certification body on behalf of the ministry of education of another state, or will recognise subjects from a foreign qualification as part of a registered South African qualification, such a body will have to adhere to the quality assurance and certification requirements determined by Umalusi.

**18. The management of certified data**

- (1) Umalusi is the custodian of all certified data and is therefore responsible for verifying certified data for qualifications registered on the GFETQSF.

- (2) Certified data is available for research purposes, but must always be stored in a secured environment to protect the data of individual candidates.
- (3) Certified data for research purposes, as contemplated in subparagraph (2) above, may only be used-
  - (a) within the parameters determined by Umalusi's Ethics Policy and adherence to public laws;

## CHAPTER 4

### RE-ISSUING OF CERTIFICATES

#### 10. Underlying principles for requesting a re-issue

- (1) All requests for the correction of information must be accompanied by the return of the original certificate issued by Umalusi.
- (2) In a case where a candidate has applied for and received a replacement certificate in lieu of a **[document which has been lost or stolen, the assumption]** certificate that has been lost or stolen after receipt by the candidate, the assumption is that the candidate had accepted all information on the original certificate as being correct. In such cases changes to a replacement certificate will not be allowed.
- (3) In the event that there is documentary evidence that the assessment body requested a replacement certificate in lieu of a certificate that had been lost before receipt by the candidate, only then may changes on a replacement certificate be accepted for consideration. In this instance, the replacement certificate will have to be returned to Umalusi.
- (4) All documents submitted must be certified copies, and not older than three months.

- (5) Umalusi reserves the right to request additional information and/or to interview the candidate to support such applications.
- (6) An application from a person who is not a South African citizen, or who has received permanent residency, should be dealt with in terms of this policy when changes are made to a document.

## 11. Re-issue of National Certificates

### (1) Re-issues due to administrative errors -

- (a) **[Administrative errors should be identified and corrected as soon as possible after the candidate received the certificate].** Administrative errors should be prevented by the assessment body and by the candidate. There are [The candidate has] at least three opportunities to correct such errors: during the registration process; upon receipt of the examination timetable; and on receipt of the Statement of Results. However, in the unfortunate situation that administrative errors are identified on a certificate, they should be corrected without any delay.
- (b) The errors should be distinguished from changes to personal particulars as a result of changes/corrections made by the Department of Home Affairs on the National Population Register, or as a result of a legal process. These changes include, for example, the incorrect spelling of a

name or surname and an error in the capturing of an ID number or date of birth.

c) Replacing the date of birth on a certificate with an ID number will be allowed only if evidence is provided that the error occurred due to an administrative error.

(d) The candidates are required to contact the assessment body through which they wrote the examination for assistance and the assessment body must submit the following documentation on their behalf -

- (i) application form detailing the change requested;
- (ii) a detailed affidavit by the candidate indicating the change requested, the reason for the request and the reason for the error not having been detected and corrected prior to the issuance of the certificate. Information on the affidavit must include the name, surname, ID number/date of birth and contact details of the person concerned, affirmation that he/she is the rightful owner of the certificate, and the steps taken to correct the error prior to the issuance of the certificate;
- (iii) certified copy of ID or birth certificate issued prior to the writing of the examination. In the event that the ID was lost after the writing of the examination and a new ID had been issued, a copy of the ID should be accompanied by a letter from the Department of Home Affairs confirming the issue date of the first ID;
- (iv) original Umalusi certificate;
- (v) one of the following documents from the primary or secondary school the candidate attended, reflecting the candidate's [correct] information:
  - school's admission register; or

- preliminary entry schedule signed by the candidate, the parent/guardian and principal; or
  - schedule of results; or
  - entry schedule obtained from the school's administration IT system (e.g. SA-SAMS or CEMIS).
- (vi) **[affidavit]** Letter from the Head of Examinations [assessment body] indicating how the error was identified, what steps were taken to address the error and what steps have been taken in an attempt to prevent future occurrences of the same nature.
- (e) An ID or birth certificate issued after the writing of the national examination *will not* be considered. All copies submitted must be certified and may not be older than three months.
- (e) ***[Umalusi reserves the right to request additional information and/or to interview the candidate to support such applications.]***
- (2) Re-issue due to change of marks -
- (a) An application must be processed by the assessment body within six (6) months of certification.
- (b) It is the responsibility of the assessment body to ensure that the marks submitted at the time of certification have

been verified and all **[mopping-up]** outstanding marks of the examination cycle have been completed.

- (c) The candidate is required to contact the assessment body through which they wrote the examination for assistance and the assessment body must submit the following documentation on behalf of the candidate -
- (i) application form;
  - (ii) a copy of the mark sheet; or

  - (iv) a copy of an audit trail, or the electronic record as the system's verification of the candidate's record, indicating the changes effected, in the event number (ii) or (iii) above cannot be submitted. The audit trail will be allowed only for examinations prior to November 2019.
- [(v) certified copy of ID document or Birth Certificate issued prior to the writing of the examination]**
- (v) original Umalusi certificate; and
  - (vi) a letter **[an affidavit]** from the **[assessment body]** Head of Examinations indicating how the error was identified, what steps were taken to correct the error and what steps have been taken in an attempt to prevent future occurrences of the same nature. The letter**[affidavit]** must also indicate the name, surname, ID number/date of birth and contact information of the individual, the change requested, the reason for the change being requested, and an indication of why the change is being requested after the certificate has been printed.

**[(d) All copies submitted must be certified and not older than three months]**

(d) If the application is for a re-issue due to a change in marks and this is not submitted within six (6) months after certification, a letter signed by the Head of Examinations must be submitted. This letter must indicate how the need for a change in marks was identified and why the request is being submitted more than six months after certification.

**[(e) Umalusi reserves the right to request additional information and/or to interview an assessment body official to support such applications.]**

(3) Re-issues **[resulting from]** due to voluntary changes by the candidate resulting in changes on the National Population Register -

**[(a) Gender change]**

- (ii) a completed application form indicating the change requested;
- (iii) a detailed affidavit by the candidate indicating the change requested and the reason for the request. Information in the affidavit should include the name, surname, ID number/date of birth and

contact details of the applicant, and affirmation that he/she is the rightful owner of the certificate;

- (b) The candidate must bring the amendments to the population register to the attention of Umalusi by making a request for the changes to personal particulars through an assessment body.
- (c) The candidate is required to contact the assessment body through which they wrote the examination for assistance and the assessment body must submit the following documentation on behalf of the candidate -

## PARLIAMENT OF THE REPUBLIC OF SOUTH AFRICA

## NOTICE 590 OF 2021

**Mr. Mogamad Ganief Ebrahim Hendricks, MP****NOTICE OF INTENTION TO INTRODUCE A PRIVATE MEMBER'S BILL  
AND INVITATION FOR COMMENT ON THE DRAFT BILL, NAMELY THE  
INTERIM REGISTRATION OF MUSLIM MARRIAGES BILL, 2021**

Mr. Mogamad Ganief Ebrahim Hendricks, MP, acting in accordance with section 73(2) of the Constitution of the Republic of South Africa, 1996 ("Constitution"), intends to introduce the Interim Registration of Muslim Marriages Bill, 2021 ("the draft Bill"), in the National Assembly of Parliament. An explanatory summary of the member's Bill is hereby published in accordance with Rule 276(1)(c) of the Rules of the National Assembly of Parliament (the 9<sup>th</sup> Edition).

In the Republic of South Africa, Muslim marriages that have only been solemnised in terms of the tenets of Islamic Rulings have never been recognised as valid marriages in law capable of being registered with the Department of Home Affairs. Even in the current constitutional dispensation, the state has failed to enact any legislation recognising and regulating any aspect in relation to Muslim marriages. The failure to recognise and regulate valid Muslim marriages has created a great deal of legal uncertainty resulting in an inability even on the part of legal practitioners to advise their Muslim clients with any reasonable degree of certainty what their rights and obligations are or what remedies are available to them in the circumstances. This causes many Muslim women and men to not pursue any legal action enforcing their rights. The failure to recognise Muslim marriages is an indignity by the state to the entire Muslim faith and the failure to regulate and provide for the registration of Muslim marriages undermines and insults the very foundations on which Islam is built. The failure to recognise the existence of a Muslim marriage is tantamount to not recognising the existence of Muslim people, their religion, customs, traditions and culture. The effect of this continuous gross human rights violations by the state is significant. It is essentially impossible for a person to attend to his or her affairs if one lives in a society where you are not even able to establish the proprietary consequences of a person's marriage upon the conclusion or at the dissolution thereof. There are no mechanisms to safeguard the welfare of minor or dependent children of Muslim marriages at the time of the now informal dissolution of these marriages.

During December 2020, the Supreme Court of Appeal ("the SCA"), in *President of the RSA and Another v Women's Legal Centre Trust and Others; Minister of Justice and Constitutional Development v Faro and Others; and Minister of Justice and Constitutional Development v Esau and Others* 2021 (2) SA 381 (SCA), declared specified sections of the Marriage Act, 1961 (Act No. 25 of

1961) and the Divorce Act, 1979 (Act No. 70 of 1979) inconsistent with the Constitution in so far as these statutes fail to recognise Muslim marriages as valid and lawful marriages capable of being registered with the Department of Home Affairs. On 18 December 2020, the SCA ordered the President and his Cabinet, together with Parliament to remedy this untenable state of affairs by either amending existing legislation, or adopting new legislation, within 24 months from the granting of the court order, in order to recognise Muslim marriages as valid marriages for all purposes in South African law and to regulate the consequences arising from such recognition in our law. This order of invalidity or unconstitutionality of certain parts of existing marital and divorce legislation in so far as it does not make provision for the recognition and registration of Muslim marriages was again argued before the Constitutional Court during August 2021.

In anticipation of there being different schools of thought regarding various aspects in Islamic family law, this draft Bill is designed to identify the minimum elements of a Muslim marriage and to, at the very least, provide an interim and purely temporary resolution to the great indignity caused by the inability to register a Muslim marriage with the Department of Home Affairs, pending the finalisation of a more comprehensive and detailed Act of Parliament to be promulgated (or substantive amendments to existing legislation). This draft Bill is therefore an interim and minimalist Bill designed to provide for the registration of valid Muslim marriages and to regulate some ancillary aspects associated with the registration of these marriages. The draft Bill will lapse upon a far more comprehensive Act coming into operation and that will be accompanied with relevant regulations to be promulgated by both the Minister of Justice and Correctional Services and Minister of Home Affairs. The draft Bill for instance does not deal with divorces separate to that of any other divorce action and does not address the question of polygamous marriages. The reason for this is because history has now taught us that these topics are the contentious issues that will delay the enactment of this crucial Bill – this is something that should be avoided, as any delay in the enactment of this “interim and minimalist Bill” would defeat its entire objective.

The draft Bill therefore, *inter alia*, seeks to provide for the following:

- (a) the registration of Muslim marriages, in the interim, as valid marriages for all purposes in the Republic of South Africa;
- (b) regulating some of the consequences arising from the recognition of Muslim marriages;
- (c) acknowledging the application of other existing domestic legislation to Muslim marriages in specified circumstances;
- (d) interim processes and procedures to be determined by the relevant Minister by promulgating relevant regulations from time to time to be complied with in order to register the conclusion and dissolution of Muslim marriages with the Department of Home Affairs;
- (e) the requirements of a valid Muslim marriage;

- (f) regulating some of the proprietary consequences of Muslim marriages by providing that all Muslim marriages concluded after the commencement of this draft Bill, shall be out of community of property without the operation of the accrual system as the default position, unless the parties agree otherwise;
- (g) the status and legal capacity of spouses in a Muslim marriage by providing that spouses in a Muslim marriage are equal, each with full legal capacity and unhindered status; and
- (h) regulating certain aspects of the dissolution of Muslim marriages in accordance with Islamic rulings.

The intentional failure to address the question of polygamous marriages in this draft Bill does not preclude provision being made for this in the contemplated final and permanent Act of Parliament recognising Muslim marriages. The draft Bill will also not have the effect of prohibiting the conclusion of such customary marriages due to the mere fact that no provision is made for such marriages in this interim draft Bill.

Interested parties and institutions are invited to submit written representations on the proposed content of the draft Bill to the Speaker of the National Assembly of Parliament within 30 calendar days of the publication of this notice. Representations can be delivered to the Speaker, New Assembly Building, Parliament Street, Cape Town; mailed to the Speaker, P O Box 15 Cape Town 8000, or emailed to [speaker@parliament.gov.za](mailto:speaker@parliament.gov.za) and copied to [mhendricks@parliament.gov.za](mailto:mhendricks@parliament.gov.za).
