**FINDINGS DOCUMENT AND POSITION PAPER ON THE OPTIMIZATION OF THE
FREQUENCY MODULATION SOUND BROADCASTING**

1. The Independent Communications Authority of South Africa ("the Authority") initiated an inquiry in terms of section 4B of the Independent Communications Authority of South Africa Act no. 13 of 2000 ("ICASA Act"), through a Discussion Document on the Optimisation of the Frequency Modulation Sound Broadcasting ("Discussion Document") which was published in Government Gazette No. 46152 of 31 March 2022.
2. The Authority had since received three (3) responses to the said Discussion Document by the closing date, 08 June 2022 and has held public hearings on 28 July 2022.
3. Subsequently, the Authority has now prepared a Findings Document and Position Paper on the Optimization of the Frequency Modulation Sound Broadcasting.

A handwritten signature in black ink, appearing to read 'Dr Charles Lewis', written over a horizontal line.

1. BACKGROUND

The Regional Administrative Radio Conference held in Geneva, convened under Articles 7 and 54 of the International Telecommunication Convention (Nairobi, 1982) to establish a plan for sound broadcasting in the 87.5 - 108 MHz band in accordance with Resolution No. 510 of the World Administrative Radio Conference (Geneva, 1979), and No. 584 of the Radio Regulations. The agreement was adopted in the Regional Radiocommunications Conference in Geneva in 1984 by member states of the ITU. The agreement came into force on 1 July 1987¹.

The Fourth African Preparatory Meeting 2019 (APM19-4), the highest decision-making body of ATU was held in East London from 26 to 30 August 2019 to prepare for the next WRC 19 meeting and propose for the new agenda items. The Minister of the Department of Communications and Digital Technologies in APM19-4 launched the ATU Optimization of the Geneva 84 FM Plan for Africa as an important initiative for broadcasting sector as it seeks to maximise efficient use of FM spectrum used by broadcast radio services. She concluded her address by imploring upon the ITU to continue working with the ATU and African member states on initiatives and goals designed to bridge the digital divide and accelerate digital transformation in Africa. South Africa is a member of the ITU and has acceded to the GE84 Plan.

Amongst others, the outcome of the APM19-4 launched the Project on the optimization of the GE84 Plan for Africa. Subsequently, the project is led by the ITU's BR, in collaboration with the ATU. The main purpose of the optimization is to achieve an efficient use of the VHF 87.5-108 MHz ("FM") band for analogue sound broadcasting and to allocate new frequencies for assignment to meet the increasing need for additional frequencies in African countries. Moreover, the project is consistent with GE84 Plan which provides for a Plan modification procedure described in Article 4. The procedure allows a frequency assignment's characteristics to be modified or a new assignment to be entered.

In September 2020, the ITU BR in collaboration with the ATU, organised a series of online workshops aimed at supporting the African administrations in preparing for the

frequency coordination meetings to be held for the GE84 Plan Optimization project for African countries.

The 1st frequency coordination meeting on the GE84 Plan Optimization took place, virtually, from 15 to 19 February 2021. The meeting agreed on the general criteria to facilitate the coordination as summarised in TABLE 1 between the neighbouring countries.

TABLE 1: SUMMARISED GENERAL CRITERIA FOR COORDINATION²

Criteria	Agreement	Comments
Maximum acceptable Nuisance Field Strength (NFS) value allowed between the neighbouring countries.	54 dB μ V/m	Accepted interference level can be agreed upon over and above 54 dB μ V/m depending on coordination agreements between affected neighbouring countries without prejudice. South Africa agreed on a bilateral agreement with other administrations to use 60 dB μ V/m
Min/Max number of additional requirements per site	- Min: 1 (in difficult areas such as borders, coastal areas etc.) - Max: 2 or more (when possible)	This requirement was to ensure that countries acquire equitable assignments along the borders.
Consider the polarization discrimination	10 dB	
To stop any new submission for modification of the GE84 Plan.	20 Feb 2021 to the end of the last coordination meeting.	To suspend the recording of changes and/addition of new assignments to the GE84 plan to give way

² <https://www.itu.int/en/ITU-R/terrestrial/broadcast/africa/Pages/default.aspx>

Criteria	Agreement	Comments
		for the optimization project to run.

The 2nd frequency coordination meeting subsequently took place from 28 June – 2 July 2021 with the 3rd and final coordination meeting taking place from the 24-28 January 2022.

On 31 March 2022, the Authority published³ the Discussion Document on the optimisation of the frequency modulation sound broadcasting. The published discussion document aimed to solicit the stakeholders' views and inputs on the frequencies identified through the GE84 Optimization process in the FM band (87.5 -108 MHz) allocated for sound broadcasting in the National Radio Frequency Plan, with the view to categorise these for public, commercial and community sound broadcasting in order to update the assignments.

On 08 June 2022, the Authority received three (03) public representations responding to the discussion document from the South African Broadcasting Corporation (SABC), SENTECH and Mr Sivuyile Rasi ("Mr Rasi"). The public representations were supplemented by the public hearings which was held on 28 July 2022. The Authority considered the submissions and prepared the findings as provided in this document.

2. LEGISLATIVE AND REGULATORY FRAMEWORK

The Independent Communications Authority of South Africa (hereinafter referred to as "ICASA" or "the Authority") derives its mandate to regulate the South African broadcasting sector from the Constitution of the Republic of South Africa, 1996⁴ ("the Constitution"), the Independent Communications Authority of South Africa Act, 2002 (Act No. 13 of 2000)⁵, as amended ("the ICASA Act"), the Electronic Communications Act, 2005 (Act No. 36 of 2005)⁶, as amended ("the ECA") and the Broadcasting Act,

³ In the Government Gazette No. 46152 of 2022

⁴ See section 192 of the Constitution which states that national legislation must establish an independent authority to regulate broadcasting in the public interest, and to ensure fairness and a diversity of views broadly representing South African society.

⁵ See section 2 (a) of the ICASA Act which states that the object of the ICASA Act is to establish an independent authority which is to regulate broadcasting in the public interest and to ensure fairness and a diversity of views broadly representing South African society, as required by section 192 of the Constitution.

⁶ See section 2 of the ECA.

1999 (Act No 4. of 1999)⁷, as amended ("the Broadcasting Act") read with section 34 (1) (c) of the ECA.

Section 30 (1) of the ECA stipulates that *"In carrying out its functions under this Act and the related legislation, the Authority controls, plans, administers and manages the use and licensing of the radio frequency spectrum except as provided for in section 34"*.

Section 30 (2)(a) of the ECA stipulates that *"In controlling, planning, administering, managing, licensing and assigning the use of the radiofrequency spectrum, the Authority must comply with the applicable standards and requirements of the ITU and its Radio Regulations, as agreed to or adopted by the Republic, as well as with the national radiofrequency plan contemplated in section 34 ..."*

Section 30 (2) of the Electronic Communications Act No. 36 of 2005, mandates the Authority to control, plan, administer, manage, license and assign the use of radio frequency spectrum. In executing the aforementioned mandate, the Authority must ensure compliance with applicable standards and requirements of the International Telecommunications Union's (ITU) Radio Regulations, and the National Radio Frequency Plan.

Further, section 2 (f) of the ECA mandates the Authority to promote competition within the ICT sector, in order to fulfil this mandate, the plan allows for frequency assignments with similar coverage areas (commercial, public and community) in shared licence areas. This allows for effective competition between different broadcasters due to equal potential audience and viewership.

Section 2(s) of the ECA promotes diversity of services. The TBFP contributes to diversity by ensuring audience have access to different categories of broadcasting services within geographical areas.

3. CATEGORISATION OF NEW SPARE FREQUENCIES

In relation to the twenty-nine (29) new spare frequencies identified and proposed for categorisation, SABC submitted that the categorisation model needs to be looked at as it appears to be biased against the public broadcaster because only five new frequencies

⁷ See section 2 of the Broadcasting Act.

have been categorised for the public broadcaster. SENTECH requested clarity from the Authority in relation to the methodology used to determine categorisation of the newly identified spare frequencies. Moreover, SENTECH submitted that it is not clear if the newly identified frequencies are available assignment once the TBFP is updated.

SENTECH, as part of its consideration of the newly identified spare frequencies have submitted that there is a possibility of the harmful interference to be experienced by:

- Simonstown on 103.8 MHz;
- Knysna on 93.6 MHz;
- Bedford on 107.4 MHz;
- Bothitong on 97.1 MHz; and
- Douglas on 107.5 MHz.

Authority's Response

The Authority understands that the methodology applied is consistent with the principle of fairness and not aimed at prejudicing any of the three tiers of broadcasting. Table 5 demonstrates the number of spare coordinated frequencies per each site where there is a newly found frequency to be categorised. The categorisation methodology takes into consideration the existing categorised assignments and spare frequencies of each transmitter as provided in Annexure A of the TBFP in order to establish the less catered tier(s) of broadcasting. The less catered tier will then be assigned the newly identified frequency.

Demonstrating with Alexander Bay transmitter site, there are four (4) existing PBS frequencies, one (1) existing CML frequency and one (1) existing CTY frequency, therefore CML and CTY are less catered tiers. In Alexander Bay five (5) new frequencies were identified and were divided as follows: one (1) for PBS and two (2) each for CML and CTY. In total, PBS will have 5 (five) frequency assignments, CML will have three (3) frequency assignments and CTY will have three (3) frequency assignments in Alexander Bay.

The Authority found that the methodology used to categorise newly found frequencies was perceived to be unclear and unfair.

Sentech has submitted five (5) newly found frequencies which will cause harmful interference with existing assignments. The Authority confirms after re-running the

analysis that only three (3) newly found frequencies submitted by Sentech would cause harmful interference if introduced. Bothitong site on 97.1 MHz can coexist with other assignments with the reduced ERP of 5 kW, and there was no harmful interference detected for Douglas site on 107.5 MHz.

The Authority will apply the categorisation methodology consistently to assign the newly found frequencies to the less catered tier(s) of broadcasting per transmitter and update the Annexure A of the TBFP.

The Authority is removing the three (3) newly found frequencies (Simonstown 103.8 MHz; Knysna 93.6 MHz and Bedford on 107.4 MHz) that will cause harmful interference with the existing assignments. Bothithong 97.1 MHz is included with the reduced ERP of 5 kW, whereas Douglas 107.5 MHz is maintained as is. Annexure A of the TBFP and the GE-84 Plan are updated to reflect the assignments as provided in Table 2.

4. SUPPRESSION AND WITHDRAWAL IN THE GE84 PLAN

In relation to the proposed assignments for suppression, SENTECH submitted a proposal to move Blouberg site's assignments to the Tolwe site.

Mr Rasi submitted that there is no need to suppress 99.9 MHz assignment at Uniondale site considering that Kouga FM is operating at 97.8 MHz.

Authority's Findings

The Authority has noted that the Blouberg site have since been decommissioned, and the two sites are relatively close to each other. All assignments from Blouberg site have been moved to Tolwe FM as per our records except Jacaranda FM.

The frequency of 99.9 MHz at Kareedouw is assigned to Kouga FM as per the issued Radio Frequency Spectrum Licence. Kareedouw 99.9 MHz can co-exist with Uniondale 99.9 MHz without causing harmful interference with each other. The co-existence has been validated through the technical analysis conducted.

Authority's Positions

The assignments of Blouberg sites have been moved to Tolwe site except for the assignment of Jacaranda FM which may be initiated by the Licensee through the amendment process and coordination with the neighbouring administration.

Kareedouw assignment of 99.9 MHz will co-exist with the Uniondale assignment on a co-channel. The Authority is going to suppress assignments provided in Table 3 in the GE-84 Plan and the TBFP.

TABLE 3: FREQUENCY ASSIGNMENTS IDENTIFIED FOR SUPPRESSION IN THE GE84 PLAN

Transmitter site name	Geo-Coordinates		Frequency	Comments
	Lat	Long		
ALICE	32°40'00"S	26°50'00"E	88.2 MHz	Suppression required. It causes interference to Forte Community Radio at King Williams Town 88.2 MHz
ALICE	32°40'00"S	26°50'00"E	94.5	Suppression required. It causes interference to Tru FM at Grahamstown 94.5 MHz
CALA	31°33'00"S	27°45'00"E	96.6 MHz	Suppression required. It causes interference to Engcobo Community Radio at Engcobo 96.6 MHz
DULLSTROOM	25°34'00"S	30°11'00"E	107.6 MHz	Suppression required. In the TBFP and Info DB is listed as 107.7 MHz Ikwewezi
DEVILS BELLOWS	32°25'00"S	26°39'00"E	97.8 MHz	Suppression required. It causes interference to Tru FM at Queenstown 97.8 MHz
GA RANKUWA	25°36'00"S	28°02'00"E	107.5 MHz	Suppression required. It causes interference to Bosveld Stero at BRITS1 107.5 MHz
JOHANNESBURG	26°12'00"S	28°00'00"E	107.9 MHz	Suppression required. Appears as 107.8 MHz in the TBFP and on Info DB.
KOMATIEPOORT	25°13'00"S	31°47'00"E	100.2 MHz	Suppression required. It causes interference to Nkomanzi at Mbuzini 100.2 MHz
STEYTLERVILLE	33°19'00"S	24°22'00"E	91.5 MHz	Suppression required. It causes interference to Umhlobo Wenene at PATENSIE 91.6 MHz
STEYTLERVILLE	33°19'00"S	24°22'00"E	94.7 MHz	Suppression required. It causes interference to Algoa at PATENSIE 94.8 MHz
TAUNG	27°32'00"S	24°37'00"E	95.1 MHz	Suppression required. It causes interference to Bophirima at CHRISTIANA 95.1 MHz
UNIONDALE	33°43'00"S	23°03'00"E	99.9 MHz	Suppression required. This frequency is already used by Kouga FM at Kareedouw
ALICE	32°40'00"S	26°50'00"E	91.3MHz	Suppression required. It causes interference with Alicedale at 91.3 MHz licensed to Umhlobo Wenene
PILANESBERG	25°21'00"S	27°06'00"E	93.3 MHz	Suppression required. It causes interference to Mafisa at Rustenberg1 93.4 MHz
BLOUBERG	23°04'00"S	28°59'00"E	89.2 MHz	Suppression required. Sentech is switching off this site. Deleted from the TBFP and Info DB
BLOUBERG	23°04'00"S	28°59'00"E	92.3 MHz	Suppression required. Sentech is switching off this site. Deleted from the TBFP and Info DB
BLOUBERG	23°04'00"S	28°59'00"E	102.3 MHz	Suppression required. Sentech is switching off this site. Deleted from the TBFP and Info DB
BLOUBERG	23°04'00"S	28°59'00"E	105.9 MHz	Suppression required. Sentech is switching off this site. Deleted from the TBFP and Info DB
STEYTLERVILLE	33°19'00"S	24°22'00"E	101.5 MHz	Suppression required. It causes interference to Patensie 101.5 MHz licensed to RSG
SIMONSTOWN	34°11'55"S	18°25'36"E	103.8 MHz	Suppression required. It causes interference to Tygerberg operating on 104 MHz
KNYSNA	34°04'17"S	23°02'31"E	93.6 MHz	Suppression required. It causes interference to George operating on 93.8 MHz
BEDFORD	32°37'57"S	26°02'57"E	107.4 MHz	Suppression required. It causes interference to Grahamstown operating 107.1 MHz

5. MODIFICATION OF GE84 PLAN

Mr Rasi proposed that the Port Elizabeth site's name be modified by adding Lady Slipper in the bracket as it is under Port Elizabeth. Moreover, Mr Rasi submitted that Suurberg and Zuurberg are similar sites, so proposes that Zuurberg be changed to Suurberg.

Authority's Findings

The Authority found that Lady Slipper and Port Elizabeth are different sites since the GPS coordinates are not the same.

The Authority confirms that Zuurberg and Suurberg are the same sites.

Lady Slipper and Port Elizabeth sites are different and will be retained in the TBFP and the GE-84 Plan as such.

The site name Zuurberg is updated to reflect Suurberg in the TBFP and the GE-84 Plan.

Table 4 reflects frequency assignments consistent with the Annexure A of the TBFP that will be modified in the GE-84 Plan.

TABLE 4: MODIFICATION (MOD) OF FREQUENCY ASSIGNMENTS IDENTIFIED AND ADDED TO GE84 PLAN

Transmitter site name	Geo-Coordinates		Frequency	ERP (KW)	Comments
	Lat	Long			
BARKLY EAST	30°57'00"S	27°33'00"E	87.8 MHz	0.5	MOD Required. Site location/ coordinates changed - see the TBFP and Info DB
BARKLY EAST	30°57'00"S	27°33'00"E	90.9 MHz	0.5	MOD Required. Site location/ coordinates changed - see the TBFP and Info DB
BARKLY EAST	30°57'00"S	27°33'00"E	94.1 MHz	0.5	MOD Required. Site location/ coordinates changed - see the TBFP and Info DB
BARKLY EAST	30°57'00"S	27°33'00"E	97.4 MHz	0.5	MOD Required. Site location/ coordinates changed - see the TBFP and Info DB
BARKLY EAST	30°57'00"S	27°33'00"E	100.9 MHz	0.5	MOD Required. Site location/ coordinates changed - see the TBFP and Info DB
BARKLY EAST	30°57'00"S	27°33'00"E	104.5 MHz	0.5	MOD Required. Site location/ coordinates changed - see the TBFP and Info DB
CONSTANTIABERG	34°03'00"S	18°23'00"E	89 MHz	10	MOD Required. Site name to be changed to Cape Town
CONSTANTIABERG	34°03'00"S	18°23'00"E	92.1 MHz	10	MOD Required. Site name to be changed to Cape Town
CONSTANTIABERG	34°03'00"S	18°23'00"E	95.3 MHz	10	MOD Required. Site name to be changed to Cape Town
CONSTANTIABERG	34°03'00"S	18°23'00"E	98.6 MHz	10	MOD Required. Site name to be changed to Cape Town
CONSTANTIABERG	34°03'00"S	18°23'00"E	102.1 MHz	10	MOD Required. Site name to be changed to Cape Town
CONSTANTIABERG	34°03'00"S	18°23'00"E	105.7 MHz	10	MOD Required. Site name to be changed to Cape Town
PUNDA MILIA	22°44'00"S	30°59'00"E	89.3 MHz	5	MOD Required. Name correction to "Punda Maria"
PUNDA MILIA	22°44'00"S	30°59'00"E	92.4 MHz	5	MOD Required. Name correction to "Punda Maria"
PUNDA MILIA	22°44'00"S	30°59'00"E	95.6 MHz	5	MOD Required. Name correction to "Punda Maria"
PUNDA MILIA	22°44'00"S	30°59'00"E	98.9 MHz	5	MOD Required. Name correction to "Punda Maria"
PUNDA MILIA	22°44'00"S	30°59'00"E	102.4 MHz	5	MOD Required. Name correction to "Punda Maria"
UPINGTON	28°53'00"S	21°44'00"E	98.2 MHz	1	MOD Required. Change coordinates and the name to Upington Rosedale
Zuurberg	33°14'55"S	25°34'29"E	99.7 MHz	2	MOD Required. Change site name to Suurburg

6. AMENDMENT PROCESS FOR ASSIGNMENTS THAT ARE NOT PART OF THE GE84 PLAN

No inputs were received.

Authority's Position

The amendment process for assignments that are not part of the GE-84 plan will be implemented.

7. UPDATE OF THE VHF/FM TABLE OF THE TERRESTRIAL BROADCASTING FREQUENCY PLAN

SABC submits that the accuracy of the TBFP is in serious bad condition since the Authority has not been updating it regularly. SABC suggest that the draft update of the VHF/FM table of TBFP be made a second draft rather than final update and series of meetings with them is proposed to align. Moreover, SABC has provided comments on the draft VHF/FM table of the TBFP on seventy-eight (78) assignments for the Authority's consideration indicating their understanding of misalignment.

On the other hand, Mr Rasi has provided comments on nine (9) assignments for the Authority's consideration. Mr Rasi submitted that Kareedouw 99.9 MHz is spare community frequency and there is no need to suppress it at Uniondale due Kouga FM broadcasting on 97.8 MHz. At King Williams Town, Mr Rasi submitted that 100.6 MHz will be interfered with 100.5 MHz in East London licensed to Rhythm FM and 102.5 MHz is a spare community frequency. At Port Elizabeth 93.8 is licensed to Rhythm FM and at Port Elizabeth 4 88.7 MHz is a spare community frequency. At Lady Slipper 87.6 MHz is licensed to PE FM and Luister FM is licensed on 89.6 and 90.6 MHz at the same site. At Zuurberg (to be changed to Suurberg) Oasis FM is licensed on 99.7 MHz.

Authority's Findings

The Authority has consulted with the SABC regarding the misalignment in the VHF/FM table of the TBFP. The Authority found that out of the seventy-eight (78) assignments submitted by the SABC, seventeen (17) assignments need to be amended via the amendment application process, one (1) frequency from Maphere (101.6 MHz) to be deleted. Nineteen (19) assignments were aligned with the Authority's database and the radio frequency spectrum licences issued. Twenty-seven (27) frequency assignments

need to be modified on the TBFP and GE-84 Plan. Fourteen (14) assignments are licensed (or planned) but not operational from the SABC's side.

The Authority found that Uniondale 99.9 MHz can co-exist with Kareedouw 99.9 MHz. It was also found that there will be possible harmful interference between King William 100.6 MHz and East London 100.5 MHz. It was also found that 87.6 MHz at Lady Slipper is not on the Authority's database. It was also found that the frequency of 88.7 MHz at Port Elizabeth 4 and the frequency of 102.5 MHz at King Williams Town are spare community frequencies. It was found that Rhythm FM is licensed on 93.8 MHz at Port Elizabeth and Luister FM is licensed on 90.6 MHz and 89.6 MHz at Lady Slipper.

The frequency assignments that are not licensed to the SABC will not be part of the Table 5 VHF/FM Table of the TBFP. The SABC is advised to submit radio frequency spectrum licence amendment applications where necessary and the VHF/FM Table of the TBFP is updated where the Authority and the SABC have agreed.

The Authority has also updated VHF/FM Table of the TBFP as per Mr Rasi's comments as provided in Table 5.

Keys

 Newly identified frequencies and existing frequency assignments that were not part of TBFP.

 Existing frequency assignments that need suppression and removed from TBFP because of harmful interference.

 Frequency assignments that are part of TBFP and remain unchanged.

 Frequency assignments that are not added to GE84 Plan due to further coordination engagements with the affected countries required.

725	KNYSNA	34S04 18	23E02 35	93.6	0.2	V		SPA	CTY	Newly identified frequencies	George 93.8 MHz, interference 56.95 %	No interference on etobols but interference on wrap at Knysna
10	ALEXANDER BAY	28S36 39	16E29 55	93.1	0.05	V		SPA	CTY	Newly identified frequency	No interference to any broadcast assignment in the plan	In agreement
11	ALEXANDER BAY	28S36 39	16E29 55	87.9	0.05	V		SPA	CTY	Newly identified frequency	No interference to any broadcast assignment in the plan	In agreement
12	ALEXANDER BAY	28S36 39	16E29 55	91	0.05	V		SPA	CML	Newly identified frequency	No interference to any broadcast assignment in the plan	In agreement
13	ALEXANDER BAY	28S36 39	16E29 55	94.2	0.05	V		SPA	CML	Newly identified frequency	No interference to any broadcast assignment in the plan	In agreement
14	ALEXANDER BAY	28S36 39	16E29 55	97.5	0.05	V		SPA	PBS	Newly identified frequency	No interference to any broadcast assignment in the plan	In agreement
832	LOUTERWATER	33S45 01	23E31 09	107.3	0.02	H		SPA	CTY	Newly identified frequency	1. No interference to any broadcast assignment in the plan. 2. Louterwater is a Low Power Low Cost Transmitter Site for SABC FM expansion.	Sentech to explain point number 2
833	LOUTERWATER	33S45 01	23E31 09	103.7	0.02	H		SPA	CML	Newly identified frequency	1. No interference to any broadcast assignment in the plan. 2. Louterwater is a Low Power Low Cost Transmitter Site for SABC FM expansion.	Sentech to explain point number 2
574	HEXRIVER	33S30 54	19E39 23	100.5	0.1	V		SPA	PBS	Newly identified frequency	No interference to any broadcast assignment in the plan	In agreement
575	HEXRIVER	33S30 54	19E39 23	104.1	0.1	V		SPA	CTY	Newly identified frequency	No interference to any broadcast assignment in the plan	In agreement

667	KIESEL	23S52 00	27E08 00	100.5	1	H		SPA	PBS		Newly identified frequency.	1. No interference to any broadcast assignment in the plan. 2. Theoretical Transmitter Site.	In agreement
269	DOUGLAS	29S04 09	23E31 43	107.5	10	H		SPA	CTY		Newly identified frequency.	Priests 107.6 MHz. Interference 19.74 %	There is no Prieska 107.6 MHz on TBFP. No harmful interference detected.
468	GRAAFF-REINET	32S04 48	24E27 00	103.8	1	V		SPA	CTY		Newly identified frequency	1. No interference to any broadcast assignment in the plan 2. RSGR is operational on 103.3MHz. combining the frequency in the main FM antenna will be expensive for broadcasters due to channel spacing.	In agreement
1642	VANRHYNSDOR P	31S45 17	18E41 22	103.9	3	H		SPA	CTY		Newly identified frequency	1. No interference to any broadcast assignment in the plan 2. RSGR is operational on 103.4MHz. combining the frequency in the main FM antenna will be expensive for broadcasters due to channel spacing.	In agreement
1643	VANRHYNSDOR P	31S45 17	18E41 22	107.5	3	H		SPA	CTY		Newly identified frequency	1. No interference to any broadcast assignment in the plan 2. SAFM is operational on 107.0MHz. combining the frequency in the main FM antenna will be expensive for broadcasters due to channel spacing.	In agreement
426	GANYESA	26S36 12	24E16 00	107.5	1	H		SPA	CML		Newly identified frequency	No interference to any broadcast assignment in the plan	In agreement
103	BLOUBERG	23S04 19	28E59 12	89.2	0.2	V	THOBELA	OPE	PBS	1985/06 /01	Suppression. Sentech is switching off this site.	ICASA approved service move to Tolwe, with new frequency 88.5 MHz. Channel 89.2 MHz available for assignment at Tolwe or surrounding area. Services have been on air since 1 June 2022.	89.2 MHz can be added TOLWE. Coordination required with Botswana
104	BLOUBERG	23S04 19	28E59 12	92.3	0.2	V	MOTSWEDI NG	OPE	PBS	1985/06 /01	Suppression. Sentech is switching off this site.	2. ICASA approved service move to Tolwe, retaining frequency 92.3 MHz. Services have been on air since 1 June 2022.	92.3 MHz can be added to TOLWE. Coordination required with Botswana
106	BLOUBERG	23S04 19	28E59 12	102.3	0.2	V	RSG	OPE	PBS	1985/06 /01	Suppression. Sentech is switching off this site.	4. ICASA approved service move to Tolwe, retaining frequency 102.3 MHz. Services have been on air since 1 June 2022.	102.3 MHz is added at TOLWE. Licensed to RSG
107	BLOUBERG	23S04 19	28E59 12	105.9	0.2	V	SAFM	OPE	PBS	1985/06 /01	Suppression. Sentech is switching off this site.	5. ICASA approved service move to Tolwe, retaining frequency 105.9 MHz. Services have been on air since 1 June 2022.	105.9 MHz can be added at TOLWE. Coordination required with Botswana

105	BLOUBERG	23S04 19	28E59 12	95.5	0.2	V	JACARAND A	OPE	CML	1985/06 /01	In agreement

Table 8: Sivuyile Rasi's Submission

Transmitter Site	Frequency (MHZ)	Sivuyile Rasi's Comments	ICASA's Response
Kareedouw	99.9	This is a spare community frequency so there is no need to suppress 99.9 at Uniondale. Kouga FM broadcasts on 97.8 Mhz.	Uniondale 99.9 MHz can co-exist with Kareedouw 99.9 MHz. Uniondale 99.9 is categorized for PBS. Regions to investigate Kouga FM using 97.8 MHz.
King Williams Town 1	100.6	An interference will be caused to 100.5 in East London licensed to Rhythm FM.	Possible interference with East London 100.5 MHz - Rhythm FM. Frequency 100.6 MHz is already published in the ITPR 2022
King Williams Town	102.5	Spare community frequency	Sunshine FM's Licence has expired
Port Elizabeth	93.8	Rhythm FM	Licensed to Rhythm FM. TBFP is updated
Lady Slipper	87.6	PEFM	We Can't find this one in our database.
Lady Slipper	89.6	Luister FM - It is my humble opinion that Lady Slipper should be under Port Elizabeth with brackets (Lady Slipper).	Licensed to Luister FM. Site name is Telkom on TBFP
Lady Slipper	90.6	Luister FM - It is my humble opinion that Lady Slipper should be under Port Elizabeth with brackets (Lady Slipper).	Licensed to Luister FM
Port Elizabeth 4	88.7	This is a spare community frequency.	Emmunual FM's licence has expired
Zuurberg	99.7	Oasis FM - Zuurberg & Suurburg is the same site and should reflect as such in the FM Frequency Plan.	Zuurberg and Suurburg is the same site. Difference is one second on the GPS coordinates
