Department:
Government Printing Works
REPUBLIC OF SOUTH AFRICA

HIGH ALERT: SCAM WARNING!!!

TO ALL SUPPLIERS AND SERVICE PROVIDERS OF THE GOVERNMENT PRINTING WORKS

It has come to the attention of the *GOVERNMENT PRINTING WORKS* that there are certain unscrupulous companies and individuals who are defrauding unsuspecting businesses disguised as representatives of the *Government Printing Works (GPW)*.

The scam involves the fraudsters using the letterhead of *GPW* to send out fake tender bids to companies and requests to supply equipment and goods.

Although the contact person's name on the letter may be of an existing official, the contact details on the letter are not the same as the *Government Printing Works*. When searching on the Internet for the address of the company that has sent the fake tender document, the address does not exist.

The banking details are in a private name and not company name. Government will never ask you to deposit any funds for any business transaction. *GPW* has alerted the relevant law enforcement authorities to investigate this scam to protect legitimate businesses as well as the name of the organisation.

Example of e-mails these fraudsters are using:

PROCUREMENT@GPW-GOV.ORG

Should you suspect that you are a victim of a scam, you must urgently contact the police and inform the *GPW*.

GPW has an official email with the domain as @gpw.gov.za

Government e-mails DO NOT have org in their e-mail addresses. All of these fraudsters also use the same or very similar telephone numbers. Although such number with an area code 012 looks like a landline, it is not fixed to any property.

GPW will never send you an e-mail asking you to supply equipment and goods without a purchase/order number. *GPW* does not procure goods for another level of Government. The organisation will not be liable for actions that result in companies or individuals being resultant victims of such a scam.

Government Printing Works gives businesses the opportunity to supply goods and services through RFQ / Tendering process. In order to be eligible to bid to provide goods and services, suppliers must be registered on the National Treasury's Central Supplier Database (CSD). To be registered, they must meet all current legislative requirements (e.g. have a valid tax clearance certificate and be in good standing with the South African Revenue Services - SARS).

The tender process is managed through the Supply Chain Management (SCM) system of the department. SCM is highly regulated to minimise the risk of fraud, and to meet objectives which include value for money, open and effective competition, equitability, accountability, fair dealing, transparency and an ethical approach. Relevant legislation, regulations, policies, guidelines and instructions can be found on the tender's website.

Fake Tenders

National Treasury's CSD has launched the Government Order Scam campaign to combat fraudulent requests for quotes (RFQs). Such fraudulent requests have resulted in innocent companies losing money. We work hard at preventing and fighting fraud, but criminal activity is always a risk.

How tender scams work

There are many types of tender scams. Here are some of the more frequent scenarios:

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to a company to invite it to urgently supply goods. Shortly after the company has submitted its quote, it receives notification that it has won the tender. The company delivers the goods to someone who poses as an official or at a fake site. The Department has no idea of this transaction made in its name. The company is then never paid and suffers a loss.

OR

Fraudsters use what appears to be government department stationery with fictitious logos and contact details to send a fake RFQ to Company A to invite it to urgently supply goods. Typically, the tender specification is so unique that only Company B (a fictitious company created by the fraudster) can supply the goods in question.

Shortly after Company A has submitted its quote it receives notification that it has won the tender. Company A orders the goods and pays a deposit to the fictitious Company B. Once Company B receives the money, it disappears. Company A's money is stolen in the process.

Protect yourself from being scammed

- If you are registered on the supplier databases and you receive a request to tender or quote that seems to be from a government department, contact the department to confirm that the request is legitimate. Do not use the contact details on the tender document as these might be fraudulent.
- Compare tender details with those that appear in the Tender Bulletin, available online at www.gpwonline.co.za
- Make sure you familiarise yourself with how government procures goods and services. Visit the tender website for more information on how to tender.
- If you are uncomfortable about the request received, consider visiting the government department and/or the place of delivery and/or the service provider from whom you will be sourcing the goods.
- In the unlikely event that you are asked for a deposit to make a bid, contact the SCM unit of the department in question to ask whether this is in fact correct.

CAPE VULTURES

PROTOCOL FOR THE SPECIALIST ASSESSMENT AND MINIMUM REPORT CONTENT REQUIREMENTS FOR ENVIRONMENTAL IMPACTS ON CAPE VULTURES BY ONSHORE WIND ENERGY GENERATION FACILITIES WHERE THE ELECTRICITY OUTPUT IS 20 MEGAWATTS OR MORE

1. SCOPE

This protocol provides the criteria for the specialist assessment and minimum report content requirements for determining impacts on Cape Vultures associated with the development of onshore wind energy generation facilities where the electricity output is 20 megawatts or more, which require environmental authorisation and are proposed to be located on a site identified by the national web based screening tool (screening tool) as being of "very high" or "high" sensitivity for the potential collision of Cape Vultures with wind turbines as identified in the Cape Vulture theme.

This protocol must be read with the Protocol on Avifaunal Species¹ and the site sensitivity verification required in terms of this Protocol must be undertaken in parallel with the reconnaissance study and pre-application avifaunal monitoring plan required in terms of the Protocol on Avifaunal Species, prior to commencing with the Cape Vulture specialist assessment.

The collision risk potential identified by the screening tool for Cape Vultures is based on data provided by the FitzPatrick Institute of African Ornithology of the University of Cape Town and HawkWatch International. This Protocol applies within and outside of the Renewable Energy Development Zones (REDZs)².

2. SITE SENSITIVITY VERIFICATION AND MINIMUM REPORT CONTENT REQUIREMENTS

Prior to commencing with the Cape Vulture specialist assessment, and in parallel with the reconnaissance study and pre-application avifaunal monitoring plan required in terms of the Protocol on Avifaunal Species, the collision risk potential for Cape Vultures on the preferred site as identified by the screening tool must be confirmed. The potential collision of Cape Vultures with wind turbines is to be confirmed by undertaking a site sensitivity verification for a period of at least 12 months, with surveys timed to account for as much seasonal variation as possible. A minimum of 6 site visits must be conducted within the 12 month period.

2.1. The site sensitivity verification must be undertaken by a specialist registered in the field of zoological or ecological science with the South African Council for Natural Scientific Professions (SACNASP) with demonstrated expertise in Cape Vulture observation and research.

2.2. The site sensitivity verification must be undertaken through the use of:

(a) site inspections to-

- i. identify the land use in the surrounding areas within a 10 km radius of the preferred site with specific reference to the possible location of vulture restaurants or land uses which could result in carcass availability;
- ii. identify any specific topographical features on the site which could attract or pose a risk to Cape Vultures including existing power lines within a 10 km radius of the preferred site;
- iii. verify the size and status of known breeding sites and roosts within a 30 km radius of the proposed preferred site that have not been monitored by any scientific body within the past 5 years;
- iv. continuously monitor wind speed and other weather data that could influence Cape Vulture activity on the preferred site throughout the site sensitivity verification period;

¹ Government Notice No. 320 published under Government Gazette No. 43110 of 20 March 2020

² Renewable Energy Development Zones as published under Government Notice No. 114, Gazette No. 41445 on 16 February 2018 and Government Notice No. 144, Government Gazette No. 44191 of 26 February 2021

- (b) vantage point monitoring³ by two people⁴ at the same time for a duration of at least 72 hours per vantage point, once per month for the 12 month period, in order to determine the level of Cape Vulture flight activity on the preferred site and the height of flight;
- (c) consultation with relevant non-governmental organisations⁵ with an interest in Cape Vulture protection; and
- (d) any other available and relevant information.

2.3. The outcome of the site sensitivity verification must be recorded in the form of a report that:

- (a) confirms or disputes the environmental sensitivity as identified by the screening tool (Cape Vulture risk layer);
- (b) contains a motivation, corroborated by evidence (e.g. monitoring data) and input from any non-governmental organisations with an interest in Cape Vulture protection or Cape Vulture experts, of either the verified or different environmental sensitivity; and
- (c) where the site sensitivity verification has confirmed the site as being of a "medium" or "low" sensitivity for collision risk to Cape Vultures, the site sensitivity verification report must be included in the assessment report required to be submitted in accordance with the requirements of the Environmental Impact Assessment Regulations.

3. SPECIALIST ASSESSMENT AND MINIMUM REPORT CONTENT REQUIREMENTS

TABLE 1: ASSESSMENT AND REPORTING OF IMPACTS ON CAPE VULTURES FOR ONSHORE WIND ENERGY GENERATION FACILITIES WHERE THE ELECTRICITY OUTPUT IS 20 MEGAWATTS OR MORE

1. General Information

- 1.1 An applicant intending to undertake an activity identified in the scope of this protocol on a site identified by the screening tool and verified by the site sensitivity verification report as being of "very high" or "high" sensitivity for the potential collision of Cape Vultures with wind turbines, must submit a Cape Vulture Specialist Assessment that includes an assessment of impacts on Cape Vultures, unless the information gathered from undertaking the site sensitivity verification confirms that the occurrence of Cape Vultures on the site is "medium" or "low"⁶, in which case the requirements of the Specialist Assessments required in the Protocol on Avifaunal Species must be complied with, and the site sensitivity verification report required in paragraph 2 of this Protocol must be included in the Avifaunal Specialist Assessment Report required under the Protocol on Avifaunal Species.
- 1.2 If any part of the proposed development footprint falls within an area of "very high" or "high" sensitivity, the assessment and reporting requirements prescribed for the "very high" or "high" sensitivity apply to the entire development footprint.
- 1.3 An applicant intending to undertake an activity identified in the scope of this protocol on a site identified by the screening tool as being of "medium" or "low" sensitivity for the potential collision of Cape Vultures with wind turbines, must comply with the requirements of the Protocol on Avifaunal Species and the site sensitivity verification report required in terms of this Protocol, which confirms the "medium" or "low" sensitivity, must be included in the Avifaunal Specialist Assessment Report required under the Protocol on Avifaunal Species.

³ Vantage point monitoring is to be undertaken in accordance with the method as identified in the latest version of the BirdLife South Africa Guideline for impact assessment, monitoring and mitigation.

⁴ The vantage point monitors and colony/roost surveyors do not need to be SACNASP registered but must be appointed by the SACNASP registered specialist and work under the direction of this specialist.

⁵ These organisations can include BirdLife South Africa, VulPro and the Endangered Wildlife Trust.

⁶ Low in the context of a potential collision risk of a Cape Vulture with a wind turbine means that the level of Cape Vulture flight activity over the site is low and where Cape Vultures are identified the height is consistently observed exceeding the tip of the turbine blade and no behaviour that would bring the Cape Vulture into contact with the wind turbine blades is observed throughout the 12 month period observation.

VERY HIGH AND HIGH SENSITIVITY RATING – areas where there is a very high probability of encountering Cape Vultures and where there is high risk of population-level impacts from the loss of Cape Vulture individuals.

These areas are potentially unsuitable for wind energy development.

2. Cape Vulture Specialist Assessment

2.1. The assessment must be undertaken by a specialist registered in the field of zoological science or ecological science with SACNASP with proven experience in the field of Cape Vulture conservation.

2.2. The following information or data (in addition to that collected as part of the site sensitivity verification) must be collected through, among others, site investigation and searches in the area to inform the assessment:

- 2.2.1. Constructed wind energy developments for which environmental authorisation have been granted within a 30km radius⁷, including their location and GPS coordinates;
- 2.2.2. any power line that poses an electrocution risk due to its design, or a collision risk due to the absence of bird flight diverters or any wind measurement masts within a 5km radius of the preferred site⁸;
- 2.2.3. data from an additional⁹ twelve months of Cape Vulture monitoring, focusing on the collection of additional flight activity through the preferred site, flight direction, behaviour, and specific data necessary to populate a collision risk model;

- 2.2.7. confirmation that the power lines identified that pose an electrocution risk due to its design, or a collision risk due to the absence of bird flight diverters, have been reported to Eskom; and
- 2.2.8. land use with specific reference to the possible location of vulture restaurants or land uses which could result in carcass availability within a 30km radius of the preferred site.

2.3. The spatial information is to be represented on a map which includes the following:

- 2.3.1. topographical features;
- 2.3.2. location of vantage point monitoring locations;
- 2.3.3. locations of existing wind energy developments and wind energy developments for which environmental authorisation

⁷ This information can be obtained from the screening tool but will need to be verified by Eskom or discussions with landowners.

⁸ The information on power lines that poses an electrocution risk due to its design, or a collision risk due to the absence of bird flight diverters, must be reported to Eskom.

⁹ Additional monitoring from the monitoring that was undertaken as part of the site sensitivity verification.

¹⁰ This information can be collected through desk top analysis, consultation with local bird associations, BirdLife South Africa, Vulpro and the Endangered Wildlife Trust.

"main electricity distribution substation" means a distribution substation with a capacity of up to 132 kilovolts;

"main electricity transmission substation" means a transmission substation with a capacity of 220 kilovolts or more;

"National Environmental Management Act, 1998" means the National Environmental Management Act, 1998 (Act No. 107 of 1998);

- 2.2 a request for registration for an exclusion from the requirement to obtain an environmental authorisation for activities and geographical areas as set out in the Solar Photovoltaic Exclusion Norm.

3. Scope of the schedule

¹ Work on the Solar Photovoltaic Exclusion Norm is still in progress. The final Solar Photovoltaic Exclusion Norm is still to be published in the Government Gazette for implementation, should it be decided to finalise and publish such Norm

3.1 The additional requirements contemplated in paragraph 4 apply to–

- 3.1.1 an application for environmental authorisation for the following activities –
 - 3.1.1.1 Activity 1 or Activity 36 of Listing Notice 1; or

NO. 3717

28 July 2023

**NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998
(ACT NO. 107 OF 1998)****AMENDMENT TO THE PROTOCOLS FOR THE SPECIALIST ASSESSMENT AND MINIMUM REPORT CONTENT REQUIREMENTS FOR ENVIRONMENTAL IMPACTS ON TERRESTRIAL ANIMAL AND PLANT SPECIES IN TERMS OF SECTIONS 24(5)(a) AND (h) AND 44 OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998.**

I, Barbara Dallas Creecy, Minister of Forestry, Fisheries and the Environment, hereby amend the protocols in respect of specialist assessment and minimum report content requirements for environmental impacts on terrestrial animal and terrestrial plant species, by removing the reference to “terrestrial” where it occurs in these protocols. This amendment would allow the protocols to apply to all animal and plant species and not just terrestrial animal and plant species. There are also minor adjustments to the requirements of a compliance statement based on the comments received from the public comment process.

The amendment is necessary to allow for the protocols to apply to freshwater species, since many of these species are threatened. The requirements of these protocols will apply to freshwater species from the date of publication, except where the applicant provides proof to the competent authority that the specialist assessment affected by the amendments to these protocols had been commissioned by the date of publication of the amended protocols in the Government Gazette, in which case Appendix 6 of the Environmental Impact Assessment Regulations, 2014, as amended, will apply to such applications.

Each protocol applies exclusively to the environmental theme identified within its scope. Multiple themes may apply to a single application for environmental authorisation, and assessments for these themes must be undertaken in accordance with the relevant protocol.

BARBARA DALLAS CREECY
MINISTER OF FORESTRY, FISHERIES AND THE ENVIRONMENT

Competition Commission of South Africa

PUBLICATION OF THE FINAL REPORT AND DECISION OF THE ONLINE INTERMEDIATION PLATFORMS MARKET INQUIRY TO BE CONDUCTED IN TERMS OF SECTION 43B OF THE COMPETITION ACT 89 OF 1998 (AS AMENDED)

28 July 2023

Notice is hereby given that the Competition Commission ("the Commission") has published the Final Report and Decision of the market inquiry into Online Intermediation Platforms ("the Online Intermediation Platforms Market Inquiry" or OIPMI) in terms of section 43E(1) of Chapter 4A of the Competition Act, 89 of 1998, as amended ("the Act") on its website. The Final Report and Decision will be available from Monday 31 July 2023 at <https://www.compcom.co.za/online-intermediation-platforms-market-inquiry/>.

The Competition Commission formally initiated the Online Intermediation Platforms Market Inquiry (the "Online Platforms Market Inquiry", "Inquiry" or "OIPMI") on 19 May 2021 in terms of section 43B(1)(a) of the Competition Act 89 of 1998 (as amended) ("the Act"). An Inquiry was initiated because the Commission has reason to believe that there are market features of online intermediation platforms that may impede, distort or restrict competition; and in order to achieve the purposes of the Act including the participation of small and medium enterprises ("SMEs") and historically disadvantaged persons ("HDPs") in these markets.

The Scope of the Inquiry is set out in the Terms of Reference ("ToR") which was published on 9 April 2021. Online intermediation platforms facilitate transactions between business users and consumers (or so-called "B2C" platforms) for the sale of goods, services and software, and the scope includes eCommerce marketplaces, online classifieds and price comparator services, software application stores and intermediated services such as accommodation, travel and food delivery.¹ The scope includes digital advertising insofar as it may pose a barrier to platform or business user competition, and the extent to which those platforms also offer intermediation services. The scope also includes foreign domiciled platforms that have an economic effect in South Africa.²

The inquiry is broadly focused on four areas of competition and public interest, namely:

- market features that may hinder competition amongst the platforms themselves;
- market features that may hinder competition amongst business users or undermine consumer choice;
- market features that give rise to exploitative treatment of business users; and
- market features that may negatively impact on the participation of SMEs and/or HDP firms.

All Inquiry documents and public submissions are available on the Inquiry website.³ Since initiation, the key Inquiry processes and proceedings to date have been as follows:

¹ The scope of the inquiry specifically excludes e-hailing services which were the subject of a previous inquiry and other pure gig economy platforms.

² See document 'Clarification on the Inquiry Scope', August 2021. The document also clarified that metasearch engines (MSEs) fell within the scope.

The Final Report includes an annexure containing the detailed Remedial Action decisions of the Inquiry in addition to the summarised versions in the main text of the report. The Final Report also includes platform category annexures which are focused on the stakeholder submissions made in respect of the Provisional Report, summarising those submissions along with the views of the Inquiry on those submissions that take a contrary view to the Provisional Report.
