The following conditions must be imposed on this operating licence authorising tourist services in terms of section 57(5) of the NLTA. --- a) Whenever the tourism act requires a guide to accompany a group of tourist, such guide must be a registered as a tourist guide by the registrar of guides and have the relevant category of guide qualifications for the geographical area, location or attraction in which the tour takes place. The following conditions must be imposed on this operating licence authorising charter services in terms of section 57(5) of the NLTA. --- a) The holder of this operating licence is authorised to transport groups of persons with a common interest or purpose to a particular destination (the same place)(previously known as the transportation of organised parties).

In other words it should be a homogeneous group which could for example be members of a church or community organisation going to a wedding, funeral or conference. The group must hire the vehicle and driver and can determine the route, date and time of departure; b) Passengers may not be charged fares

individually by either the driver or the operator and fares must be arranged beforehand; c) The holder may not solicit passenger trips by requesting passengers to put their names and contact details on a waiting list. This does not constitute a group with a common interest or purpose and this practice is not allowed in terms of this operating licence. Law enforcement officers should prohibit the random conglomeration (grouping) of people to load a particular vehicle. This will result in a heterogeneous group (people that are randomly grouped together without a common purpose) that will more than likely disembark at different places. The NLTA explicitly stipulates that passengers must go to a common(same) destination; d) The holder of this operating licence must keep a detailed logbook showing the names and contact details of the client, time of departure, destination, trip purpose and arrival time.

This logbook must be submitted to the Provincial Regulatory Entity every six months and where the holder applies for the renewal of the operating licence. Such logbook must also be presented to the PRE and Law Enforcement Officers on request; e) Where the vehicle specified in this operating licence is observed at a municipal taxi or bus rank or providing services on bus or taxi route, the operating licence will be cancelled using the provisions of section 79 of the NLTA. The same action will be taken where the operator violates any of the conditions of the operating licence. Special Conditions for Charter/Shuttles and Tourist operators for loading and off-loading passengers at Cape Town International Airport --- a) The holder of this operating licence must provide this service in accordance with the contract with the Airports Company of South Africa (ACSA). The operating licence is granted for the validity period of this contract and where the contract is terminated prematurely by ACSA due to non-adherence or misconduct on the part of the operator, the operating licence will be cancelled using the provisions of section 79 of the National Land Transport Act (Act no.5 of 2009). The renewal of this operating licence will be subject to ACSA either confirming that the existing contract is still valid or indicating to the PRE that the contract has been renewed. The service must be provided with the vehicle specified in the operating licence and in the contract and where this vehicle is defective, the holder must apply for the temporary replacement of the vehicle and must provide the PRE with a letter from ACSA indicating that the vehicle meets the required standards imposed by ACSA. Similarly, where the vehicle must be replaced on a permanent basis, the holder must submit to the PRE a letter from ACSA indicating that the vehicle meets the required standards as determined by ACSA; b) The holder of this operating licence or his or her duly authorised driver may not solicit passenger trips/tout for passengers at Cape Town International Airport. All fares must be pre-booked and passengers must be collected at the designated kiosk. c) The holder of this operating licence must provide the service in accordance with the requirements/provisions of the Civil Aviation Act (Act no 13 of 2009). d) Should no contract exist with ACSA, in the case where the authority originates from the holders place of business, the operator will only be allowed to make use of the drop and go facility or in the case of a tourist/charter operator, make use of the public parkade to collect pre-booked passengers only. The following conditions must be imposed on this operating licence authorising long distance services in terms of section 57(5) of the NLTA: --- a) That no additional fuel tank to be affixed to the vehicle and no additional fuel be kept in the vehicle in excess of the capacity of the normal tank. b) That passengers are not picked up at any other public transport facility other than those specified in the operating licence. c) Where information is brought to the attention of the PRE that the applicant has submitted false or misleading information, the operating licence will be summarily withdrawn using the provisions of section 79 of the National and Transport Act (Act 5 of 2009). d) The vehicle specified in this operating licence must either be registered in the name of the operating licence holder or the holder must be registered as the operator of that vehicle in terms of a vehicle lease agreement. Where such a lease agreement is terminated prematurely

the operating licence will be suspended until a new vehicle is procured or until a new lease agreement is entered into. Generic Conditions --- a) A duplicate original operating licence marked For the file has been issued for the same vehicle. The serial number of this face value document is BC3648176. This duplicate document must be kept in a safe place by the operator (not in the vehicle) and cannot be used to provide any form of public transport service. b) Where the original operating licence marked for the vehicle is lost or damaged, the holder must immediately apply for a duplicate operating licence. The duplicate original operating licence marked for the file may however be used by the operator during court cases to show that the vehicle is linked to a valid operating licence. c) Where the duplicate original operating licence marked for the file is used to provide a public transport service with a vehicle not specified therein (different registration, chassis or engine number), the operating licence will be summarily withdrawn using the provisions of section 79 of the National Land Transport Act (Act no.5 of 2009). In such cases, the operator will have to surrender both original operating licences as well as distinguishing marks relating to the service. d) The authority and the conditions under which it was issued is reviewable at any time. e) That the operating licence only be used in respect of the vehicle specified therein. f) The operator must ensure that the driver of the vehicle specified in the operating licence is properly licenced and hold the required Professional Driving Permit (PrDP). g) That the service authorized by the operating licence is provided with a vehicle that is at all times compliant with the conditions of the National Road Traffic Act (93 of 1996) and the National Land Transport Act (Act 5 of 2009). h) The operator or his or her authorised employees may not threaten or intimidate any person or fellow operators. i) That the operator and his or her authorised employees always maintain good relations with the government departments. j) The operator and his or her authorised employees may not disrupt any government meetings. k) Where the operator or his or her authorised employees is involved in violent confrontations, the operating licence will be summarily cancelled using the provisions of section 79 of the NLTA. l) The holder of this licence is prohibited from entering into any agreement whereby another party is permitted to undertake road transportation for own gain under authority of this licence. m) In the case of a charter or tourism transport operating licence, the vehicle may leave the area/zone specified in the operating licence as long as the fare is pre-booked and passengers will return to the same area (see section 67 of the NLTA). n) That no passengers are picked up at any municipal rank or bus terminus. o) That the service authorized by the operating licence is at all times provided in a manner that is safe for passengers and that passengers are at all times treated with respect and dignity. p) The holder of the operating licence must register the driver(s) of the vehicle specified in this operating licence with the Office of the Provincial Transport Registrar. A copy of the driver's Identification document, Professional Drivers Permit and drivers licence must also be submitted to the Office of the Registrar together with a copy of the operating licence as part of the registration process. The driver must be registered within a period of 30 day from the issue date of the licence and only the registered driver(s) must be used to provide the service authorised by the operating licence. q) The vehicle specified in this operating licence must either be registered in the name of the operating licence holder or the holder must be registered as the operator of that vehicle in terms of a vehicle lease agreement. Where such a lease agreement is terminated prematurely the operating licence will be suspended until a new vehicle is procured or until a new lease agreement is entered into. r) Where there is a TRP5 vehicle linked to an operating licence, the holder will not be allowed to replace that vehicle with a vehicle that is not TRP5 compliant. s) The holder of this operating licence must apply for the renewal thereof at least 30 days before the expiry date. t) The holder of the operating licence or his or her duly authorised employee must operate the vehicle in accordance with the provisions of the

National Road Traffic Act (Act 93 of 1996) and associated regulations as well as any other applicable legal prescripts relating to motor vehicles and the regulation of traffic; u) The holder of the operating licence or his or her duly authorised employee must refrain from continual or persistent minor traffic violations; v) The holder of this operating licence must be compliant with the requirements of South African Revenue Services for the validity period of the operating licence. This effectively means that holder must have a valid tax clearance certificate for the validity period of the operating licence. Where the tax clearance certificate expires and the holder applies for the renewal/new tax clearance certificate, the original must be submitted to the PRE (within 7 days after expiry). No further transactions on any operating licence will be allowed if there is no valid tax clearance certificate on file; w) A passenger list showing the name and address of the passenger as well as the name and contact details of a person that can be contacted in the unlikely event of an accident be kept on file by the operator. A copy of this list must be kept in the vehicle. x) That all luggage must be properly labelled with the name of the passenger. The driver of the vehicle will be held responsible for any luggage that is not properly labelled in the event of illegal goods/contraband being discovered in such unmarked luggage during search operations .
