NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY
ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED ESTABLISHMENT OF IZERA AVIATION
ACADEMY ON PLOT L.R. NO. 12177/13 WITHIN IZERA RANCH
IN TAITA TAVETA COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Izera Enterprises Limited proposes to establish an aviation academy that will be used for offering training in engineering, air craft maintenance and flying, as well as commercial purposes that will include transport of freight (such as meat products and fresh produce mainly to the Middle East and neighbouring countries) and support to the tourism sector (Tsavo East and West National Parks and Amboseli Game Reserve). The proposed project will be located on Plot L.R No. 12177/13 within Izera Ranch in Taita Taveta County.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Mitigation Measures</i>
Storm water drainage and overflows	<ul style="list-style-type: none"> • The Proponent shall undertake a detailed hydrological analysis. • Design will limit the gradient required for the runways, taxiways and apron.
Exploitation of borrow pits/ quarries	<ul style="list-style-type: none"> • The proponent shall exploit construction materials solely from approved sites, for which ESIA's have been carried out. • Extract materials conservatively, to prevent wastage/ over extraction. • Restore borrow pits/ quarries after use.
Quality of equipment	<ul style="list-style-type: none"> • The proponent shall procure good quality equipment that adheres to the principles of Best Available Technology.
Destruction and loss of local biodiversity	<ul style="list-style-type: none"> • The contractor shall keep vegetation clearance to a minimum, as necessary. • Visibly mark out extent of areas to be cleared out.

<i>Impacts</i>	<i>Mitigation Measures</i>	<i>Impacts</i>	<i>Mitigation Measures</i>
Soil erosion	<ul style="list-style-type: none"> • Landscape the project site upon completion of works with native/local species. • The contractor shall control earthworks so that only land that is required for construction is disturbed. • Plan for earthworks during the dry season. • Store excavated materials and excess earth at appropriate and approved sites, where natural/controlled water discharge is possible. • Control areas susceptible to soil erosion through installation of drainage works. 	Water pollution	<ul style="list-style-type: none"> • The contractor shall restrict refueling of equipment to workshops/ base camp. • Store fuels, lubricants and other contaminants in areas with containment systems/ seals/ bunds. • Construct oil-water interceptors or sumps to capture discharge of oils, fats and other polluting liquids from maintenance of equipment. • Institute Spill Prevention and Control Plan/ Response and Contingency Plan for spills/ accidental blowouts. • The proponent shall establish procedures for cleaning/ de-silting and routine periodic maintenance of storm water drainage facilities.
Introduction of invasive species/ vectors/ pests	<ul style="list-style-type: none"> • The contractor shall source earth material for construction from approved suppliers. • Landscaping activities should be undertaken by a reputable contractor, with quality assurance measures in place. • Report any invasive species/ vectors/ pests to the nearest relevant authority, e.g. KWS, KEPHIS. 	Waste disposal and management	<ul style="list-style-type: none"> • The contractor shall promote waste segregation at point sources. • Reuse rubble materials where possible. • Introduce clearly marked waste disposal bins in strategic areas. • Publish 'Dos' and 'Don't's' related to waste disposal in common areas. • Develop and implement a Waste Management Plan. • Establish clear procedures for the transport, handling and disposal of hazardous materials/ waste, following national. International guidelines, such as Material Safety Data Sheets.
Loss/ disturbance of wildlife (Tsavo Conservation Area)	<ul style="list-style-type: none"> • The contractor shall forbid the poaching or hunting of game. • Develop and implement a Wildlife Management Plan. • Explore the possibility of constructing water points/ salt licks away from sensitive areas. • Vegetation clearing should only take place where necessary and conservatively. • Minimize noise and dust nuisance. • Educate/ train and create awareness among workers on wildlife in the project area. • Consider establishing biological buffer zones. • Erect road signage indicating presence of wildlife in the area, and permissible speeds. • Liaise closely with KWS/NGOs on most appropriate measures to reduce disturbance to wildlife. 	Increased pressure on baseline infrastructure	<ul style="list-style-type: none"> • The contractor shall procure energy-efficient equipment and promote non-wastage of energy. • Develop and implement an Energy Management Plan. • Monitor water consumption and utilization. • Limit number of vehicles to the minimum requirement. • Establish a Safety and Emergency Response Plan for all operations.
Air pollution	<ul style="list-style-type: none"> • The proponent shall carry out regular air quality assessments to establish the ambient conditions and determine the significance of routine activities. • Implement KCAAA/ ICAO standards on reducing emissions from operation of aircrafts. • The contractor shall train workers on management of air pollution from vehicles and machinery, including dust minimization techniques. • Maintain and service all construction machinery regularly in accordance with manufacturer specifications. • Adequately seal and equip asphalt plants and concrete batching plants with dust removal devices. • Place speed limits on vehicles operating on site and on diversions and access roads, to minimize the generation of dust. 	Change in landscape/ aesthetics	<ul style="list-style-type: none"> • The contractor shall limit de-vegetation activities to the extent possible. • Undertake landscaping activities that align with the general area, and plant local varieties. • Decorate facilities/ buildings with colours/ motifs that match the project area.
		Recruitment of labour	<ul style="list-style-type: none"> • The contractor shall liaise with local administration when seeking local labour, particularly unskilled labour. • Provide fair remuneration.
		Worker occupational safety and health	<ul style="list-style-type: none"> • The contractor shall comply with OSHA and WIBA, 2007. • Promote the use of Personal Protective Equipment (PPE). • Assign only trained and competent personnel to operate equipment. • Develop and implement in-house manuals/ guidelines on Environment, Health and Safety (EHS).

<i>Impacts</i>	<i>Mitigation Measures</i>
Community safety and health	<ul style="list-style-type: none"> • Restrict public access to construction sites for safety and security. • The contractor shall restrict public access to construction sites for safety and security. • Institute and rigorously implement noise and dust abatement measures. • Inform community of construction activities and schedules. • Limit construction activities to working hours, to the extent possible.
Immigrant populations, including risk of HIV/ AIDS	<ul style="list-style-type: none"> • The contractor shall undertake community-based activities, to promote social cohesion. • Institute HIV/AIDS control measures, including awareness/ sensitization and distribution of prophylactics.
Loss/ disturbance of wildlife (Tsavo Conservation Area)	<ul style="list-style-type: none"> • The proponent shall forbid the poaching or hunting of game. • Minimize noise and dust nuisance. • Limit equipment testing to daytime hours. • Liaise closely with KWS/ NGOs on most appropriate measures to reduce disturbance to wildlife. • Implement a variety of acoustic, olfactory, visual and barrier techniques to deter wildlife activity during operations.
Risk of bird strikes	<ul style="list-style-type: none"> • The proponent shall liaise closely with KWS/NGOs on most appropriate measures to reduce bird strikes. • Procure appropriate bird deterrent equipment. • Maintain regular surveillance on bird movements. • Undertake proper waste disposal activities to reduce occurrence of scavenging birds.
Change in general highway operation	<ul style="list-style-type: none"> • The Proponent shall liaise with the Kenya National Highways Authority (KeNHA) to erect signage informing road users of changes in traffic speeds, and location of links/ junctions. • Share operational schedules for public information/ awareness.

The full report of the proposed project is available for inspection during working hours at:

NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY
ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED KANGARI TOWN SEWERAGE PROJECT,
MURANG'A COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, Athi Water Works Development Agency proposes to construct a sewerage treatment plant that consists of laying of 12.1 km double wall corrugated HDPE pipes (sizes 200mm to 300mm), construction of 10 No. of waste stabilization ponds (2No. anaerobic ponds, 2No. facultative ponds and 6No. maturation ponds) designed to treat 1,770m³ per day, inlet works, associated facilities and amenities in Kangari Town, Murang'a County.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Mitigation Measures</i>
Vegetation clearing	<ul style="list-style-type: none"> • Compensatory planting of trees. • Vegetation should only be cleared along the Project corridor and where it will interfere with Project construction and/or present hazards. • The local community should be given a chance to harvest the targeted vegetation if they so wish. • Areas to be cleared should be agreed and demarcated before the start of the clearing operations to minimize exposure. • Also, stage vegetation clearance is recommended.
Air quality pollution	<ul style="list-style-type: none"> • Maintain construction equipment at high operational conditions such as to control emissions into the air. • Notify the immediate neighborhoods on the potential odors during the excavations. • Use of sprinklers to regularly water construction site, this suppresses the dust menace at construction sites. • People working in the sites with dust emissions to use dust masks to prevent respiratory infections.
Excessive vibration and noise pollution	<ul style="list-style-type: none"> • Avoid night time construction when noise is loudest. • Conduct periodic noise measuring and monitoring to determine levels and extent of harmful noise. • Clearly label the high noise areas. • Provide personal protective equipment (PPE) to persons operating within or visit identified high noise areas. • Sensitize truck drivers to avoid hooting especially when passing through sensitive areas such as churches, residential areas and hospitals.

THE ENVIRONMENTAL MANAGEMENT AND
CO-ORDINATION ACT

(No. 8 of 1999)

NATIONAL ENVIRONMENT MANAGEMENT AUTHORITY
ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED SOLID WASTE MANAGEMENT SITE IN
NTUTUNI AREA, NDAGANI SUB-LOCATION, KARINGANI
LOCATION, MERU SOUTH (CHUKA) SUB-COUNTY,
THARAKA NITHI COUNTY

INVITATION OF PUBLIC COMMENTS

PURSUANT to Regulation 21 of the Environmental Management and Co-ordination (Impact Assessment and Audit) Regulations, 2003, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the above proposed project.

The proponent, County Government of Tharaka Nithi is proposing to establish a solid waste management site. The project will consist of the following components; Site office with parking space, external washrooms, offloading/sorting zone, recycling plants, sewer line, sewerage plant, ground monitoring Wells (No:7), driveway, perimeter wall with a gate house and a buffer zone and trucks parking.

The following are the anticipated impacts and proposed mitigation measures:

<i>Impacts</i>	<i>Mitigation Measures</i>
Excavations and protection of flora and fauna	<ul style="list-style-type: none"> Protect indigenous trees as much as possible and other surrounding vegetation that need not be removed. Minimize site clearance to only areas needed for excavations. Plant trees around the perimeter fence, buffer zone and within some section of the site.
Occupational safety and health	<ul style="list-style-type: none"> Occupational Safety and Health Act, 2007. Training the workers on the potential health risk caused by exposure to and how to reduce these risks. Establish a Health and Safety Plan (HASP) for civil works areas. Ensuring the working hours are controlled and that employees are not allowed to extend the working hours beyond an acceptable limit. Provide workers with appropriate PPEs (gloves, ear gears, sturdy rubber boots and overalls). Provide workers training on safety procedures and emergency response such as fire and sewer pipe bursts. Notify workers about the upcoming disposal activity and the Safety requirements. Post appropriate signpost and warning notices of the site that will inform the workers of key rules to follow. Put in place an appropriate emergency and incident response plan.
Solid waste generation from construction activities	<ul style="list-style-type: none"> A site waste management plan should be prepared by the contractor prior to commencement of construction works. This should include designation of appropriate waste storage areas, collection and removal schedule and identification of approved disposal site.

<i>Impacts</i>	<i>Mitigation Measures</i>
	<ul style="list-style-type: none"> Ensure that the solid waste collection, segregation, and disposal system is functioning properly at all times during the construction phase. Recycle and re-use wastes where possible such as scraps metal. Train cleaning and maintenance workers on the need for proper waste management.
Noise and excessive vibration from construction equipment and vehicles	<ul style="list-style-type: none"> Contractor will comply with provisions of EMCA, 1999 (Noise and Excessive Vibrations Regulations of 2009). The Contractor will keep noise level within acceptable limits (60 Decibels during the day and 35 Decibels during the night) and construction activities shall, where possible, be confined to normal working hours in the residential areas. Sensitive receptors shall be notified by the Contractor at least five (5) days before construction is due to commence in their vicinity.
Traffic and pedestrian safety	<ul style="list-style-type: none"> Signposting, warning signs, barriers and traffic diversions: site should be clearly visible and the workers warned of all potential hazards. Provision of safe passages and crossings for pedestrians be made. Train staff at the site on safe and convenient passage at the work place. Ensuring safe and continuous access to office and other facilities within the project area.
Air quality	<ul style="list-style-type: none"> Establish simple air quality monitoring that ensures the outputs of the monitoring process are maintained and utilized in improving. Appoint a dust monitoring agent/lab to monitor and analyze dust and air quality. Air monitoring should be done continuously.
Storm water management	<ul style="list-style-type: none"> Ensure all storm water from the site is directed towards the established water drains.
Hygiene and sanitary provision	<ul style="list-style-type: none"> Provide washrooms, bathrooms and changing rooms within the facility. Provide enough drinking water and for general use.
Disposal scheduling and hours	<ul style="list-style-type: none"> The disposal and cleaning activities should be limited from 7 am or sunrise (whichever is later) to 5 p.m. or sunset.
Clearance inspections	<ul style="list-style-type: none"> Inspections should be done to ensure that project site and work environment is cleaned to a satisfaction standard.
Spread of communicable diseases and HIV/AIDS infection	<ul style="list-style-type: none"> Develop appropriate training and awareness materials for Information, Education. Develop an intervention strategy compatible with the construction programme to address success of the HIV/AIDS prevention and provide peer educators for sustainability in collaboration with other stakeholders. Integrate monitoring of HIV/AIDS preventive activities as part of the construction supervision. Basic

<i>Impacts</i>	<i>Mitigation Measures</i>
	knowledge, attitude and practices are among the parameters to be monitored, and particularly on provision of condoms, status testing and use of ARVs.
Labour influx to the project area	<ul style="list-style-type: none"> • Effective community engagement and strong grievance mechanisms on matters related to labour. • Effective contractual obligations for the contractor to adhere to the mitigation of risks against labour influx. • Proper records of labour force on site while avoiding child and forced labour. • Fair treatment, non-discrimination and equal opportunity of workers. • Comply to provisions of Labour Relations Act, 2012 and Work Place Injuries and Benefits Act (WIBA, 2007). • The Contractor shall require his employees, sub-contractors, sub-consultants, and any personnel thereof engaged in construction works to individually sign and comply with a Code of Conduct.
Violation of human rights, and gender requirement	<ul style="list-style-type: none"> • Mainstream Gender Inclusivity in hiring of workers and entire Project Management as required by Gender Policy 2011 and 2/3 gender rule and National Gender and Equality Commission Act, 2011. • Protecting human risk areas associated with, disadvantaged. • groups, interfering with Participation Rights and Labour Rights. • The contract will provide provisions that ensures that gender based violence and abuse are not triggered by the Project as provided for by Sexual Offences Act, 2006.
Violation of children rights	<ul style="list-style-type: none"> • Develop and implement a Children Protection Strategy that will ensure minors are protected against negative impacts associated by the Project. • All staff of the contractor must sign, committing themselves towards protecting children, which clearly defines what is and is not acceptable behavior. • Children under the age of 18 years should be hired on site as provided by Child Rights Act (Amendment Bill), 2014.

**IMPORTANT NOTICE TO SUBSCRIBERS TO
THE KENYA GAZETTE**

The following notes are for the guidance of persons submitting "copy" for inclusion in the *Kenya Gazette, Supplement, etc.*:

- (1) *The Kenya Gazette* contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.
- (2) *Legislative Supplement* contains Rules and Regulations which are issued by the National or County Governments. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.
- (3) *Bill Supplement* contains Bills which are for introduction in the National Assembly, Senate or County Assemblies.
- (4) *Act Supplement* contains Acts passed by the National Assembly, Senate or County Assemblies.

All "copy" submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typed with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

- (i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.
- (ii) Must be correct and filled in where necessary.
- (iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE HUMAN RESOURCE POLICIES AND PROCEDURES MANUAL FOR THE PUBLIC SERVICE —

Kenya Gazette

A.30 (1) All communication for publication in the *Kenya Gazette* should reach the Government Printer not later than Friday of the week before publication is desired.

(2) A State Department will be required to meet the cost of advertising in the *Kenya Gazette*.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
