TRADE MARKS .....	1

### APPLICATIONS FOR REGISTRATION OF TRADE MARKS IN NAMIBIA

(Applications accepted in terms of Act No. 48 of 1973)

Any person who has grounds for objection to any of the following trade marks, may, within the prescribed time, lodge Notice of Opposition on form SM 6 contained in the Second Schedule to the Trade Marks Rules in Namibia, 1973. The prescribed time is two months after the date of advertisement. This period may on application be extended by the Registrar. Where the Gazette is issued late, the period of opposition will count as from the date of issue and a notice relating thereto will be displayed on the public notice board in the Trade Marks Registry.

Formal opposition should not be lodged until after notice has been given by letter to the applicant for registration so as to afford him an opportunity of withdrawing his application before the expense of preparing the Notice of Opposition is incurred. Failing such notice to the applicant an opponent may not succeed in obtaining an order for costs.

“B” preceding the number indicates Part B of the Trade Mark Register.

Neither the office mentioned hereunder nor Windhoek Printers & Publishers (Pty) Ltd., acting on behalf of the Government of Namibia, guarantee the accuracy of this publication or undertake any responsibility for errors or omissions or their consequences.

E.T. KAMBOUA  
REGISTRAR OF TRADE MARKS FOR NAMIBIA

89/1650 in Class 9: Measuring, controlling and regulating instruments, systems and apparatus — namely, recorders, indicators, integrators, regulators and controllers of combustion, of processes and of fluid flow and conditions pertinent to fluids such as rate of flow, level, temperature and pressure; remote recording, indicating, integrating, controlling and telemetering instruments, adjustable orifices and other apparatus appurtenant to such instruments; air tracer contour control and duplicating attachments; gas analyzers, instrument and control panel boards, time cycle instruments and controllers, weighing scales and electric and fluid pressure selector switches; pressure, temperature, level and fluid flow responsive control valves; and charts peculiar to the operation of said instruments and apparatus; process control instrumentation — namely, operator interface units — namely, digital controllers, configuration and tuning modules, operator consoles; process control units — namely, controller modules, logic master modules, digital slave modules, analog slave modules, analog master modules, analog output modules, controller interface modules; termination units for computer interface and process input and output wiring; and power modules for both modulating and sequential control, data acquisition, operator interface and computer interface for industrial and utility applications; stand alone controllers, communications interfaces, smart transmitters or monitors and configuration engineering modules; liquid analysis equipment, namely — pH, conductivity, specific ion and oxidation reduction potential; and flame scanners; in the name of **INTERNATIONAL CONTROL AUTOMATION FINANCE S.A.** of Villa de Luxembourg, 16 Rue des Bains, Luxembourg.
