General Notice

MINISTRY OF WORKS, TRANSPORT AND COMMUNICATION

No. 205

1997

PROPOSED CIVIL AVIATION REGULATIONS :

PART 103 - RULES OF THE AIR AND GENERAL OPERATING

RULES : OPERATION OF MICROLIGHT AEROPLANES

The Ministry of Works, Transport and Communication recently initiated the project to update the current Namibian aviation legislation. There are two main reasons for updating the aviation legislation, namely, the current legislation does not adequately reflect the policies of Namibia for the aviation sector and does not reflect recent developments within SADC. The project further aims to enhance the safety of civil aviation by ensuring that the Namibian legislation complies with the minimum standards prescribed by the International Civil Aviation Organization.

Part of the short-term legislative reform involves the updating of the regulations made under the Aviation Act, 1962 (Act 74 of 1962).

Due to the nature and extensive range of subjects which need to be regulated, this part of the project will be executed in phases and regulations will be published accordingly. The proposed structure of the Civil Aviation Regulations is set out in Schedule 1.

All the definitions for the proposed civil aviation regulations will be contained and published in Part 1. The definitions for each Part will however be published with each set of proposed regulations, to facilitate the interpretation thereof. The definitions associated with the proposed regulations on the operation of microlight aeroplanes are set out in Schedule 2.

The Director : Civil Aviation invites all interested parties to comment on the proposed structure of the Civil Aviation Regulations, the proposed definitions associated with the proposed regulations, as well as the proposed regulations on the Operation of Microlight Aeroplanes set out in Schedule 3. The proposed regulations represent Part 103 of the proposed structure.

The proposed regulations on the Operation of Microlight Aeroplanes make provision for certain information to be contained in a document called Document NA-CATS-OPS 103. The compilation of the document does not form part of this project, but it is envisaged as a document that will contain all the technical standards regarding the operation of microlight aeroplanes.

Comments or representations should be lodged in writing and should reach the Ministry not later than **90 days** from the date of publication of this notice. Correspondence should be addressed to:

The Director : Civil Aviation

Ministry of Works, Transport and Communication

Department of Transport

Private Bag 12003

WINDHOEK

Attention : Mr Louis Lourens

Telephone : 208-2159

Fax : 238-884

Upon expiry of the aforementioned 90 day period, all comments which have been received will be evaluated for possible incorporation into the proposed regulations on the Operation of Microlight Aeroplanes and if necessary, a workshop will be held to finalise the proposed regulations.

- (a) is the holder of a valid microlight aeroplane pilot licence issued in terms of Part 61;
- (b) is the holder of a valid class 4 medical certificate issued in terms of Part 67;
- (c) complies with the privileges and limitations of a microlight aeroplane pilot licence;
- (d) complies with the competency requirements prescribed for the holder of a microlight aeroplane pilot licence; and

- (e) is a *bona fide* member of an aviation recreation organisation approved by the Director in terms of Part 149.

SUBPART 2
OPERATING RULES

Airworthiness

103.02.1 No person shall operate a microlight aeroplane unless such microlight aeroplane -

- (a) has been issued with a special flight permit in terms of Part 21; and
- (b) is in an airworthy condition.

Registration

103.02.2 No person shall operate a microlight aeroplane unless it is registered and marked in accordance with, and complies with, the provisions of Part 47.

Flight manual

103.02.3 Notwithstanding the provisions of regulation 91.03.2, a person may operate a microlight aeroplane without carrying a current approved flight manual.

Maintenance and inspection requirements

103.02.4 (1) The pilot-in-command of a microlight aeroplane shall ensure that the microlight aeroplane is in an airworthy condition before the commencement of each flight.

- (2) The owner of a microlight aeroplane shall -

- (a) take such action as is necessary to ensure the continued airworthiness of the microlight aeroplane concerned;
and
- (b) maintain the microlight aeroplane in accordance with the provisions of Part 43.

Equipment

103.02.5 No owner or pilot-in-command of a microlight aeroplane shall operate such microlight aeroplane unless it is equipped with the equipment as prescribed in Document NA-CATS-OPS 103.

SUBPART 3
FLIGHT RULES

Hazardous operations

103.03.1 No person shall -

- (a) operate any microlight aeroplane in a manner that creates, or is likely to create, a hazard to other persons or property; and
- (b) allow any object or substance to be dropped or dispensed from a microlight aeroplane if such action creates, or is likely to create, a hazard to other persons or property.

Practice for and participation in competition flying

103.03.2 A pilot-in-command of a microlight aeroplane may do low flying for the purpose of practice for and participation in microlight aeroplane competition flying: Provided that such operations are -

- (a) authorised by an aviation recreation organisation approved by the Director in terms of Part 149;
- (b) carried out in accordance with any conditions imposed by such approved aviation recreation organisation; and
- (c) carried out not lower than 200 feet above the ground and not over any congested area of a city, town or settlement.

Flight criteria

- 103.03.3** (1) All microlight aeroplane operations shall be conducted -
- (a) by day;
 - (b) in meteorological conditions equal to or better than those prescribed as suitable for VFR flight; and
 - (c) beneath any cloud ceiling.
- (2) No microlight aeroplane operation shall be conducted -
- (a) over any congested area of a city, town or settlement;
or
 - (b) less than 3 nautical miles from the boundary of an aerodrome licensed in terms of Part 139.
