No. 966 of 2022

**LAND RECLAMATION NOTICE**

Mr. Bernard, Vincent Pragassen acting on his own behalf has applied for authority, under **Section 2** of Land Reclamation Act to fill in and reclaim an area of the foreshore of approximately **625** square meters at **Les Mamelles**, (adjacent to the Parcel S454).

The proposed area to be reclaimed is bounded on the **Northern, Eastern and Northern Western Side** by Sea, **Southern and Southern Western side** by Parcel S454.

The area to be reclaimed is demarcated as follows:

<b>POINT NAME</b>	<b>EASTINGS</b>	<b>NORTHINGS</b>
IP1	331184.48	9486011.12
IP2	331221.87	9485991.09
AY100	331214.28	9485978.14
(X)	331178.16	9485997.49
IP1	331184.48	9486011.12

All distances are approximate.

The plan of the area to be filled in and reclaimed deposited with this application, may be inspected at the Seychelles Planning Authority's Office at Independence House.

Any person having any objections to the proposed reclamation on any grounds specified in paragraph 5 of the 1<sup>st</sup> Schedule of the Act may lodge his or her objection in writing to the Chief Executive Officer Planning Authority at the Planning Authority's Office, Independence House no later than 14 days from date of the first publication of this notice.

processing financial transactions; providing software for electronic funds transfer; providing software for currency conversion; providing software for the collection and distribution of data providing software for payment transactions; providing software for connecting computers to local databases and global computer networks; providing software for creating searchable databases of information and data; providing software for managing and validating digital currency, virtual currency, cryptocurrency, digital asset, blockchain asset, digitized asset, digital token, crypto token and utility token transactions; providing software for creating and managing smart contracts; providing software for managing payment and exchange transactions; providing software for electronically exchanging currency for digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing software for use in enabling the electronic transfer of funds to and from others; providing software for creating a decentralized and open source digital currency for use in blockchain-based transactions; providing software for creating a decentralized and open source virtual currency for use in blockchain-based transactions; providing software for creating a decentralized and open source cryptocurrency for use in blockchain-based transactions; providing software for creating a decentralized and open source digitized asset for use in blockchain-based transactions; providing software for creating a decentralized and open source digital token for use in blockchain-based transactions; providing software for encrypting and enabling secure transmission of digital information over the Internet, as well as over other modes of communication between computing devices; providing software for allowing users to calculate parameters related to financial transactions; distributed ledger platform software for use in processing financial transactions; providing software for electronic funds transfer and currency conversion; providing software for use in securely managing the conversion of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens into hard currency; providing a web portal featuring blogs and non-downloadable publications in the nature of articles, columns, and informational guides in the fields of virtual currencies, digital and blockchain assets and market and trading trends; providing a web portal for users to access information in the field of virtual currencies, digital and blockchain assets; platform as a service (PaaS) featuring computer software platforms for the selling and purchasing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software as a service (SaaS) featuring computer software platforms for the selling and purchasing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; computer services, namely, creating an on-line virtual environment for the selling and purchasing of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; platform as a service (PaaS) featuring computer software platforms for managing blockchain and token driven, distributed storage computer systems; software as a service (SaaS) featuring computer software platforms for managing blockchain and token driven, distributed storage computer systems; computer services, namely, providing a decentralized electronic file storage system and open source cloud storage platform; computer services, namely, providing a decentralized electronic object storage platform for end-to-end encrypted and powered by blockchain and blockchain payments; computer services, namely, providing secure, private encrypted cloud storage services; computer services, namely, providing electronic peer-to-peer data storage distributed across unused customer electronic storage resources; computer services, namely, providing open source decentralized cloud storage platform; data encryption services featuring blockchain software technology and peer-to-peer protocols to provide secure, private, and encrypted cloud storage; distributed, electronic storage of electronic media, namely, data, documents, files, text, photos, images, graphics, music, audio, video, and multimedia content; providing software for use as a cryptocurrency wallet; providing software for democratically managing digital exchanges for virtual items through smart contracts; data mining; providing software for use in trading, clearing, transmitting, receiving, storing, confirmation, and financial trading risk management for exchange market transactions in the fields of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; platform as a service (PaaS) featuring software platforms for authenticating, facilitating, matching,

processing, clearing, storing, receiving, tracking, transferring, and submitting trade data, exchanging of trading transaction details, and management of the overall trading lifecycle; software as a service (SaaS) featuring software platforms for authenticating, facilitating, matching, processing, clearing, storing, receiving, tracking, transferring, and submitting trade data, exchanging of trading transaction details, and management of the overall trading lifecycle; providing software for use with blockchain technology; software as a service (SaaS) services featuring software for clearing, allocation, compliance, recordation and settlement of trading related to digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; platform as a service (PaaS) services featuring software for clearing, allocation, compliance, recordation and settlement of trading related to digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; platform as a service (PaaS) featuring software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens that allow users to buy from, and sell products and services to others; software as a service (SaaS) featuring software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens that allow users to buy from, and sell products and services to others; blockchain-based software platforms and distributed computing software platforms for auditing and verifying digital information and codes; design, development and implementation of audit and security software for blockchain-based platforms; providing software for use in facilitating secure transactions; providing software for auditing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software platforms for decentralized blockchain style communication; software platforms for the tracking and support of data transactions; design, development, and implementation of software for distributed computing platforms; design, development, and implementation of software for blockchain; design, development, and implementation of software solutions for digital currency security; design, development, and implementation of software for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token wallets; design, development, and implementation of software for third-party verification services for digital currency transactions, including but not limited to transactions involving bitcoin currency; providing temporary use of non-downloadable software for use in collecting, transferring, receiving, tracking, storing and transferring bitcoin: providing software for use in collecting, transferring, receiving, tracking, storing and transferring peer-to-peer currency; providing software for users to buy and sell products by using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; providing software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens or utility tokens that allow users to buy from, and sell products and services to others; providing software for use in accessing, reading, tracking, and using blockchain technology; technical consultancy services related to digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token transactions; platform as a service (PaaS) featuring computer software platforms for compute, system and application development, deployment, and management; software as a service (SaaS) featuring computer software platforms for computer system and application development, deployment, and management; providing software enabling users to develop, build and run distributed applications through an open-source peer-to-peer smart-contract and payment network platform; providing cloud-based computer network identification verification, authentication and management services for security purposes; secure hosted management, storage and administration of passwords, credentials and identity information relating to persons, accounts and devices for security purposes; providing authentication software for controlling access to and communications with computers and computer networks; providing software for use in the exchange of virtual items; providing software for selling, trading and managing blockchain-based tokens or appcoins; providing a digital exchange; providing software for use in issuing digital currency, virtual currency, cryptocurrency, digital and blockchain assets,

digitized assets, digital tokens, crypto tokens and utility tokens; providing cloud-based network identification verification, authentication and management services for security purposes; providing software for managing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized asset, digital token, crypto token and utility token payments, money transfers, and commodity transfers; providing software for facilitating money transfers, electronic funds transfers, commodity transfers, bill payment remittance, and transferring funds between parties; authentication services namely, internet authentication services; providing authentication personal identification information; authentication services, namely, user authentication services; Providing user authentication services of electronic funds transfer, credit and debit card and electronic check transactions using single sign-on and software technology; application service provider (ASP) services, featuring e-commerce software for use as a payment gateway that authorizes processing of credit cards or direct payments for merchants in the name of **Meta Platforms, Inc.** of **1601 Willow Road, Menlo Park, California 94025, United States of America.**

Application No: **255/2022** in Class **9** Downloadable computer software for use as an application programming interface; software for ordering and purchasing goods and services; downloadable e-commerce computer software to allow users to perform electronic business transactions via a global computer and communication networks; downloadable software for application and database integration; downloadable software for managing and validating cryptocurrency transactions using blockchain technology; downloadable computer software for use as a cryptocurrency wallet; downloadable software for authorizing access to databases; downloadable software for the collection, editing, organizing, modifying, book marking, transmission, storage, and sharing of data and information; downloadable software to allow customers to access financial account information; downloadable computer software for managing and -validating cryptocurrency transactions using blockchain-based smart contracts; downloadable computer software for computer system and application development, deployment and management; downloadable software for use in electronic storage of data; downloadable software for encryption; computer hardware; blockchain; software for use with digital currency; software for use with cryptocurrency; software for use with virtual currency; downloadable computer software for use as a cryptocurrency wallet; cryptocurrency hardware wallet; software development tools; software for use as an application programming interface (API); application programming interface (API) for use in

building software applications; software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; software for digital currency payment and exchange transactions; software for use in managing portfolios of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; distributed ledger platform software; software which facilitates the ability of users to view, analyze, record, store, monitor, manage, trade and exchange digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software for sending, receiving, accepting, buying, selling, storing, transmitting, trading and exchanging digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software for implementing and recording financial transactions; software for creating accounts and maintaining and managing information about financial transactions on distributed ledgers and peer to peer payment networks; software for use in financial trading; software for use in financial exchange; software for accessing financial information and market data and trends; software for settling financial transactions; software for providing authentication of parties to a financial transaction; software for maintaining ledgers for financial transactions; software for the management of cryptographic security of electronic transmissions across computer networks; software for encrypting and enabling secure transmission of digital information over the Internet; software for allowing users to calculate parameters related to financial transactions; distributed ledger software for use in processing financial transactions; software for electronic funds transfer; software for currency conversion; software for the collection and distribution of data; software for payment transactions; software for connecting computers to local databases and global computer networks; software for creating searchable databases of information and data; software for managing and validating digital currency, virtual currency, cryptocurrency, digital asset, blockchain asset, digitized asset, digital token, crypto token and utility token transactions; software for creating and managing smart contracts; software for managing payment and exchange transactions; software and hardware for use as a digital currency wallet; software and hardware for use as a virtual currency wallet; software and hardware for use as a digital asset wallet; software and hardware for use as a digital token wallet; software and hardware for use as a crypto token wallet; software and hardware for use as a utility token wallet; software for creating a decentralized and open source digital currency for use in blockchain-based transactions; software for creating a decentralized and open source virtual currency for use in blockchain-based transactions; software for creating a decentralized and open source cryptocurrency for use in blockchain-based transactions; software for creating a decentralized and open source digitized asset for use in blockchain-based transactions; software for creating a decentralized and open source digital token for use in blockchain-based transactions; software for users to buy and sell products by using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens or utility tokens that allow users to buy from, and sell products and services to others; computer application software for blockchain-based platforms, namely, software for digital exchanges for virtual items: software for creating, selling and managing blockchain-based tokens or appcoins; software for use in an electronic financial platform; software for processing electronic payments and for transferring funds to and from others; software for transfers of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens between parties; blockchain platform software; software for use in the management and implementation of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token transactions; software for creating and managing a blockchain platform for use in managing digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token accounts; software for managing crypto currency and digital currency accounts; software for use in payments, purchases, and investments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software for use in enabling the electronic transfer of funds to and from

others; software for use in managing the conversion of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens into hard currency; software for developing, deploying, and managing software applications, and integrating software applications for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token accounts; software for use in facilitating the use of a blockchain or distributed electronic ledger to execute and record financial transactions, namely, financial trades made with the use of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software and hardware for use in electronically exchanging currency for digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software for use as an application programming interface (API) for the development, testing, and integration of blockchain software applications: computer hardware for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, and digitized asset mining; security token hardware; electronic currency converters; software, namely, electronic financial platform that accommodates multiple types of payment and transactions in an integrated mobile phone, PDA, and web-based environment; software for creating tokens to be used to pay for products and services, and that may be traded or exchanged for cash value; software for use in securely managing the conversion of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens into hard currency; software for managing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized asset, digital token, crypto token and utility token payments, money transfers, and commodity transfers; software for facilitating money transfers, electronic funds transfers, commodity transfers, bill payment remittance, and transferring funds between parties; software for use as an application program interface (API) software for use in computer hardware device identification; software for use in authenticating user access to computers and computer networks; software for use in facilitating secure transactions: software for use in accessing, reading, tracking, and using blockchain technology; software and hardware for managing identity information, access rights to information resources and applications and authentication functionality; software for network identification verification, authentication and management services for security purposes; authentication software for controlling access to and communications with computers and computer networks; magnetically encoded credit cards, debit cards and payment cards; encryption devices; security tokens; software used in issuing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; software used in auditing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens in the name of **Meta Platforms, Inc. of 1601 Willow Road, Menlo Park, California 94025, United States of America**

Application No: **273/2022** in Class **9** Software; Mobile application software; Computer hardware; Software for social networking and creating and interacting with online communities; Software for creating, managing and accessing groups within virtual communities; Software development tools; Software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; Software for use as an application programming interface (API); Software for organizing events, searching for events, calendaring and managing events; Software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, interacting with, embedding, and sharing or otherwise providing electronic media, images, video, audio, audio-visual content, data, and information via the interne and communication networks; Software for finding content and content publishers, and for subscribing to content; Software for creating and managing social media profiles and user accounts; Interactive photo and video equipment, namely, kiosks for capturing, uploading, editing, printing and sharing digital images and video; Software for streaming multimedia entertainment content, audio-visual content, video content, and associated text and data; Software for enabling transmission of images, audio, audio visual and video content and data; Software for modifying photographs, images and audio, video, and audio-visual content; Software for use in taking and editing photographs and recording and editing videos; Software for processing images, graphics, audio, video, and text; Software for collecting, managing, organizing, modifying, transmitting, synchronizing, and storing data and information; E-commerce software; E-commerce software to allow users to perform electronic business transactions via a global computer and communication networks; Software and mobile application software providing a virtual marketplace; Software for sending and receiving electronic messages, alerts, notifications and reminders; File sharing software; Messaging software; Search engine software; Software for use in creating, managing, measuring, and disseminating advertising of others; Advertisement server, namely, a computer server for storing advertisements and delivering advertisements to websites; Software for creating, sharing, disseminating and posting advertising; Software for geo-location based advertising and product and service promotion; Software that enables individuals, groups, companies, and brands to create and maintain an online presence and interact with online communities for marketing purposes; Downloadable virtual reality software; Downloadable augmented reality software; Downloadable mixed reality software; Virtual reality software for interactive entertainment and virtual reality gaming; Augmented reality software for interactive entertainment and augmented reality gaming; Software for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; Software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality and augmented reality experiences; Software for operating, configuring, and managing virtual reality headsets and controllers; Software for gesture recognition, object tracking, motion control, and content visualization; Software, firmware and hardware for use in visual, voice, audio, motion, eye and gesture tracking and recognition; Software for navigating a virtual reality and augmented reality environments; Software for enabling users to experience virtual reality and augmented reality visualization, manipulation, and immersion; Software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; Software for use in creating and designing virtual reality and augmented reality software; Application programming interface (API) for computer software for developing virtual reality and augmented reality experiences; Virtual reality game computer hardware; Augmented reality game computer hardware; Mixed reality

game computer hardware; Virtual reality computer hardware; Augmented reality computer hardware; Mixed reality computer hardware; Motion tracking sensors for virtual reality, augmented reality and mixed reality technology; Virtual reality hardware, namely, headsets, glasses, and controllers for engaging in virtual reality experiences and playing virtual reality games; Augmented reality hardware, namely, headsets, glasses, and controllers for engaging in augmented reality experiences and playing augmented reality games; Wearable computing devices comprised primarily of software and display screens for connection to computers, tablet computers, mobile devices, and mobile phones in order to enable virtual reality and augmented reality world experiences; Hardware and software for operating sensor devices; Electronic sensor devices, cameras, projectors, and microphones for gesture, facial, and voice detection, capture and recognition; Hardware and software for detecting objects, user gestures and commands; Game software; Software for game development; Gaming software development tools; Blockchain gaming software; Downloadable electronic game software in the nature of video games, computer games, interactive multimedia games, and virtual, augmented, and mixed reality games; Computer software for controlling the operation of audio and video devices; Video display software; Software for accessing and viewing text, images and electronic data relating to conferences in the field of software development; Software for converting natural language into machine-executable commands; Software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms; Application programming interface (API) for use in developing AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Software, namely, an interpretive interface for facilitating interaction between humans and machines: Artificial intelligence software, namely, machine learning software, visual perception software, speech or language recognition software, decision-making software, translation software, touch recognition software, conversational query software, software for converting natural language into machine-executable commands, and digital assistant software; Virtual assistant software that can perform tasks or services on behalf of a user that is activated by user input, location awareness, and online information; Software for providing consumer information; Software for providing electronic maps; Location-aware software for searching, determining, and sharing locations; Software for searching and identifying employment opportunities; Software for identifying and allowing users to contact government representatives; Software providing location-based weather information; Software providing, linking to, or streaming news or current events information; Parental control software; Computer software; Computer operating systems; Software for enabling electronic devices to share data and communicate with each other; Computer peripheral devices; Wearable peripherals for computers, tablet computers, mobile devices and mobile telephones; Digital media streaming devices; Headsets; headphones; Gaming headsets; Computer gaming peripherals; Video display hardware, namely, video drivers for video eyewear; Cameras; Batteries; Battery cases; Battery packs; Rechargeable electric battery devices, namely, rechargeable batteries and portable power supplies; Battery chargers; Rechargeable external battery packs for use with mobile electronic devices; Power charging and power management devices for mobile electronic devices; Charging stands for mobile electronic devices; External chargers for use with computers, tablet computers, mobile devices and mobile telephones; Wireless charging cases for use with computers, tablet computers, mobile devices and mobile telephones; Power adapters; Electrical adapters, cable, and connectors; Bags and cases specially adapted for mobile electronic devices; Protective covers and cases for mobile electronic devices; Cases for computers, smartphones, headphones, headsets and gaming devices; Holders, armbands, clips and carrying cases specially adapted for mobile electronic devices; Wall mounts for mounting mobile electronic devices; Stands for mobile electronic devices; Holders for mobile electronic devices; Remote controls for mobile electronic devices; Audio speakers; Electrical audio and speaker cables and connectors; Electronic cables parts and fittings; Electronic cables; Cables for optical signal transmission; Power cables and cable connectors; Microphones; Audio receivers; Audio transmitters; Head-mounted video display; Receivers of electronic signals; Video receivers; Wireless transmitters and receivers for reproduction of sound and signals; Electric sensors; Sensors for monitoring physical movements; SIM cards; Software for use in customer relationship management (CRM); Software for facilitating and arranging for the financing and distribution of fundraising and donations; Software for online charitable fundraising services and financial donation services; Software for use in

facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, instant message and online social networking services; Telecommunications equipment for providing third party access to, and enabling the transmission of video, data and voice over, global communications networks, namely, mobile and access computer and mobile telephone terminals, base transceiver stations and wireless radio parts thereof, data transceivers, data repeaters, routers and switches, transmission circuits, integrated circuits, computer hardware, mobile cloud clients and servers, multiplexers, digital signal processors, radio frequency signal processors, mobile switching circuits, air traffic electrical controllers, mobility electrical controllers, access electrical controllers, remote port electrical controllers, radio ports, antennas, electronic radio components, software for telecommunications applications, and mobile core networks comprising data transceivers, wireless networks and gateways for collection, transmission and management of data, voice and video; Communication software and communication computer hardware for providing access to the Internet; Telecommunications equipment; Radio receivers and transmitters; GPS receivers; Software to allow users to perform e-commerce transactions via the internet and communications networks; Communications software; Software that allows users to make payments and transfer funds; Software that enables online users to make payments and transfer funds across multiple websites and mobile applications; Electronic payment processing software; Software for processing electronic transactions; Computer software in the nature of a query engine; Software for facilitating machine learning; Software for building user interfaces; Downloadable electronic publications; Software for opinion polling; Software allowing users to post questions with answer options; Interactive photo and video equipment, namely, kiosks computer hardware for capturing, uploading, editing, printing and sharing digital images and video; Software for the synchronization of data between a remote station or device and a fixed or remote station or device; Voice command and recognition software, speech to text conversion software; Voice-enabled software applications for personal information management; Home automation and home device integration software; Wireless communication software for voice, audio, video, and data transmission; Software used for controlling stand-alone voice controlled information and personal assistant devices; Software for voice recognition for use in connection with the transmission of voice and data; Software for accessing, browsing, and searching online databases, audio, video, and multimedia content, games, and software applications, and software application marketplaces; Software for use to connect and control internet of things (iot) electronic devices; Computer application software for handheld wireless devices, namely, software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; Software for processing, reproducing, synchronizing, recording, organizing, downloading, uploading, transmitting, streaming, receiving, playing and viewing text, multimedia and data files; Software, for personalized, interactive television (TV) programming and for use in displaying and manipulating visual media, graphic images, text, photographs, illustrations, digital animation, video clips, film footage and audio data; Software in the nature of a mobile application for telecommunication services for providing transmission of voice, data, video, and media content via the internet and the worldwide web for computers or other portable consumer electronic devices; Software for searching television entertainment exploration guides; Software for searching, locating, compiling, indexing, correlating, navigating, obtaining, downloading, receiving, encoding, decoding, playing, storing and organizing text, data, images, graphics, audio and video on a global computer network; Software to enhance mobile access to the internet via computers, mobile computers, and mobile communications devices; Software for formatting and converting content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works into a format compatible with portable electronic devices and computers; Software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; Electronic communication equipment and instruments, namely, mobile and wearable digital electronic devices for sending and receiving of text, data, audio, image, and video files; Telecommunications apparatus and instruments, namely, speakers and microphones sold as component features of computers, mobile and wearable digital electronic devices for the sending and receiving of

telephone calls, text messages, electronic mail, and other digital data, and for use in providing access to the internet; Electronic notepads; Electronic personal organizers; Electronic voice recording and voice recognition apparatus; Portable digital electronic devices for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, and digital files; Wearable computer hardware; Wearable digital electronic devices comprised primarily of software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; Software for accessing, browsing and searching online databases; Software for accessing, monitoring, searching, displaying, reading, recommending, sharing, organizing, and annotating news, sports, weather, commentary, and other information, content from periodicals, blogs, and websites, and other text, data, graphics, images, audio, video, and multimedia content; Software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and multimedia content, electronic publications, and electronic games; Apparatus for recording, transmission or reproduction of sound or images; Apparatus for transmission of communication; Apparatus for data storage, namely, mobile and wearable digital electronic devices for the storage of text, data, audio, image, and video files; Blockchain; Blockchain software; Cryptocurrency; Cryptography software: Software for cryptocurrency mining; Software for cryptocurrency farming; Software in the field of blockchain; Software for use with cryptocurrency; Software for use with digital currency; Software for use with virtual currency; Digital currency wallet and storage services software; Software for use as a cryptocurrency wallet; Cryptocurrency hardware wallet; Downloadable computer software for use as a digital wallet; Downloadable computer software for use as an electronic wallet; Computer programs and computer application software for electronic storage of data; Software for providing a digital wallet; Software for digital currency payment and exchange transactions; Software for use in managing portfolios of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software for use as an electronic wallet; Software for creating and managing electronic wallets Software for electronic wallet services; Downloadable e-wallets; Distributed ledger software; Distributed ledger platform software; Software for use with distributed ledger technology; Software that facilitates the ability of users to view, analyze, record, store, monitor, manage, trade and exchange digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software for sending, receiving, accepting, buying, selling, storing, transmitting, trading and exchanging digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software for executing and recording financial transactions; Distributed ledger software for use in processing financial transactions; Software for creating accounts and maintaining and managing information about financial transactions on distributed ledgers and peer to peer payment networks; Software for use in financial trading; Software for use in financial exchange; Software for accessing financial information and market data and trends; Software for providing authentication of parties to a financial transaction; Software for maintaining ledgers for financial transactions; Software for the management of cryptographic security of electronic transmissions across computer networks; Software for encrypting and enabling secure transmission of digital information over the Internet; Software for allowing users to calculate parameters related to financial transactions; Software for electronic funds transfer; Software for currency conversion; Software for the collection and distribution of data; Software for payment transactions; Software for connecting computers to local databases and global computer networks; Software for creating searchable databases of information and data; Software for managing and validating transactions involving digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; Software for creating, executing, and managing smart contracts; Software for managing payment and exchange transactions; Software and hardware for use as a digital currency wallet, virtual currency wallet, digital asset wallet, crypto token wallet, and utility wallet; Software for creating a decentralized and open source digital currency, virtual currency, cryptocurrency, digitized assets, digital token for use in blockchainbased transactions; Software for decentralized

finance; Software for developing decentralized applications; Software for recording, managing, tracking, and transferring ownership interests in decentralized autonomous organizations; Software for management and governance of decentralized autonomous organizations; Software for participating and voting in decentralized autonomous organizations; Software for arranging and conducting auctions; Software for voting; Computer application software for blockchain-based platforms, namely, software for digital exchanges for virtual items; Software for creating, selling and managing blockchain-based tokens or appcoins; Software for use in an electronic financial platform; Software for processing electronic payments and for transferring funds to and from others; Blockchain platform software; Software for managing and verifying transactions on a blockchain; Software for use in the management and implementation of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token transactions; Software for creating and managing a blockchain platform for use in managing digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token accounts; Software for managing crypto currency and digital currency accounts; Software for use in payments, purchases, and investments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software for use in managing the conversion of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens into hard currency; Software for developing, deploying, and managing software applications, and integrating software applications for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token accounts; Software and hardware for use in electronically exchanging currency for digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software for use as an application programming interface (API) for the development, testing, and integration of blockchain software applications; Computer hardware for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, and digitized asset mining; Security token hardware; Electronic currency converters; Software, namely, electronic financial platform that accommodates multiple types of payment and transactions in an integrated mobile phone, personal digital assistant (PDA), and web-based environment; Software for creating tokens to be used to pay for products and services, and that may be traded or exchanged for cash value; Software for managing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized asset, digital token, crypto token and utility token payments, money transfers, and commodity transfers; Software for use as an application program interface (API) software for use in computer hardware device identification; Software for use in authenticating user access to computers and computer networks; Software for use in facilitating secure transactions; Software for use in accessing, reading, tracking, and using blockchain technology; Software and hardware for managing identity information, access rights to information resources and applications and authentication functionality; Software for network identification verification, authentication and management services for security purposes; Downloadable authentication software for controlling access to and communications with computers and computer networks; Magnetically encoded credit cards and payment cards; Encryption devices; Security tokens; Software for use as a security token; Software used in issuing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Crypto tokens and utility tokens; Software used in auditing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens: Ad server, namely, a computer server for storing advertisements and delivering advertisements to websites; Altimeters; Application programming interface (API) for computer software for developing and creating virtual reality, augmented reality and mixed reality experiences; Application programming interface (API) for computer software which facilitates online services for social networking and for data retrieval, upload, download, access and management; Application programming interface (API) for software which facilitates online services for social networking and for data retrieval, upload, download, access and management; Application programming interface (API) for use in building software applications; Augmented reality glasses; Augmented reality headsets; Augmented reality

software; Augmented reality software for interactive entertainment; Augmented reality software for navigating an augmented reality environment; Augmented reality software for object tracking, motion control and content visualization; Augmented reality software for operating augmented reality headsets; Augmented reality software for users to experience augmented reality visualization, manipulation and immersion; Cables, namely, electronic cables and connection cables; Cases, straps, wrist and arm bands for electronic monitoring devices; Computer application software for smartphones and mobile devices in the fields of fitness and exercise featuring personal training services, coaching, workouts and fitness assessments; Computer application software for use in connection with configuring and controlling wearable computer hardware and wearable computer peripherals; Computer hardware, for displaying data and video; Computer hardware for use in measuring heart rhythm; Computer hardware for use in taking, electrocardiograms; Computer operating system software; Computer peripheral equipment for use with smartwatches, namely, smartwatch bands and smartwatch straps; Computer peripherals for displaying data and video: Computer peripherals for mobile devices for displaying data and video, namely, peripherals worn on the head for mobile devices for displaying data and video; Computer peripherals for mobile devices for remotely accessing and transmitting data, namely, peripherals worn on the head for mobile devices for remotely accessing and transmitting data; Computer peripherals for mobile devices, namely, electronic devices, monitors, sensors, and displays for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, weather information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data Computer peripherals for remotely accessing and transmitting data; Computer software and computer application software for mobile phones and personal digital devices that provides a fitness assessment and fitness score by comparing previous athletic performances and fitness levels with future athletic performances and fitness levels, and provides advice and customized workouts for improving in specific areas of a particular sport or fitness activity; Computer software and computer application software for mobile phones and personal digital devices that monitor, track, and compare sport activity and fitness level: Computer software and computer application software for mobile phones and personal digital devices that evaluates a user's fitness level and athleticism, and provides fitness scores; Computer software and computer application software for mobile phones and personal digital devices that provides tips, coaching, and personalized workouts, to improve the user's fitness score; Computer software and computer application software for mobile phones and personal digital devices for communicating with gaming consoles, personal computers, personal digital devices, and mobile phones, regarding time, pace, speed, steps taken, athletic skill, calories burned, agility, motion, balance, coordination, and flexibility; Computer software and computer application software for mobile phones and personal digital devices for monitoring, uploading, and downloading data regarding sport activity, fitness training, and fitness level to the internet and other computer and electronic communication networks; Computer software and computer application software that detects user's movements during physical activity, fitness sessions, workouts, to provide personalized fitness scores and assessments; Computer software and firmware, namely, operating system programs, database synchronization software, and data synchronization programs: Computer software development tools; Computer software for accessing, browsing and searching online databases; Computer software for accessing, monitoring, searching, displaying, reading, recommending, sharing, organizing, and annotating news, sports, weather, commentary, and other information, content from periodicals, blogs, and websites, and other text, data, graphics, images, audio, video, and multimedia content; Computer software for communicating with gaming consoles regarding time, pace, speed, steps taken, athletic skill, calories burned, agility, motion, balance, coordination, and flexibility; Computer software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and multimedia content, and electronic publications, and electronic games; Computer software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via

computer the internet and communication networks; Computer software for creating, managing, and interacting with an online community; Computer software for fitness and weight management; Computer software for fitness, fitness assessments, and sport activities; Computer software for integrating electronic data with real world environments for the purposes of entertainment, communicating, and social networking; Computer software for managing information regarding tracking, compliance and motivation with a health and fitness program; Computer software for modifying and enabling transmission of images, audio, audio visual and video content and data; Computer software for modifying photographs, images and audio, video, and audio-visual content with photographic filters and virtual reality, mixed reality and augmented reality (AR) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; Computer software for monitoring, processing, displaying, storing and transmitting data relating to a user's physical activity; Computer software for processing images, graphics, audio, video, and text; Computer software for sending and receiving electronic messages, graphics, images, audio and audio visual content via computer the internet and communication networks; Computer software for sending and receiving electronic messages, alerts, notifications and reminders; Computer software for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, weather information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data; Computer software for setting up, configuring, operating and controlling mobile devices, wearable devices, mobile phones, computers, and computer peripherals; Computer software for social networking and interacting with online communities; Computer software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; Computer software for the redirection of messages, Internet e-mail, and/or other data to one or more electronic wearable wireless communication devices from a data store on or associated with a personal computer or a server; Computer software for tracking and managing information regarding health, fitness, and wellness programs; Computer software for use as an application programming interface (API); Computer software for use in creating, managing, measuring, and disseminating advertising of others; Computer software for viewing digital images and photographs provided as updates for or in combination with head-mounted display screen devices; Computer software for wireless content, data and information delivery; Computer software for wireless data communication for receiving, processing, transmitting and displaying information relating to fitness, body fat, body mass index; Computer software in the field of health, fitness, exercise, and wellness for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data and for tracking and managing information regarding health, fitness, exercise, and wellness programs; Computer software that detects user's movements during physical activity, fitness sessions, workouts, to provide personalized fitness scores and assessments; Computer software that evaluates a user's fitness level and athleticism, and provides fitness scores; Computer software that monitor, track, and compare sport activity and fitness level; Computer software that provides a fitness assessment and fitness score by comparing previous athletic performances and fitness levels with future athletic performances and fitness levels, and provides advice and customized workouts for improving in specific areas of a particular sport or fitness activity; Computer software that provides tips, coaching, and personalized workouts, to improve the user's fitness score; Computer software to enable accessing, displaying, editing, linking, sharing and otherwise providing electronic media and information via the internet and communications networks; Computer software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; Computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the three-dimensional rendering of graphics, still images and moving pictures provided as updates for or in combination with head-mounted display screen devices; Software for creating, managing and accessing groups within virtual communities; Computer software, namely, an application providing social networking functionalities; Computer software, namely, an interpretive interface for facilitating

interaction between humans and machines; Computer software, namely, software development tools for the creation, debugging, and deployment of software applications for smart glasses, near eye displays, head mounted displays, and smartphones; Smartwatches; Connection cables; Eyewear; Sunglasses; Digital video eyewear; Digital video eyewear, head mounted video displays, namely, micro screens and associated optics, virtual reality headsets, associated electronics, namely, connection cables and adaptors, software and firmware for displaying video games, electronic media and images; Downloadable computer application software for mobile phones, smartphones, computers, tablets, smart glasses, digital video eyewear, wearable digital electronic devices, namely, glasses, goggles, and headsets, head mounted displays, near eye display systems, communications networks, cloud computing services, and computer systems for communicating between the devices, networks and services; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for displaying icons, determining and responding to user selection of icons, controlling connections to and communication with other devices, networks, and systems, operating a camera to record and display images and audio visual files, organizing digital image and audio visual files, controlling microphones, controlling sound level of built-in speakers, transferring computer files between the smart glasses, near eye display systems, head mounted displays and other devices, networks, and systems, controlling user notifications, controlling a touchpad, controlling and obtaining data from sensors in the smart glasses, near eye display systems, and head mounted displays, including accelerometers, barometric, temperature, tilt, tip, and yawl sensors, head orientation sensors, and GPS receivers, controlling the speed of the CPU, and sensing and displaying the battery charge level, and displaying, capturing, recording, and streaming data, images, and audio visual content in standard reality, augmented reality, and mixed reality environments; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for the generation and display of standard reality, augmented reality, mixed reality content; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for communication with other smart glasses, near eye display systems, and head mounted displays; Downloadable computer software for enabling capture, storage, and transmission of photographs, videos, data, and information with a user's biometric, health, and other performance data overlaid and integrated into the recording; Downloadable computer software for viewing and interacting with a feed of images, audio, audio-visual and video content and associated text and data Downloadable computer software, namely, mobile application for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; Electric cables; Electrical adapters; Electronic monitoring devices incorporating indicators that light up and change color based on wearer's cumulative activity level; Electronic monitoring devices incorporating microprocessors, digital display, and accelerometers, for detecting, storing, reporting, monitoring, uploading and downloading sport, fitness training, and activity data to the internet, and communication with gaming consoles and personal computers, regarding time, pace, speed, steps taken, athletic skill, calories burned, heart and body rate, global positioning, direction, distance, altitude, navigational and weather information; Electronic navigational instruments and apparatus; Fitness and exercise sensors, monitors, and displays for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, temperature, and navigational information, to be worn during exercise and for sports activities; Gesture recognition software; Glasses with the function of wireless communication; Global positioning system (GPS) devices; Goggles for enabling virtual reality, augmented reality and mixed reality world experiences; Hardware and software to view virtual images in creating virtual, augmented and mixed reality; Head mounted video display; Head-mounted display screen devices and their component parts, .namely, video display cards; Headsets for use with computers; interactive entertainment software; interface electronics, namely, video driver interface circuits for digital video eyewear; Location-aware computer software, downloadable computer software and mobile application software for searching, determining and sharing locations; Loudspeakers; Messaging software; Microdisplays, namely, head mounted video displays and near eye video displays; Mixed reality computer hardware; Mixed reality glasses; Mixed reality headsets; Mixed reality software; Mixed reality software for interactive entertainment; Mixed reality software for navigating a mixed reality environment; Mixed reality software for object

tracking, motion control and content visualization; Mixed reality software for operating mixed reality headsets; Mixed reality software for users to experience mixed reality visualization, manipulation and immersion; Mobile application software for creating personalized fitness training programs; Motion tracking sensors for augmented reality technology; Motion tracking sensors for mixed reality technology; Motion tracking sensors for virtual reality technology; Multifunctional electronic devices for displaying, measuring, and uploading to the Internet information including time, date, body and heart rates, global positioning, direction, distance, altitude, speed, steps taken, calories burned, navigational information, weather information, the temperature, wind speed, and the declination of body and heart rates, altitude and speed; Multifunctional electronic devices for displaying, measuring, and uploading to the Internet information including time, date, heart rate, global positioning, direction, distance, altitude, speed, steps taken, calories burned, navigational information, changes in heart rate, activity level, hours slept, quality of sleep, and silent wake alarm; Near eye display optics, namely, video display screens for mounting near a user's eyes and lenses for displaying images to a user; Near eye display systems comprised of GPS sensors, accelerometers, magnetometers, directional compasses, environment temperature sensors, and electronic tip and tilt orientation sensors; Near eye display systems comprising computer hardware, electronic display interfaces, and software for the generation and display of virtual reality and mixed reality content; Near eye display systems comprising computer hardware, electronic display interfaces, and software specifically adapted for goggles; Near eye display systems comprising eyewear and software for the generation and display of standard reality, augmented reality, and mixed reality content; Near eye displays; Network communication apparatus, namely, mobile and wearable digital electronic devices for the sending and receiving of text, data, audio, image, and video files across networks; Pedometers; Peripherals for mobile devices, namely, pedometers and altimeters; Personal assistant software; Personal digital assistants; Personal electronic devices used to track fitness goals and statistics; Personal fitness trackers; Personal video display devices in the nature of wearable displays for viewing digital content including virtual reality, augmented reality and mixed reality content; Personal video display screens; Portable, handheld, and personal digital electronic devices for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, and digital files; Remote control apparatus for wearable computer hardware and smartwatches; Sensors for scientific use to be worn by a human to gather human biometric data, mobile and wearable digital electronic devices for recording, organizing, transmitting, manipulating, and reviewing text, data, audio, image and video files; Smart glasses; Smart glasses with wired and wireless audio capability; Smartwatch bands; Smartwatch straps; Smartwatches; Smart jewelry; Social assistant software; Software and firmware for controlling, configuring and managing controllers; Software and firmware for displaying video games and electronic media on display screen devices provided as updates for or in combination with head-mounted display screen devices; Software and firmware for operating system programs; Software and firmware for video drivers and video processing provided as updates for or in combination with head-mounted display screen devices; Software and firmware for enabling electronic devices to share data and communicate with each other; Software driver programs for electronic devices for enabling computer hardware and electronic devices to communicate with each other; Software for advertisers to communicate and interact with online communities; Software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; Software for communicating by wireless local area networks, wireless technologies, and other communication protocols between near-eye display systems and network devices, namely, mobile phones, smart phones, computers, tablets, and other computer systems; Software for converting natural language into machine-executable commands; Software for creating and managing social media profiles and user accounts; Software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer and communication networks; Software for creating, managing and accessing groups within virtual communities; Software for creating, managing, and interacting with an online community; Software for facilitating and arranging for the financing and distribution of fundraising and donations;

Software for generating images to be displayed in near-eye display system; Software for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; Software for modifying and enabling transmission of images, audio, audio visual and video content and data; Software for online charitable fundraising services and financial donation services; Software for ordering and/or purchasing goods and services; Software for organizing, searching for and managing events; Software for planning activities with other users, making recommendations; Software for processing images, graphics, audio, video, and text; Software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; Software for smart phones and other computer systems to generate data, images, and audio for display in near-eye display systems and for transmitting such data, images, audio to near-eye display systems; Software for smart phones and other computer systems to receive data from near-eye display systems; Software for social and destination mapping; Software for social networking; Software for streaming multimedia entertainment content; Software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; Software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented, mixed and virtual reality experiences; Software for use as an application programming interface (API); Software for use in creating and designing virtual reality, augmented reality and mixed reality software; Software for wireless content, data and information delivery; Software in the nature of a mobile application; Software that enables individuals, groups, companies, and brands to create and maintain an online presence for marketing purposes; Software, namely, an interpretive interface for facilitating interaction between humans and machines; Telecommunications apparatus and instruments, namely, speakers and microphones sold as component features of computers, mobile and wearable digital electronic devices for the sending and receiving of telephone calls, text messages, electronic mail, and other digital data, and for use in providing access to the internet; Virtual reality glasses; Virtual reality headsets; Virtual reality software; Virtual reality software for interactive entertainment; Virtual reality software for navigating a virtual reality environment; Virtual reality software for object tracking, motion control and content visualization; Virtual reality software for operating virtual reality headsets; Virtual reality software for users to experience virtual reality visualization, manipulation and immersion; Virtual, augmented, and mixed reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual, augmented, and mixed reality experiences; Watches, bracelets, and wrist bands that communicate data to personal digital assistants, smart phones, and personal computers through Internet websites and other computer and electronic communication networks; Waterproof near eye display systems comprising computer hardware, electronic display interfaces, and software for the generation and display of virtual reality and mixed reality content; Wearable activity trackers; Wearable computer peripherals; Wearable computing devices comprised primarily of software and display screens for connection to computers, tablet computers, mobile devices, and mobile phones in order to enable virtual reality, augmented reality and mixed reality world experiences; Wearable digital electronic devices comprised primarily of software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; Wearable digital electronic devices, namely, glasses, goggles, and headsets; Wearable electronic devices, namely, watches, bracelets, and wristbands that are comprised of software that communicates data to personal digital assistants, smart phones, and personal computers through Internet websites and other computer and electronic communication networks; Wearable peripherals for computers, tablet computers, mobile devices and mobile telephones, namely, configurable head-mounted displays; Wireless computer peripherals; Light emitting diode (LED) signs; Neon signs; Non-fungible token (NFT) multimedia files; Non-fungible token (NFT) music files; Non-fungible token (NFT) image files; Non-fungible token (NFT) video files; Non-fungible token (NFT) text files; Non-fungible token (NFT) audio files; Image, music, audio, video and multimedia files authenticated by non-fungible tokens (NFTs); Digital images, audio, video and multimedia files; Computer graphics; Software for creating NFTs; Software for minting, creating, and issuing digital assets, digital tokens, cryptotokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital

currencies and virtual currencies; Software for viewing and providing access to digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; Software for distributing, trading, storing, sending, receiving, accepting, and transmitting digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies in the name of **YUGA LABS, INC. of 1430 S. Dixie Hwy, Ste. 105 1075, Coral Gables, FL 33146-3108, United States.**

Address for service: **MacMillan's Intellectual Property Attorneys Ltd  
2nd Floor, Allied Building Annex, Francis Rachel Street  
Victoria  
Mahe**

**KODAS**

Entertainment services, namely, arranging and conducting of competitions for encouraging use and development of interactive entertainment, virtual reality, augmented reality, mixed reality, consumer electronics, and video game entertainment software and hardware; Entertainment services, namely, contest and incentive award programs designed to reward program participants who exercise, participate in sports activities, engage in health-promoting activities, make achievements in exercise and sports activities, and reach personal goals regarding exercise, sports activities,

and fitness; Entertainment services, namely, contest and incentive award programs designed to reward program participants who exercise, make healthy eating choices, and engage in other health-promoting activities; Entertainment services, namely, incentive award programs designed to reward program participants who exercise; Entertainment services, namely, providing access to interactive electronic and online databases of user-defined content, third-party content, photos, video, audio, visual, and audio-visual material in the field of general interest; Entertainment services, namely, providing an online forum for the dissemination of content, data, and information for entertainment and social and business networking purposes; Entertainment services, namely, providing online facilities for streaming entertainment content and live streaming video of entertainment events; Entertainment services, namely, providing online facilities for streaming entertainment content and live streaming video of entertainment events; Entertainment services, namely, providing online mixed reality environments; Mixed reality video production; Multimedia production services; Online journals, namely, blogs featuring commentary, advice and information in the fields of health, wellness, sleep, fitness and nutrition; Online journals, namely, blogs; Online journals, namely, weblogs (blogs) featuring user-defined content; Organizing contest and incentive award programs for software developers; Organizing exhibitions and events for cultural, educational, or entertainment purposes; Organizing exhibitions and events in the field of interactive entertainment, virtual reality, mixed reality, and augmented reality, consumer electronics and video game entertainment industries for cultural or educational purposes; Organizing exhibitions and events in the field of software development for educational purposes; Organizing exhibitions in the field of interactive entertainment, virtual reality, augmented reality, mixed reality, consumer electronics and video game entertainment industries for cultural or educational purposes; Organizing live exhibitions and conferences in the fields of culture, entertainment and social networking for non-business and non-commercial purposes; Personal coaching services in the field of sports, exercise, health, and fitness; Photo-sharing and video sharing services; Pre-recorded athletic and fitness sessions; Providing a fitness assessment and a fitness score, and a personalized workout program based on that assessment and score; Providing a website featuring fitness coaching, instructions, and sessions; Providing a website featuring fitness instructions and sessions; Providing a website featuring information regarding fitness training, and athletic skill development; Providing a website featuring information regarding fitness training, fitness coaching, fitness goals, and athletic skill development; Providing a website featuring information regarding sports, athletic skill development, and fitness training; Providing a website featuring pre-recorded athletic and fitness sessions; Providing access to pre-recorded athletic and **fitness** sessions; Providing computer, electronic and online databases in the field of entertainment; Providing entertainment information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, photographic images and audio visual information, via the internet and communication networks; Providing group coaching in the field of sports, exercise, health, and fitness; Providing information regarding sports, athletic skill development, and fitness training via an online website, other computer and electronic communication networks, and via computer software for gaming consoles, personal computers, personal digital devices, and smart phones; Providing online resources for software developers; Providing pre-recorded athletic challenges, training, fitness sessions and challenges, and workouts via an online website, other computer and electronic communication networks, and via computer software for gaming consoles, personal computers, personal digital devices, and smart phones; Publishing services, namely, publishing of electronic publications for others; Virtual reality video production in the name of **YUGA LABS, INC. of 1430 S. Dixie Hwy, Ste. 105 1075, Coral Gables, FL 33146-3108, United States.**

Address for service: **MacMillan's Intellectual Property Attorneys Ltd  
2nd Floor, Allied Building Annex, Francis Rachel Street  
Victoria  
Mahe**

**KODAS**

Lodged: **25/05/2022.**

Application No: **287/2022** in Class **42** Design and development of computer hardware and software; Non-downloadable software; Non-downloadable software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; Design, engineering, research, development and testing services in the field of mobile application software development related to the use and functionality of hyperlinks; Technical consultation in the field of mobile application software development related to the use and functionality of hyperlinks; Nondownloadable software that gives users the ability to engage in social networking and manage their social networking content; Non-downloadable software for social networking; Computer services, namely, creating an online community for registered users to engage in social networking; Nondownloadable software for creating, managing, and interacting with an online community; Nondownloadable software for creating, managing and accessing user-created and administered groups within virtual communities; Non-downloadable software for creating and managing social media profiles and user accounts; Non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text, content, and data Computer services in the nature of customized electronic personal and group profiles or webpages featuring user-defined or specified information, including, audio, video, images, text, content, and data Nondownloadable software that enables users to transfer personal identity data to and share personal identity data with and among multiple websites; Application service provider (ASP) featuring software for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Platform as a service (PAAS) featuring software platforms for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Application service provider (ASP) featuring application programming interface (API) software which facilitates online services for social networking and developing software applications; Non-downloadable software for viewing and interacting with a feed of electronic media, namely, images, audio-visual and video content, live streaming video, commentary, advertisements, news, and Internet links; Non-downloadable software for finding content and content publishers, and for subscribing to content; Non-downloadable software for organizing images, video, and audio-visual content using metadata tags; Non-downloadable software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, voting on, interacting with, embedding, transmitting, and sharing or otherwise providing electronic media, images, video, audio, audio-visual content, data, and information via the internet and communication networks; Application service provider (ASP) featuring software to enable or facilitate the creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, interacting with, embedding, transmitting, and sharing or otherwise providing electronic media, images, video, audio, audio-visual content, data, and information via the internet and communication networks; Non-downloadable software for sending and receiving electronic messages, alerts, notifications and reminders; Providing application programming interface (API) software for use in electronic messaging and transmission of audio, video, images, text, content and data; Non-downloadable software for electronic messaging; Non-downloadable software to facilitate interactive discussions via communication networks; Non-downloadable software for organizing events, searching for events, calendaring and managing events; Non-downloadable software for modifying photographs, images and audio, video, and audio-video content; Nondownloadable software for use in taking and editing photographs and recording and editing videos; Application service provider (ASP) featuring software to enable or facilitate taking and editing photographs and recording and editing videos; Non-downloadable software for streaming multimedia entertainment content; Non-downloadable software for enabling transmission of images, audio, audio visual and video content and data; Computer services, namely, providing search engines for obtaining data via the internet and communications networks; Providing search engines of online network environments to provide information from

searchable indexes and databases of information, including text, electronic documents, databases, graphics, electronic media, images and audio visual content, via the internet and communications networks; Application service provider (ASP) services, namely, hosting software applications of others; Non-downloadable software for providing, linking to, or streaming news or current events information; Non-downloadable e-commerce software; Non-downloadable e-commerce software to allow users to perform electronic business transactions via the internet and communications networks; Application service provider (ASP) featuring application programming interface (API) software to allow users to perform electronic business transactions via the internet and communication networks; Software as a service (SAAS) services featuring software for sending and receiving electronic messages, notifications and alerts and for facilitating electronic business transactions via the internet and communications networks; Non-downloadable software for use in designing, managing, measuring, analyzing, disseminating, and serving advertising of others; Application service provider (ASP) featuring application programming interface (API) software for creating, managing, tracking, reporting and measuring advertising of others; Non-downloadable software for allowing buyers and sellers of online advertising to purchase and sell advertising inventory; Non-downloadable software for creating, sharing, disseminating and posting advertising; Non-downloadable software for creating and maintaining an online presence for individuals, groups, companies, and brands; Nondownloadable software for advertisers to communicate and interact with online communities; Nondownloadable software for curating online user-defined content and advertisements and creating social media feeds; Designing and developing computer game software and video game software for use with computers, video game program systems and computer networks; Development of hardware for use in connection with electronic and interactive multimedia games; Nondownloadable software that gives users the ability to upload, modify and share virtual reality content, augmented reality content, mixed reality content, information, experiences and data Hosting of virtual reality and augmented reality content on the internet; Providing user authentication services using single sign-on and software technology for e-commerce transactions; Providing user authentication services of electronic funds transfer, credit and debit card and electronic check transactions using single sign-on and software technology; Non-downloadable software for providing authentication of parties to a financial transaction; Providing an application programming interface (API) to allow users to perform electronic business transactions via the internet; Non-downloadable software for processing electronic payments; Platform as a service (PAAS) services featuring computer software to allow users to perform business and e-commerce transactions; Non-downloadable software for providing electronic maps; Application service provider (ASP) featuring software for providing electronic maps; Non-downloadable computer software for searching, determining, and sharing locations; Non-downloadable software for searching and identifying local and location-based points of interest, events, landmarks, employment opportunities, entertainment, cultural events, shopping and offers: Non-downloadable software for making reservations and bookings; Application service provider (ASP) featuring software to enable or facilitate making reservations and bookings; Non-downloadable software that gives users the ability to post ratings, reviews, referrals and recommendations relating to businesses, restaurants, service providers, events, public services and government agencies; Non-downloadable software for providing a virtual marketplace; Non-downloadable software for ordering and/or purchasing goods and services; Application service provider (ASP) featuring software to enable or facilitate ordering and/or purchasing goods and services; Non-downloadable software for searching and identifying employment opportunities; Non-downloadable software for identifying and allowing users to contact government representatives; Non-downloadable software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms; Application service provider (ASP) featuring software to enable or facilitate interaction and communication between humans and AI (artificial intelligence) platforms; Design of augmented reality and virtual reality effects for use in modifying photographs, images, videos and audio-visual content; Non-downloadable personal assistant software; Non-downloadable social assistant software; Non-downloadable software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; Application service provider (ASP) services featuring software to enable or facilitate voice over internet

protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; Providing a website featuring information in the fields of technology and software development via the internet and communication networks; Design and development of virtual reality, augmented reality and mixed reality hardware and software; Design and development of video game hardware and software; Computer game , electronic game and video game development services; Software development; Non-downloadable software development tools; Non-downloadable gaming software development tools; Non-downloadable blockchain gaming software; Non-downloadable software for game development; Non-downloadable software for creating NFTs; Non-downloadable game software; Non-downloadable virtual reality software; Non-downloadable software for voting; Nondownloadable software for arranging and conducting auctions; Development of interactive multimedia software; Maintenance and repair of computer software; Computer services, namely, cloud hosting provider services; Cloud computing services; Non-downloadable cloud computing software for use in electronic storage of data; Non-downloadable cloud computing software for virtual, augmented reality applications and environments; File sharing services, namely, providing online non-downloadable software featuring technology enabling users to upload and download electronic files; Non-downloadable file sharing software; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; Computer services, namely, providing remote management of devices via computer networks, wireless networks or the internet; Data encryption services; Encrypted electronic transmission and delivery of recovered data Non-downloadable software and applications for customer relationship management (CRM); Application service provider (ASP) featuring software for customer relationship management (CRM); Computer services, in particular, application service provider featuring application programming interface (API) software for customer relationship management (CRM); Non-downloadable software for facilitating and arranging fundraising and the distribution of fundraising donations; Non-downloadable software for online charitable fundraising services and donation services; Scientific and technological services and research and design relating thereto; Industrial analysis and research services; Computer hardware and software design, development, installation and maintenance; Research services and consulting in the field of information and telecommunications technology; Design of telecommunications apparatus and equipment; Consulting services in the field of design, selection, implementation and use a computer hardware and software systems for others; Providing online software platform featuring technology that enables online users to make payments and transfer funds; Providing online software platform featuring technology that enables online users to make payments and funds transfers across multiple websites and mobile applications; Computer services, namely, application services provider featuring application programming interface (API) software to allow users to perform e-commerce transactions via the internet and communications networks; Software as a services (SAAS) services featuring software for facilitating e-commerce transactions via the internet and communications networks; Application service provider featuring an application programming interface (API) software to allow users to perform e-commerce transactions via the internet and communications networks; Non-downloadable software for converting natural language into machine-executable commands; Analyzing and evaluating social media content; Developing standards for third-party social media content; Conducting proceedings relating to standards concerning third-party social media content; Content moderation and supervision; Web publishing, namely, publishing of decisions concerning third-party social media content; Nondownloadable computer software in the nature of a query engine; Non-downloadable computer software for use in performing queries on large amounts of data; Non-downloadable computer software in the nature of a query engine functioning across business intelligence (BI) tools; Nondownloadable artificial intelligence software for facilitating machine learning software; Application service provider (ASP) featuring software to enable or facilitate machine learning software; Nondownloadable software for machine learning; Non-downloadable software tools for software development; Non-downloadable software for building user interfaces; Application service provider (ASP) featuring software to enable or

facilitate user interface building software; Electronic data storage; Electronic storage of photographs; Interactive hosting services which allow the users to publish and share their own content and images online; Non-downloadable software for database management; Computer network services; Non-downloadable software for opinion polling; Nondownloadable software allowing users to post questions with answer options; Platform as a service (PAAS) services featuring technology that allows businesses, organizations and individuals to create and manage their online presences and to communicate with online users information and messages regarding their activities, products and services and to engage in business and social networking; Non-downloadable software featuring technology that allows users to manage their business networking accounts; Non-downloadable software for voice command and recognition software, speech to text conversion software, voice-enabled software applications for personal information management; Platform as a service (PAAS) featuring computer software platforms for personal assistant software; Platform as a service (PAAS) featuring computer software platforms for home automation and home device integration software; Platform as a service (PAAS) featuring computer software platforms for wireless communication software for voice, audio, video, and data transmission; Software as a service (SAAS) featuring computer software for personal information management; Non-downloadable software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; Software as a service (SAAS) featuring computer software for use to connect and control internet of things (iot) electronic devices; Software as a service (SAAS) featuring computer software for others to use for the development of software to manage, connect, and operate internet of things (iot) electronic devices; Software as a service (SAAS) featuring computer software for use as an application programming interface (API); Design, development and maintenance of proprietary computer software for others in the field of natural language, speech, language, and voice recognition excluding post-production of picture and sound recordings; Technical support and consultancy services for developing applications; Information, advisory and consultancy services relating to voice command and recognition software, speech to text conversion software, and voice-enabled software applications, home automation, and internet-of-things software; Providing information, news, and commentary in the field of science and technology, home decorating, weather, and graphic, interior, product, and fashion design; Technological services, namely, data warehousing services; Application service provider (asp), namely, hosting computer software applications through the internet of others; Consultation services relating to programming of multimedia application management, computer programming, hardware, software, and computer system design and specification; Software as a service (SAAS) services, namely, hosting software for use by others for use in providing an online database featuring a wide range of general interest information via the interne; Non-downloadable mobile communications device software for enhancing mobile access to the internet via computers, mobile computers, and mobile communications devices; Technical support, namely, troubleshooting of computer hardware and software problems and mobile computer and mobile communications device hardware and software problems; Computer, mobile computer, and mobile communication device hardware and software consultation and design; Non-downloadable computer software that enables users to access and download computer software; Non-downloadable software and applications for accessing streaming audio and video files, games, social networks, text files, and multimedia files; Application service provider (ASP) featuring application programming interface (API) software for the streaming, storage, and sharing of video games, content, data and information; Computer software development in the field of mobile applications; Providing technical support services, namely, troubleshooting of computer software problems regarding the usage of communications equipment; Computer services; Information technology (IT) services; Application service provider (ASP) services, namely, hosting computer software applications of others; Application service provider (ASP) services, featuring e-commerce software for use as a payment gateway that authorizes processing of credit cards or direct payments for merchants; Application service provider (ASP) services, namely, providing, hosting, managing, developing, and maintaining applications, software, websites and databases in the fields of information technology, blockchain, virtual currency, digital currency, cryptocurrency, and digital assets; Application service provider (ASP) services featuring software for use in virtual currency, digital currency, cryptocurrency, and digital asset

exchange and transactions; Application service provider (ASP) featuring software to enable or facilitate the creating, editing, uploading, downloading, accessing, viewing, posting, displaying, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via the internet and communications networks; Application service provider services featuring application programming interface (API) software to allow users to perform electronic business transactions via a global computer network; Application service provider (ASP) featuring software to enable or facilitate purchasing goods and services; Software as a service (SAAS) services; Platform as a service (PAAS) services; Non-downloadable cloud computing software; Providing distributed ledger technology; Non-downloadable distributed ledger software ;Non-downloadable cryptography software; Non-downloadable software for use with cryptocurrency; Non-downloadable software for use with digital currency; Non-downloadable software for use with virtual currency; Non-downloadable software for cryptocurrency mining; Non-downloadable software for cryptocurrency farming; Non-downloadable software that facilitates the ability of users to view, analyze, record, store, monitor, manage, trade and exchange digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Non-downloadable software for sending, receiving, accepting, buying, selling, storing, transmitting, trading and exchanging digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Non-downloadable software for implementing, executing, and recording financial transactions, Non-downloadable software for creating accounts and maintaining and managing information about financial transactions on distributed public ledgers and peer to peer payment networks; Non-downloadable software for managing and verifying transactions on a blockchain; Non-downloadable software for processing electronic payments and for transferring funds to and from others; Providing electronic financial platform software; Providing software for use as an application programming interface (API) for the development, testing, and integration of blockchain software applications; Non-downloadable software for transfers of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens between parties; Non-downloadable software for use in financial trading; Non-downloadable software for use in financial exchange; Non-downloadable software for use in accessing financial information and market data and trends; Non-downloadable software for the management of cryptographic security of electronic transmissions across computer networks; Non-downloadable software for use with virtual currency; Providing software for use with digital currency: Providing software for use with cryptocurrency; Non-downloadable software for use with digital currency wallet and storage services; Providing non-downloadable software for use as a cryptocurrency wallet; Providing non-downloadable software for use as an electronic wallet"; Providing non-downloadable software for use as a digital wallet; Non-downloadable software for creating and managing electronic wallets; Electronic data storage services; Non-downloadable software for electronic funds transfer; Non-downloadable software for currency conversion; Nondownloadable software for the collection and distribution of data Non-down loadable software for payment and exchange transactions; Non-downloadable software for connecting computers to local databases and global computer networks; Non-downloadable software for creating searchable databases of information and data; Non-downloadable software for managing and validating digital currency, virtual currency, cryptocurrency, digital asset, blockchain asset, digitized asset, digital token, crypto token and utility token transactions; Non-downloadable software for creating, executing, and managing smart contracts; Development and implementation of smart contracts; Non-downloadable software for managing payment and exchange transactions; Non-downloadable software for electronically exchanging currency for digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Non-downloadable software for use in enabling the electronic transfer of funds to and from others; Non-down loadable software for decentralized finance; Non-downloadable software for creating a decentralized and open source digital currency for use in blockchain-based transactions; Non-downloadable software for creating a decentralized and open source virtual currency for use in blockchain-based transactions; Non-downloadable software for creating a decentralized and open source cryptocurrency for use in blockchain-based transactions; Non-downloadable software for

encrypting and enabling secure transmission of digital information over the Internet, as well as over other modes of communication between computing devices; Distributed ledger platform software for use in processing financial transactions; Non-downloadable software for maintaining ledgers for financial transactions; Non-downloadable software for electronic funds transfer and currency conversion; Providing a web portal featuring blogs and non-downloadable publications in the nature of articles, columns, and informational guides in the fields of virtual currencies, digital and blockchain assets and market and trading trends; Non-downloadable electronic publications; Nondownloadable digital images, audio, video and multimedia files; Non-downloadable computer graphics; Platform as a service (PAAS) featuring computer software platforms for the selling and purchasing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software as a service (SAAS) featuring computer software platforms for the selling and purchasing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Computer services, namely, creating an on-line virtual environment for the selling and purchasing of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Platform as a service (PAAS) featuring computer software platforms for managing blockchain and token driven, distributed storage computer systems; Software as a service (SAAS) featuring computer software platforms for managing blockchain and token driven, distributed storage computer systems; Computer services, namely, providing secure, private encrypted cloud storage services; Computer services, namely, providing open source decentralized cloud storage platform; Data encryption services featuring blockchain software technology and peer-to-peer protocols to provide secure, private, and encrypted cloud storage; Data mining; Non-downloadable software for use with blockchain technology; Software as a service (SAAS) services featuring software for clearing, allocation, compliance, recordation and settlement of trading related to digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Platform as a service (PAAS) services featuring software for clearing, allocation, compliance, recordation and settlement of trading related to digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Platform as a service (PAAS) featuring software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens that allow users to buy from, and sell products and services to others; Software as a service (SAAS) featuring software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens that allow users to buy from, and sell products and services to others; Blockchainbased software platforms and distributed computing software platforms for auditing and verifying digital information and codes; Non-downloadable blockchain software; Design, development and implementation of audit and security software for blockchain-based platforms; Non-downloadable software for use in facilitating secure transactions; Non-downloadable software for auditing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Design, development, and implementation of software for distributed computing platforms; Design, development, and implementation of software for blockchain; Design, development, and implementation of software for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token wallets; Design, development, and implementation of software for third-party verification services for digital currency transactions, including but not limited to transactions involving bitcoin currency; Non-downloadable software for users to buy and sell products by using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Non-downloadable software for use in accessing, reading, tracking, and using blockchain technology; Technical consultancy services related to digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token transactions; Platform as a service (PAAS) featuring computer software platforms for computer system and application development, deployment, and management; Software as a service (SAAS)

featuring computer software platforms for computer system and application development, deployment, and management; Non-downloadable software enabling users to develop, build and run distributed applications through an open-source peer-to-peer smart-contract and payment network platform; Providing temporary use of non-downloadable authentication software for controlling access to and communications with computers and computer networks; Non-downloadable communications software; Non-downloadable software for use in the exchange of virtual items; Providing a digital exchange; Non-downloadable software for use in issuing digital currency, virtual currency, cryptocurrency, digital and blockchain assets; Application service provider (ASP); Application service provider (ASP) featuring application programming interface (API) software which facilitates online services for social networking, developing software applications; Application service provider (ASP) featuring location-aware software for searching, determining and sharing the location of goods, services and events of interest; Application service provider (ASP) featuring software for mapping services; Application service provider (ASP) featuring software for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Application service provider (ASP) featuring software for use in buying, selling, designing, managing, tracking, valuing, optimizing, targeting, analyzing, delivery, and reporting of online advertising and marketing; Application service provider (ASP) featuring software to enable or facilitate the sharing and displaying a user's location, planning activities with other users and making recommendations; Application service provider (ASP) featuring software to enable or facilitate social and destination mapping; Application service provider (ASP) featuring software to enable or facilitate interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Application service provider (ASP) services; Application service provider (ASP) services featuring software for controlling, integrating, operating, connecting, and managing voice - controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; Application service provider (ASP), namely, hosting, managing, developing and maintaining applications, software, and web sites, in the fields of personal productivity, wireless communication, and mobile applications; Application service provider (ASP), namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; Application service provider (ASP), namely, remote hosting of computer applications of others; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; Computer consulting; Computer programming; Computer hardware and software consultation and design; Computer hardware, software, application, and network consulting services; Computer online services, namely, providing information, online links and electronic resources related to sports, health, and fitness; Computer services in the nature of providing customized online pages featuring user-defined or specified information, personal profiles, virtual reality, mixed reality, and augmented reality content and data Computer services, namely, creating virtual communities for registered users to organize groups and events, participate in discussions, get feedback from their peers, and engage in social, business and community networking; Computer services, namely, curating online user-defined content and advertisements and creating social media feeds; Computer services, namely, hosting online web facilities for others for organizing and conducting meetings, events and interactive discussions via the internet and communication networks; Computer services, namely, providing information in the fields of technology and software development via the internet; Computer software development; Creating, maintaining and hosting of a website and other computer and electronic communication networks featuring information, online links, and electronic resources in the field of sports and fitness; Creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables

users to enter, access, track progress, monitor and generate health, fitness, personal exercise, sports, and athletic activity information and achievements; Creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to compete and compare athletic information and achievements with other users; Design and development of augmented reality hardware and software; Design and development of computer hardware and computer software; Design and development of interactive multimedia software; Design and development of augmented reality hardware and software; Design and development of mixed reality hardware and software; Design and development of virtual reality hardware and software; File sharing services, namely, providing online facilities for others featuring technology enabling users to upload and download electronic files; Hosting of digital content on the internet; Mapping services; Mobile computer and mobile communications device hardware and software consultation and design; Mobile computer and mobile communications device software design for others; Non-downloadable computer software for displaying, aggregating, analyzing and organizing data and information in the fields of health, wellness, fitness, physical activity, weight management, sleep, and nutrition; Non-downloadable computer software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Non-downloadable computer software for sharing and displaying a user's location, planning activities with other users and making recommendations; Non-downloadable computer software for social and destination mapping; Non-downloadable computer software for tracking fitness, health and wellness goals and statistics; Non-downloadable software for creating personalized fitness training programs; Non-downloadable software for creating, managing and accessing user-created and administered private groups within virtual communities; Non-downloadable software for ordering and/or purchasing goods and services; Non-downloadable software for processing electronic transactions; Non-downloadable software for providing a virtual marketplace; Non-downloadable software for providing personal training services, workouts and fitness assessments; Non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text and data Non-downloadable software for streaming multimedia entertainment content; Non-downloadable software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; Non-downloadable software for processing images, graphics, audio, video, and text; Non-downloadable software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; Online ad-buying platform provider, namely, providing non-downloadable software programs for allowing buyers and sellers of online advertising to purchase and sell advertising inventory; Non-downloadable cloud computing software for use in electronic storage of data Non-downloadable cloud computing software for virtual reality, mixed reality and augmented reality applications and environments; Non-downloadable computer software for use in providing retail and ordering services for a wide variety of consumer goods; Platform as a service (PAAS) featuring computer software platforms for use in purchasing and disseminating advertising; Platform as a service (PAAS) featuring computer software platforms for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Platform as a service (PAAS) featuring computer software platforms for voice command and recognition software, speech to text conversion software, voice-enabled software applications for personal information management; Platform as a service (PAAS) featuring software platforms for social networking and transmission of images, audio-visual content, video content and messages; Platform as a service (PAAS) services featuring computer software to allow users to perform electronic business and e-commerce transaction; Providing an interactive web site that enables users to enter, access, track progress, monitor and generate nutrition, calories, health, fitness, personal exercise, sports, and athletic activity information and achievements; Non-downloadable software to provide information regarding sports, athletic skill development, fitness coaching, and fitness training via an online website and other computer and electronic communication networks for gaming consoles, personal computers, personal digital devices, and smart phones; Providing an interactive web site that

enables users to enter, access, track progress, monitor and generate calories, fitness, personal exercise, and athletic activity information and achievements; Providing an online network service that enables users to transfer personal identity data to and share personal identity data with and among multiple online facilities; Providing customized computer searching services, namely, searching and retrieving information at the user's specific request via the internet; Providing information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, electronic media, images and audio visual content via the internet and communication networks; Providing internet search engines; Non-downloadable software to allow users to perform electronic business transactions via the internet and communications networks; Providing online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information, to transfer and share such information among multiple online facilities, to engage in social networking, and to manage their social networking accounts; Providing online facilities that give users the ability to upload, modify and share audio, video, photographic images, text, graphics and data Providing online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information and to transfer and share such information among multiple online facilities; Providing online non-downloadable software for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; Providing online sites that gives users the ability to upload, modify and share virtual reality, mixed reality and augmented reality content, information, experiences and data; Non-downloadable personal assistant software; Non-downloadable social assistant software; Providing search platforms to allow users to request and receive photos, videos, text, data, images, and electronic works; Providing search platforms to allow users to request and receive content, text, visual works, audio works, audiovisual works, literary works, data, files, documents, and electronic works: Non-downloadable software for facilitating and arranging for the financing and distribution of fundraising and donations; Nondownloadable software for online charitable fundraising services and financial donation services; Non-downloadable software for mapping services; Providing online non-downloadable computer software and hosting online facilities to enable users to access and download computer software; Non-downloadable software enabling development, assessment, testing, and maintenance of mobile software applications for portable computing devices, namely, mobile phones, smartphones, handheld computers and computer tablets; Non-downloadable software for sharing and displaying a user's location, planning activities with other users and making recommendations; Nondownloadable software for social and destination mapping; Non-downloadable software for finding content and content publishers, and for subscribing to content; Non-downloadable software for accessing, collecting, displaying, editing, linking, modifying, organizing, tagging, streaming, sharing, storing, transmitting, and otherwise providing electronic media, photographs, images, graphics, audio, videos, audio-visual content, data and information via the internet and communication networks; Non-downloadable e-commerce software to allow users to perform electronic business transactions via the internet; Non-downloadable location-aware compute'r software for searching, determining and sharing the location of goods, services and events of interest; Non-downloadable software applications for searching and identifying local and location-based points of interest, events, landmarks, employment opportunities, entertainment, cultural events, shopping and offers; Non-downloadable software applications for providing location-based weather information; Non-downloadable software applications for providing, linking to, or streaming news or current events information; Non-downloadable software for modifying photographs, images and audio, video, and audio-video content with photographic filters and virtual reality, mixed reality, and augmented reality (AR) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, and hyperlinks; Non-downloadable software for taking photographs and recording audio, audio-visual and video content; Non-downloadable software for uploading, downloading, archiving, enabling transmission of, and sharing images, audio-visual and video content and associated text and data; Non-downloadable software for streaming multimedia entertainment content; Non-downloadable software and applications for instant messaging, voice over Internet protocol (VOW), video conferencing, and audio conferencing; Non-downloadable software for use in designing, managing, measuring, analyzing, disseminating, and serving advertising of others; Non-

downloadable software for taking photographs and recording audio, audio-visual and video content; Provision of Internet search engine services; Rental of computer software that gives users the ability to upload, edit, and share images, videos and audio-visual content; Software as a service (SAAS) featuring computer software for accessing, browsing, and searching online databases, audio, video and multimedia content, games, and software applications, software application marketplaces; Software as a service (SAAS),featuring computer software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; Software as a service (SAAS) featuring computer software for connecting, operating, integrating, controlling, and managing networked consumer electronic devices, home climate devices and lighting products via wireless networks; Software as a service (SAAS) featuring computer software used for controlling stand-alone voice controlled information and personal assistant devices; Software as a service (SAAS) for use in designing, creating and analyzing data, metrics and reports in the areas of health, fitness, sleep, nutrition and wellness; Software as a service (SAAS) services featuring software for sending and receiving electronic messages, notifications and alerts; Non-downloadable software for sending and receiving electronic messages, graphics, images, audio and audio-visual content via the Internet and communication networks; Software as a service (SAAS) services featuring software for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; Software as a service (SAAS) services, namely, hosting software for use by others for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; Software as a service (SAAS) services, namely, providing a customized website and mobile portal for individuals featuring data analytics based on physiological metrics for purposes of health monitoring; Software as a service (SAAS) that enables users to manage employee accounts, schedule and track employee participation, and facilitate and manage corporate fitness and wellness programs; Software for electronic messaging; Technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; Technological services, namely, data warehousing services; Non-downloadable software for minting, creating, and issuing digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; Nondownloadable software for viewing and providing access to digital assets, digital tokens, cryptotokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; Non-downloadable software for distributing, trading, storing, sending, receiving, accepting, and transmitting digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, cryptocollectibles, cryptocurrencies, digital currencies and virtual currencies; Organization, management and governance of decentralized autonomous organizations (DAOs);Recording, management and tracking of ownership interests in decentralized autonomous organizations (DAOs);design and development of decentralized applications; Non-downloadable software for developing decentralized applications; Non-downloadable software for recording, managing, tracking, and transferring ownership interests in decentralized autonomous organizations; Non-downloadable software for management and governance of decentralized autonomous organizations; Nondownloadable software for participating and voting in decentralized autonomous organizations; Non-downloadable software for managing and validating transactions involving digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, cryptocollectibles, cryptocurrencies, digital currencies and virtual currencies in the name of **YUGA LABS, INC. of 1430 S. Dixie Hwy, Ste. 105 1075, Coral Gables, FL 33146-3108, United States.**

Address for service: **MacMillan’s Intellectual Property Attorneys Ltd  
2nd Floor, Allied Building Annex, Francis Rachel Street  
Victoria  
Mahe**

**KODAS**

Lodged: **25/05/2022.**

Application No: **288/2022** in Class **43** Restaurant services; Bar services; Hotel services in the name of **YUGA LABS, INC.**, of **1430 S. Dixie Hwy, Ste. 105 1075, Coral Gables, FL 33146-3108, United States.**

Application No: **290/2022** in Class **9** Software; Mobile application software; Computer hardware; Software for social networking and creating and interacting with online communities; Software for creating, managing and accessing groups within virtual

communities; Software development tools; Software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; Software for use as an application programming interface (API); Software for organizing events, searching for events, calendaring and managing events; Software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, interacting with, embedding, and sharing or otherwise providing electronic media, images, video, audio, audio-visual content, data, and information via the internet and communication networks; Software for finding content and content publishers, and for subscribing to content; Software for creating and managing social media profiles and user accounts; Interactive photo and video equipment, namely, kiosks for capturing, uploading, editing, printing and sharing digital images and video; Software for streaming multimedia entertainment content, audio-visual content, video content, and associated text and data Software for enabling transmission of images, audio, audio visual and video content and data; Software for modifying photographs, images and audio, video, and audio-visual content; Software for use in taking and editing photographs and recording and editing videos; Software for processing images, graphics, audio, video, and text; Software for collecting, managing, organizing, modifying, transmitting, synchronizing, and storing data and information; E-commerce software; E-commerce software to allow users to perform electronic business transactions via a global computer and communication networks; Software and mobile application software providing a virtual marketplace; Software for sending and receiving electronic messages, alerts, notifications and reminders; File sharing software; Messaging software; Search engine software; Software for use in creating, managing, measuring, and disseminating advertising of others; Advertisement server, namely, a computer server for storing advertisements and delivering advertisements to websites; Software for creating, sharing, disseminating and posting advertising; Software for geo-location based advertising and product and service promotion; Software that enables individuals, groups, companies, and brands to create and maintain an online presence and interact with online communities for marketing purposes; Downloadable virtual reality software; Downloadable augmented reality software; Downloadable mixed reality software; Virtual reality software for interactive entertainment and virtual reality gaming; Augmented reality software for interactive entertainment and augmented reality gaming; Software for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; Software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality and augmented reality experiences; Software for operating, configuring, and managing virtual reality headsets and controllers; Software for gesture recognition, object tracking, motion control, and content visualization; Software, firmware and hardware for use in visual, voice, audio, motion, eye and gesture tracking and recognition; Software for navigating a virtual reality and augmented reality environments; Software for enabling users to experience virtual reality and augmented reality visualization, manipulation, and immersion; Software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; Software for use in creating and designing virtual reality and augmented reality software; Application programming interface (API) for computer software for developing virtual reality and augmented reality experiences; Virtual reality game computer hardware; Augmented reality game computer hardware; Mixed reality game computer hardware; Virtual reality computer hardware; Augmented reality computer hardware; Mixed reality computer hardware; Motion tracking sensors for virtual reality, augmented reality and mixed reality technology; Virtual reality hardware, namely, headsets, glasses, and controllers for engaging in virtual reality experiences and playing virtual reality games; Augmented reality hardware, namely, headsets, glasses, and controllers for engaging in augmented reality experiences and playing augmented reality games; Wearable computing devices comprised primarily of software and display screens for connection to computers, tablet computers, mobile devices, and mobile phones in order to enable virtual reality and augmented reality world experiences; Hardware and software for operating sensor devices; Electronic sensor devices, cameras, projectors, and microphones for gesture, facial, and voice detection, capture and recognition; Hardware and software for detecting objects, user gestures

and commands; Game software; Software for game development; Gaming software development tools; Blockchain gaming software; Downloadable electronic game software in the nature of video games, computer games, interactive multimedia games, and virtual, augmented, and mixed reality games; Computer software for controlling the operation of audio and video devices; Video display software; Software for accessing and viewing text, images and electronic data relating to conferences in the field of software development; Software for converting natural language into machine-executable commands; Software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms; Application programming interface (API) for use in developing AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Software, namely, an interpretive interface for facilitating interaction between humans and machines; Artificial intelligence software, namely, machine learning software, visual perception software, speech or language recognition software, decision-making software, translation software, touch recognition software, conversational query software, software for converting natural language into machine-executable commands, and digital assistant software; Virtual assistant software that can perform tasks or services on behalf of a user that is activated by user input, location awareness, and online information; Software for providing consumer information; Software for providing electronic maps; Location-aware software for searching, determining, and sharing locations; Software for searching and identifying employment opportunities; Software for identifying and allowing users to contact government representatives; Software providing location-based weather information; Software providing, linking to, or streaming news or current events information; Parental control software; Computer software; Computer operating systems; Software for enabling electronic devices to share data and communicate with each other; Computer peripheral devices; Wearable peripherals for computers, tablet computers, mobile devices and mobile telephones; Digital media streaming devices; Headsets; headphones; Gaming headsets; Computer gaming peripherals; Video display hardware, namely, video drivers for video eyewear; Cameras; Batteries; Battery cases; Battery packs; Rechargeable electric battery devices, namely, rechargeable batteries and portable power supplies; Battery chargers; Rechargeable external battery packs for use with mobile electronic devices; Power charging and power management devices for mobile electronic devices; Charging stands for mobile electronic devices; External chargers for use with computers, tablet computers, mobile devices and mobile telephones; Wireless charging cases for use with computers, tablet computers, mobile devices and mobile telephones; Power adapters; Electrical adapters, cable, and connectors; Bags and cases specially adapted for mobile electronic devices; Protective covers and cases for mobile electronic devices; Cases for computers, smartphones, headphones, headsets and gaming devices; Holders, armbands, clips and carrying cases specially adapted for mobile electronic devices; Wall mounts for mounting mobile electronic devices; Stands for mobile electronic devices; Holders for mobile electronic devices; Remote controls for mobile electronic devices; Audio speakers; Electrical audio and speaker cables and connectors; Electronic cables parts and fittings; Electronic cables; Cables for optical signal transmission; Power cables and cable connectors; Microphones; Audio receivers; Audio transmitters; Head-mounted video display; Receivers of electronic signals; Video receivers; Wireless transmitters and receivers for reproduction of sound and signals; Electric sensors; Sensors for monitoring physical movements; SIM cards; Software for use in customer relationship management (CRM); Software for facilitating and arranging for the financing and distribution of fundraising and donations; Software for online charitable fundraising services and financial donation services; Software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, instant message and online social networking services; Telecommunications equipment for providing third party access to, and enabling the transmission of video, data and voice over, global communications networks, namely, mobile and access computer and mobile telephone terminals, base transceiver stations and wireless radio parts thereof, data transceivers, data repeaters, routers and switches, transmission circuits, integrated circuits, computer hardware, mobile cloud clients and servers, multiplexers, digital signal processors, radio frequency signal processors, mobile switching circuits, air traffic electrical controllers, mobility electrical controllers, access electrical controllers, remote port electrical controllers, radio ports, antennas, electronic radio components, software for telecommunications applications, and mobile core networks comprising data transceivers, wireless networks and gateways for

collection, transmission and management of data, voice and video; Communication software and communication computer hardware for providing access to the Internet; Telecommunications equipment; Radio receivers and transmitters; GPS receivers; Software to allow users to perform e-commerce transactions via the internet and communications networks; Communications software; Software that allows users to make payments and transfer funds; Software that enables online users to make payments and transfer funds across multiple websites and mobile applications; Electronic payment processing software; Software for processing electronic transactions; Computer software in the nature of a query engine; Software for facilitating machine learning; Software for building user interfaces; Downloadable electronic publications; Software for opinion polling; Software allowing users to post questions with answer options; Interactive photo and video equipment, namely, kiosks computer hardware for capturing, uploading, editing, printing and sharing digital images and video; Software for the synchronization of data between a remote station or device and a fixed or remote station or device; Voice command and recognition software, speech to text conversion software; Voice-enabled software applications for personal information management; Home automation and home device integration software; Wireless communication software for voice, audio, video, and data transmission; Software used for controlling stand-alone voice controlled information and personal assistant devices; Software for voice recognition for use in connection with the transmission of voice and data; Software for accessing, browsing, and searching online databases, audio, video, and multimedia content, games, and software applications, and software application marketplaces; Software for use to connect and control internet of things (iot) electronic devices; Computer application software for handheld wireless devices, namely, software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; Software for processing, reproducing, synchronizing, recording, organizing, downloading, uploading, transmitting, streaming, receiving, playing and viewing text, multimedia and data files; Software, for personalized, interactive television (TV) programming and for use in displaying and manipulating visual media, graphic images, text, photographs, illustrations, digital animation, video clips, film footage and audio data; Software in the nature of a mobile application for telecommunication services for providing transmission of voice, data, video, and media content via the internet and the worldwide web for computers or other portable consumer electronic devices; Software for searching television entertainment exploration guides; Software for searching, locating, compiling, indexing, correlating, navigating, obtaining, downloading, receiving, encoding, decoding, playing, storing and organizing text, data, images, graphics, audio and video on a global computer network; Software to enhance mobile access to the internet via computers, mobile computers, and mobile communications devices; Software for formatting and converting content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works into a format compatible with portable electronic devices and computers; Software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; Electronic communication equipment and instruments, namely, mobile and wearable digital electronic devices for sending and receiving of text, data, audio, image, and video files; Telecommunications apparatus and instruments, namely, speakers and microphones sold as component features of computers, mobile and wearable digital electronic devices for the sending and receiving of telephone calls, text messages, electronic mail, and other digital data, and for use in providing access to the internet; Electronic notepads; Electronic personal organizers; Electronic voice recording and voice recognition apparatus; Portable digital electronic devices for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, and digital files; Wearable computer hardware; Wearable digital electronic devices comprised primarily of software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; Software for accessing, browsing and searching online databases; Software for accessing, monitoring, searching, displaying, reading, recommending, sharing, organizing, and annotating news, sports, weather, commentary, and other information, content from periodicals, blogs, and websites, and other text, data, graphics, images, audio,

video, and multimedia content; Software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and multimedia content, electronic publications, and electronic games; Apparatus for recording, transmission or reproduction of sound or images; Apparatus for transmission of communication; Apparatus for data storage, namely, mobile and wearable digital electronic devices for the storage of text, data, audio, image, and video files; Blockchain; Blockchain software; Cryptocurrency; Cryptography software; Software for cryptocurrency mining; Software for cryptocurrency farming; Software in the field of blockchain; Software for use with cryptocurrency; Software for use with digital currency; Software for use with virtual currency; Digital currency wallet and storage services software; Software for use as a cryptocurrency wallet; Cryptocurrency hardware wallet; Downloadable computer software for use as a digital wallet; Downloadable computer software for use as an electronic wallet; Computer programs and computer application software for electronic storage of data; Software for providing a digital wallet; Software for digital currency payment and exchange transactions; Software for use in managing portfolios of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software for use as an electronic wallet; Software for creating and managing electronic wallets Software for electronic wallet services; Downloadable e-wallets; Distributed ledger software; Distributed ledger platform software; Software for use with distributed ledger technology; Software that facilitates the ability of users to view, analyze, record, store, monitor, manage, trade and exchange digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software for sending, receiving, accepting, buying, selling, storing, transmitting, trading and exchanging digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software for executing and recording financial transactions; Distributed ledger software for use in processing financial transactions; Software for creating accounts and maintaining and managing information about financial transactions on distributed ledgers and peer to peer payment networks; Software for use in financial trading; Software for use in financial exchange; Software for accessing financial information and market data and trends; Software for providing authentication of parties to a financial transaction; Software for maintaining ledgers for financial transactions; Software for the management of cryptographic security of electronic transmissions across computer networks; Software for encrypting and enabling secure transmission of digital information over the Internet; Software for allowing users to calculate parameters related to financial transactions; Software for electronic funds transfer; Software for currency conversion; Software for the collection and distribution of data; Software for payment transactions; Software for connecting computers to local databases and global computer networks; Software for creating searchable databases of information and data; Software for managing and validating transactions involving digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; Software for creating, executing, and managing smart contracts; Software for managing payment and exchange transactions; Software and hardware for use as a digital currency wallet, virtual currency wallet, digital asset wallet, crypto token wallet, and utility wallet; Software for creating a decentralized and open source digital currency, virtual currency, cryptocurrency, digitized assets, digital token for use in blockchainbased transactions; Software for decentralized finance; Software for developing decentralized applications; Software for recording, managing, tracking, and transferring ownership interests in decentralized autonomous organizations; Software for management and governance of decentralized autonomous organizations; Software for participating and voting in decentralized autonomous organizations; Software for arranging and conducting auctions; Software for voting; Computer application software for blockchain-based platforms, namely, software for digital exchanges for virtual items; Software for creating, selling and managing blockchain-based tokens or appcoins; Software for use in an electronic financial platform; Software for processing electronic payments and for transferring funds to and from others; Blockchain platform software; Software for managing and verifying transactions on a blockchain; Software for use in the management and implementation of digital currency, virtual currency,

cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token transactions; Software for creating and managing a blockchain platform for use in managing digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token accounts; Software for managing crypto currency and digital currency accounts; Software for use in payments, purchases, and investments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software for use in managing the conversion of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens into hard currency; Software for developing, deploying, and managing software applications, and integrating software applications for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token accounts; Software and hardware for use in electronically exchanging currency for digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software for use as an application programming interface (API) for the development, testing, and integration of blockchain software applications; Computer hardware for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, and digitized asset mining; Security token hardware; Electronic currency converters; Software, namely, electronic financial platform that accommodates multiple types of payment and transactions in an integrated mobile phone, personal digital assistant (PDA), and web-based environment; Software for creating tokens to be used to pay for products and services, and that may be traded or exchanged for cash value; Software for managing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized asset, digital token, crypto token and utility token payments, money transfers, and commodity transfers; Software for use as an application program interface (API) software for use in computer hardware device identification; Software for use in authenticating user access to computers and computer networks; Software for use in facilitating secure transactions; Software for use in accessing, reading, tracking, and using blockchain technology; Software and hardware for managing identity information, access rights to information resources and applications and authentication functionality; Software for network identification verification, authentication and management services for security purposes; Downloadable authentication software for controlling access to and communications with computers and computer networks; Magnetically encoded credit cards and payment cards; Encryption devices; Security tokens; Software for use as a security token; Software used in issuing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Crypto tokens and utility tokens; Software used in auditing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Ad server, namely, a computer server for storing advertisements and delivering advertisements to websites; Altimeters; Application programming interface (API) for computer software for developing and creating virtual reality, augmented reality and mixed reality experiences; Application programming interface (API) for computer software which facilitates online services for social networking and for data retrieval, upload, download, access and management; Application programming interface (API) for software which facilitates online services for social networking and for data retrieval, upload, download, access and management; Application programming interface (API) for use in building software applications; Augmented reality glasses; Augmented reality headsets; Augmented reality software; Augmented reality software for interactive entertainment; Augmented reality software for navigating an augmented reality environment; Augmented reality software for object tracking, motion control and content visualization; Augmented reality software for operating augmented reality headsets; Augmented reality software for users to experience augmented reality visualization, manipulation and immersion; Cables, namely, electronic cables and connection cables; Cases, straps, wrist and arm bands for electronic monitoring devices; Computer application software for smartphones and mobile devices in the fields of fitness and exercise featuring personal training services, coaching, workouts and fitness assessments; Computer application software for use in connection with configuring and controlling wearable computer hardware and wearable computer peripherals; Computer hardware for displaying data and video; Computer hardware for use in measuring heart

rhythm; Computer hardware for use in taking, electrocardiograms; Computer operating system software; Computer peripheral equipment for use with smartwatches, namely, smartwatch bands and smartwatch straps; Computer peripherals for displaying data and video; Computer peripherals for mobile devices for displaying data and video, namely, peripherals worn on the head for mobile devices for displaying data and video; Computer peripherals for mobile devices for remotely accessing and transmitting data, namely, peripherals worn on the head for mobile devices for remotely accessing and transmitting data; Computer peripherals for mobile devices, namely, electronic devices, monitors, sensors, and displays for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, weather information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data; Computer peripherals for remotely accessing and transmitting data; Computer software and computer application software for mobile phones and personal digital devices that provides a fitness assessment and fitness score by comparing previous athletic performances and fitness levels with future athletic performances and fitness levels, and provides advice and customized workouts for improving in specific areas of a particular sport or fitness activity; Computer software and computer application software for mobile phones and personal digital devices that monitor, track, and compare sport activity and fitness level; Computer software and computer application software for mobile phones and personal digital devices that evaluates a user's fitness level and athleticism, and provides fitness scores; Computer software and computer application software for mobile phones and personal digital devices that provides tips, coaching, and personalized workouts, to improve the user's fitness score; Computer software and computer application software for mobile phones and personal digital devices for communicating with gaming consoles, personal computers, personal digital devices, and mobile phones, regarding time, pace, speed, steps taken, athletic skill, calories burned, agility, motion, balance, coordination, and flexibility; Computer software and computer application software for mobile phones and personal digital devices for monitoring, uploading, and downloading data regarding sport activity, fitness training, and fitness level to the internet and other computer and electronic communication networks; Computer software and computer application software that detects user's movements during physical activity, fitness sessions, workouts, to provide personalized fitness scores and assessments; Computer software and firmware, namely, operating system programs, database synchronization software, and data synchronization programs; Computer software development tools; Computer software for accessing, browsing and searching online databases; Computer software for accessing, monitoring, searching, displaying, reading, recommending, sharing, organizing, and annotating news, sports, weather, commentary, and other information, content from periodicals, blogs, and websites, and other text, data, graphics, images, audio, video, and multimedia content; Computer software for communicating with gaming consoles regarding time, pace, speed, steps taken, athletic skill, calories burned, agility, motion, balance, coordination, and flexibility; Computer software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and multimedia content, and electronic publications, and electronic games; Computer software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer the internet and communication networks; Computer software for creating, managing, and interacting with an online community; Computer software for fitness and weight management; Computer software for fitness, fitness assessments, and sport activities; Computer software for integrating electronic data with real world environments for the purposes of entertainment, communicating, and social networking; Computer software for managing information regarding tracking, compliance and motivation with a health and fitness program; Computer software for modifying and enabling transmission of images, audio, audio visual and video content and data; Computer software for modifying photographs, images and audio, video, and audio-visual content with photographic filters and virtual reality, mixed reality and augmented reality (AR) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; Computer software for

monitoring, processing, displaying, storing and transmitting data relating to a user's physical activity; Computer software for processing images, graphics, audio, video, and text; Computer software for sending and receiving electronic messages, graphics, images, audio and audio visual content via computer the internet and communication networks; Computer software for sending and receiving electronic messages, alerts, notifications and reminders; Computer software for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, weather information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data; Computer software for setting up, configuring, operating and controlling mobile devices, wearable devices, mobile phones, computers, and computer peripherals; Computer software for social networking and interacting with online communities; Computer software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; Computer software for the redirection of messages, Internet e-mail, and/or other data to one or more electronic wearable wireless communication devices from a data store on or associated with a personal computer or a server; Computer software for tracking and managing information regarding health, fitness, and wellness programs; Computer software for use as an application programming interface (API); Computer software for use in creating, managing, measuring, and disseminating advertising of others; Computer software for viewing digital images and photographs provided as updates for or in combination with head-mounted display screen devices; Computer software for wireless content, data and information delivery; Computer software for wireless data communication for receiving, processing, transmitting and displaying information relating to fitness, body fat, body mass index; Computer software in the field of health, fitness, exercise, and wellness for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data and for tracking and managing information regarding health, fitness, exercise, and wellness programs; Computer software that detects user's movements during physical activity, fitness sessions, workouts, to provide personalized fitness scores and assessments; Computer software that evaluates a user's fitness level and athleticism, and provides fitness scores; Computer software that monitor, track, and compare sport activity and fitness level; Computer software that provides a fitness assessment and fitness score by comparing previous athletic performances and fitness levels with future athletic performances and fitness levels, and provides advice and customized workouts for improving in specific areas of a particular sport or fitness activity; Computer software that provides tips, coaching, and personalized workouts, to improve the user's fitness score; Computer software to enable accessing, displaying, editing, linking, sharing and otherwise providing electronic media and information via the internet and communications networks; Computer software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; Computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the three-dimensional rendering of graphics, still images and moving pictures provided as updates for or in combination with head-mounted display screen devices; Software for creating, managing and accessing groups within virtual communities; Computer software, namely, an application providing social networking functionalities; Computer software, namely, an interpretive interface for facilitating interaction between humans and machines; Computer software, namely, software development tools for the creation, debugging, and deployment of software applications for smart glasses, near eye displays, head mounted displays, and smartphones; Smartwatches; Connection cables; Eyewear; Sunglasses; Digital video eyewear; Digital video eyewear, head mounted video displays, namely, micro screens and associated optics, virtual reality headsets, associated electronics, namely, connection cables and adaptors, software and firmware for displaying video games, electronic media and images; Downloadable computer application software for mobile phones, smartphones, computers, tablets, smart glasses, digital video eyewear, wearable digital electronic devices, namely, glasses, goggles, and headsets, head mounted displays, near eye display systems, communications networks, cloud computing services, and computer systems for communicating between the devices, networks and

services; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for displaying icons, determining and responding to user selection of icons, controlling connections to and communication with other devices, networks, and systems, operating a camera to record and display images and audio visual files, organizing digital image and audio visual files, controlling microphones, controlling sound level of built-in speakers, transferring computer files between the smart glasses, near eye display systems, head mounted displays and other devices, networks, and systems, controlling user notifications, controlling a touchpad, controlling and obtaining data from sensors in the smart glasses, near eye display systems, and head mounted displays, including accelerometers, barometric, temperature, tilt, tip, and yawl sensors, head orientation sensors, and GPS receivers, controlling the speed of the CPU, and sensing and displaying the battery charge level, and displaying, capturing, recording, and streaming data, images, and audio visual content in standard reality, augmented reality, and mixed reality environments; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for the generation and display of standard reality, augmented reality, mixed reality content; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for communication with other smart glasses, near eye display systems, and head mounted displays; Downloadable computer software for enabling capture, storage, and transmission of photographs, videos, data, and information with a user's biometric, health, and other performance data overlaid and integrated into the recording; Downloadable computer software for viewing and interacting with a feed of images, audio, audio-visual and video content and associated text and data; Downloadable computer software, namely, mobile application for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; Electric cables; Electrical adapters; Electronic monitoring devices incorporating indicators that light up and change color based on wearer's cumulative activity level; Electronic monitoring devices incorporating microprocessors, digital display, and accelerometers, for detecting, storing, reporting, monitoring, uploading and downloading sport, fitness training, and activity data to the internet, and communication with gaming consoles and personal computers, regarding time, pace, speed, steps taken, athletic skill, calories burned, heart and body rate, global positioning, direction, distance, altitude, navigational and weather information; Electronic navigational instruments and apparatus; Fitness and exercise sensors, monitors, and displays for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, temperature, and navigational information, to be worn during exercise and for sports activities; Gesture recognition software; Glasses with the function of wireless communication; Global positioning system (GPS) devices; Goggles for enabling virtual reality, augmented reality and mixed reality world experiences; Hardware and software to view virtual images in creating virtual, augmented and mixed reality; Head mounted video display; Head-mounted display screen devices and their component parts, namely, video display cards; Headsets for use with computers; interactive entertainment software; interface electronics, namely, video driver interface circuits for digital video eyewear; Location-aware computer software, downloadable computer software and mobile application software for searching, determining and sharing locations; Loudspeakers; Messaging software; Microdisplays, namely, head mounted video displays and near eye video displays; Mixed reality computer hardware; Mixed reality glasses; Mixed reality headsets; Mixed reality software; Mixed reality software for interactive entertainment; Mixed reality software for navigating a mixed reality environment; Mixed reality software for object tracking, motion control and content visualization; Mixed reality software for operating mixed reality headsets; Mixed reality software for users to experience mixed reality visualization, manipulation and immersion; Mobile application software for creating personalized fitness training programs; Motion tracking sensors for augmented reality technology; Motion tracking sensors for mixed reality technology; Motion tracking sensors for virtual reality technology; Multifunctional electronic devices for displaying, measuring, and uploading to the Internet information including time, date, body and heart rates, global positioning, direction, distance, altitude, speed, steps taken, calories burned, navigational information, weather information, the temperature, wind speed, and the declination of body and heart rates, altitude and speed; Multifunctional electronic devices for displaying, measuring, and uploading to the Internet information including time, date, heart rate, global

positioning, direction, distance, altitude, speed, steps taken, calories burned, navigational information, changes in heart rate, activity level, hours slept, quality of sleep, and silent wake alarm; Near eye display optics, namely, video display screens for mounting near a user's eyes and lenses for displaying images to a user; Near eye display systems comprised of GPS sensors, accelerometers, magnetometers, directional compasses, environment temperature sensors, and electronic tip and tilt orientation sensors; Near eye display systems comprising computer hardware, electronic display interfaces, and software for the generation and display of virtual reality and mixed reality content; Near eye display systems comprising computer hardware, electronic display interfaces, and software specifically adapted for goggles; Near eye display systems comprising eyewear and software for the generation and display of standard reality, augmented reality, and mixed reality content; Near eye displays; Network communication apparatus, namely, mobile and wearable digital electronic devices for the sending and receiving of text, data, audio, image, and video files across networks; Pedometers; Peripherals for mobile devices, namely, pedometers and altimeters; Personal assistant software; Personal digital assistants; Personal electronic devices used to track fitness goals and statistics; Personal fitness trackers; Personal video display devices in the nature of wearable displays for viewing digital content including virtual reality, augmented reality and mixed reality content; Personal video display screens; Portable, handheld, and personal digital electronic devices for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, and digital files; Remote control apparatus for wearable computer hardware and smartwatches; Sensors for scientific use to be worn by a human to gather human biometric data, mobile and wearable digital electronic devices for recording, organizing, transmitting, manipulating, and reviewing text, data, audio, image and video files; Smart glasses; Smart glasses with wired and wireless audio capability; Smartwatch bands; Smartwatch straps; Smartwatches; Smart jewelry; Social assistant software; Software and firmware for controlling, configuring and managing controllers; Software and firmware for displaying video games and electronic media on display screen devices provided as updates for or in combination with head-mounted display screen devices; Software and firmware for operating system programs; Software and firmware for video drivers and video processing provided as updates for or in combination with head-mounted display screen devices; Software and firmware for enabling electronic devices to share data and communicate with each other; Software driver programs for electronic devices for enabling computer hardware and electronic devices to communicate with each other; Software for advertisers to communicate and interact with online communities; Software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; Software for communicating by wireless local area networks, wireless technologies, and other communication protocols between near-eye display systems and network devices, namely, mobile phones, smart phones, computers, tablets, and other computer systems; Software for converting natural language into machine-executable commands; Software for creating and managing social media profiles and user accounts; Software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer and communication networks; Software for creating, managing and accessing groups within virtual communities; Software for creating, managing, and interacting with an online community; Software for facilitating and arranging for the financing and distribution of fundraising and donations; Software for generating images to be displayed in near-eye display system; Software for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; Software for modifying and enabling transmission of images, audio, audio visual and video content and data; Software for online charitable fundraising services and financial donation services; Software for ordering and/or purchasing goods and services; Software for organizing, searching for and managing events; Software for planning activities with other users, making recommendations; Software for processing images, graphics, audio, video, and text; Software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; Software for smart phones and other computer systems to generate data, images, and audio for display in near-eye display systems and for transmitting such data, images, audio to near-

eye display systems; Software for smart phones and other computer systems to receive data from near-eye display systems; Software for social and destination mapping; Software for social networking; Software for streaming multimedia entertainment content; Software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; Software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented, mixed and virtual reality experiences; Software for use as an application programming interface (API); Software for use in creating and designing virtual reality, augmented reality and mixed reality software; Software for wireless content, data and information delivery; Software in the nature of a mobile application; Software that enables individuals, groups, companies, and brands to create and maintain an online presence for marketing purposes; Software, namely, an interpretive interface for facilitating interaction between humans and machines; Telecommunications apparatus and instruments, namely, speakers and microphones sold as component features of computers, mobile and wearable digital electronic devices for the sending and receiving of telephone calls, text messages, electronic mail, and other digital data, and for use in providing access to the internet; Virtual reality glasses; Virtual reality headsets; Virtual reality software; Virtual reality software for interactive entertainment; Virtual reality software for navigating a virtual reality environment; Virtual reality software for object tracking, motion control and content visualization; Virtual reality software for operating virtual reality headsets; Virtual reality software for users to experience virtual reality visualization, manipulation and immersion; Virtual, augmented, and mixed reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual, augmented, and mixed reality experiences; Watches, bracelets, and wrist bands that communicate data to personal digital assistants, smart phones, and personal computers through Internet websites and other computer and electronic communication networks; Waterproof near eye display systems comprising computer hardware, electronic display interfaces, and software for the generation and display of virtual reality and mixed reality content; Wearable activity trackers; Wearable computer peripherals; Wearable computing devices comprised primarily of software and display screens for connection to computers, tablet computers, mobile devices, and mobile phones in order to enable virtual reality, augmented reality and mixed reality world experiences; Wearable digital electronic devices comprised primarily of software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; Wearable digital electronic devices, namely, glasses, goggles, and headsets; Wearable electronic devices, namely, watches, bracelets, and wristbands that are comprised of software that communicates data to personal digital assistants, smart phones, and personal computers through Internet websites and other computer and electronic communication networks; Wearable peripherals for computers, tablet computers, mobile devices and mobile telephones, namely, configurable head-mounted displays; Wireless computer peripherals; Light emitting diode (LED) signs; Neon signs; Non-fungible token (NFT) multimedia files; Non-fungible token (NFT) music files; Non-fungible token (NFT) image files; Non-fungible token (NFT) video files; Non-fungible token (NFT) text files; Non-fungible token (NFT) audio files; Image, music, audio, video and multimedia files authenticated by non-fungible tokens (NFTs); Digital images, audio, video and multimedia files; Computer graphics; Software for creating NFTs; Software for minting, creating, and issuing digital assets, digital tokens, cryptotokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; Software for viewing and providing access to digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; Software for distributing, trading, storing, sending, receiving, accepting, and transmitting digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies in the name of **YUGA LABS, INC. of 1430 S. Dixie Hwy, Ste. 105 1075, Coral Gables, FL 33146-3108, United States.**

Application No: **300/2022** in Class **35** Advertising services; Advertising via electronic media; Dissemination of advertising for others via a global computer network; Business and advertising services, namely, advertising services for tracking advertising performance, for managing, distributing and serving advertising, for analyzing advertising data, for reporting advertising data, and for optimizing advertising performance; Advertising services, namely, advertising campaign management, targeting, implementation and optimization services; Preparation and realization of media and advertising plans and concepts; Design of advertising materials for others; Advertising services, namely, media planning and media buying for others, brand evaluation and brand positioning services for others, and advertising procurement services for others; Ad serving, namely, placing advertisements on websites for others; Advertising, marketing and promoting the goods and services of others by means of providing photo and video equipment at special events; Organizing exhibitions and events in the field of software and hardware development for commercial or advertising purposes; Advertising services, namely, providing classified advertising space via the internet and other communication networks; Compiling of data in online computer databases and online searchable databases in the field of classifieds; Promoting the goods and services of others via computer and communication networks; Promoting the goods and services of others by means of distributing video advertising on via the internet and other communications networks; Providing promotional events via live streaming video; Marketing and promotion services; Consulting services in the fields of advertising and marketing; Business assistance and consulting services; Business consultation regarding marketing activities; Brand strategy consulting services; Business consultation in the field of telecommunications; Business management consulting services to enable business entities, non-governmental organizations and non-profit organizations to develop, organize, and administer programs to offer greater access to global communications networks; Business networking services; Employment consultancy and recruiting services; Promoting sales for others by facilitating pre-paid gift card services, namely, issuing gift card certificates that may be redeemed for goods or services; Advertising services for promoting public awareness about charitable, philanthropic, volunteer, public and community service and humanitarian activities; Providing contest and incentive award programs for marketing and advertising purposes to recognize, reward and encourage individuals and groups which engage in self-improvement, self-fulfillment, charitable, philanthropic, volunteer, public and community service and humanitarian activities and sharing of creative work product; Business consultancy services for professionals and businesses in the field of mobile software application development; Organizing, promoting, arranging and conducting special events, exhibitions, and tradeshow for commercial, promotional or advertising purposes; Organizing and conducting events, exhibitions, expositions and conferences for commercial purposes in the interactive entertainment, virtual reality, consumer electronics and video game entertainment industries; Retail services; Online retail store services featuring virtual reality and augmented reality hardware and software; Online retail store services featuring virtual reality content and digital media, namely, pre-recorded music, video, images, text, audiovisual works and virtual and augmented reality game software; Providing an online marketplace; Providing online marketplaces for sellers of goods and/or services; Providing online facilities for connecting

buyers with sellers; Facilitating the exchange and sale of products and services via computer and communication networks; Business intermediary services in the nature of facilitating the exchange and sale of services and products of third parties via computer and communication networks; Connecting buyers and sellers via an online network environment; Promotional services, namely, providing electronic catalog services; Providing telephone directory information via global communications networks; Business assistance services, namely, customer relationship management; Providing commercial information, namely, user comments concerning business organizations, service providers, and other resources; Marketing research, namely, advertising campaign and consumer preferences research and analysis; Market research services; Provision of market research and information services; Business information management, namely, reporting of business information and business analytics in the fields of advertising and marketing; Business management; Business administration, office functions; Compiling online business directories featuring the businesses, products and services of others; Promoting the public interest and awareness of issues involving access to the internet for the global population; Association services, namely, promoting the adoption, acceptance and development of open source computer technologies; Organizing business networking events in the field of open source software: Promoting voluntary common industry standards for software development and execution; Arranging and conducting business conferences; Arranging and conducting business conferences in the field of programming language development and use; Conducting business investigations in the field of social media; Consulting services in the field of evaluating social media content; Consulting services in the field of social media policies and regulations; Marketing services; Promotion services; Business and advertising services; Market intelligence services; Providing a website featuring an online marketplace for selling and trading virtual goods with other users; Providing an online marketplace for digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; Providing an online marketplace for buyers and sellers of digital goods authenticated by non-fungible tokens (NFTs); Providing online marketplace to rent, borrow, and trade digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; Providing a virtual marketplace for digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies ; Providing a virtual marketplace for buyers and sellers of digital goods authenticated by non-fungible tokens (NFTs); Providing a virtual marketplace to rent, borrow, and trade non-fungible tokens (NFTs); Auction services; Voting services; Online trading services; Arranging and conducting special events for business purposes; Blockchain as a service, namely, business advice and information in the field of blockchain technology; Provision of electronic reminders and notifications; Advertising and information distribution services, namely, providing classified advertising space via the internet and communications networks; Advertising services, namely, targeting and optimization of online advertising; Arranging and conducting special events for commercial, promotional or advertising purposes; Association services that promote the interests of professionals and businesses in the field of mobile software application development; Brand consulting; Business and advertising services, namely, advertising services for tracking advertising performance, for managing, distributing and serving advertising, for analyzing advertising data, for reporting advertising data, and for optimizing advertising performance; Business and advertising services, namely, media planning and media buying for others; Procurement services for others, namely, purchasing goods and service for other businesses; Business networking; Charitable services, namely, promoting public awareness about charitable, philanthropic, volunteer, public and community service and humanitarian activities; Consulting services in the fields of advertising and marketing, namely, customizing advertising and marketing efforts of others; Dissemination of advertising for others via the internet and communication networks; Employment and recruiting services; Facilitating the exchange and sale of services and products of third parties via computer and communication networks; Marketing, advertising and promotion services, namely, providing information regarding discounts, coupons, rebates, vouchers, links to retail websites of others, and special offers for the goods and services of others; Online advertising and promoting the goods and services of others via the internet; Online retail store services featuring virtual reality, mixed reality and augmented reality headsets, games, content and digital media; Online retail store services in relation to

electronic wearable fitness devices, personal weighing scales, wearable activity trackers, fitness and sports apparel, and accessories for the aforesaid goods; Organizing, promoting and conducting exhibitions, tradeshows and events for business purposes; Promoting the goods and services of others by means of distributing video advertising on the internet and communication networks; Promoting the goods and services of others via the internet and communication networks; Providing online business directories featuring the businesses, products and services of others; Providing online facilities for connecting sellers with buyers; Providing online facilities for live streaming video of promotional events; Providing online facilities for connecting sellers with buyers; Retail and online retail services for software, electronic devices and footwear incorporating sensors that allow consumers to engage in virtual athletic competitions and individual and group fitness classes; Retail and online retail store services that allow consumers to engage in fitness coaching, virtual athletic competitions, and individual and group fitness classes; Retail store services in relation to electronic wearable fitness devices, personal weighing scales, wearable activity trackers, fitness and sports apparel, and accessories for the aforesaid goods in the name of **YUGA LABS, INC. of 1430 S. Scientific and technological services and research and design relating thereto; Industrial analysis and research services; Computer hardware and software design, development, installation and maintenance; Research services and consulting in the field of information and telecommunications technology; Design of telecommunications apparatus and equipment; Consulting services in the field of design, selection, implementation and use of computer hardware and software systems for others; Providing online software platform featuring' technology that enables online users to make payments and transfer funds; Providing online software platform featuring technology that enables online users to make payments and funds transfers across multiple websites and mobile applications; Computer services, namely, application services provider featuring application programming interface (API) software to allow users to perform e-commerce transactions via the internet and communications networks; Software as a services (SAAS) services featuring software for facilitating e-commerce transactions via the internet and communications networks; Application service provider featuring an application programming interface (API) software to allow users to perform e-commerce transactions via the internet and communications networks; Non-downloadable software for converting natural language into machine-executable commands; Analyzing and evaluating social media content; Developing standards for third-party social media content; Conducting proceedings relating to standards concerning third-party social media content; Content moderation and supervision; Web publishing, namely, publishing of decisions concerning third-party social media content; Nondownloadable computer software in the nature of a query engine; Non-downloadable computer software for use in performing queries on large amounts of data; Non-downloadable computer software in the nature of a query engine functioning across business intelligence (BI) tools; Nondownloadable artificial intelligence software for facilitating machine learning software; Application service provider (ASP) featuring software to enable or facilitate machine learning software; Nondownloadable software for machine learning; Non-downloadable software tools for software development; Non-downloadable software for building user interfaces; Application service provider (ASP) featuring software to enable or facilitate user interface building software; Electronic data storage; Electronic storage of photographs; Interactive hosting services which allow the users to publish and share their own content and images online; Non-downloadable software for database management; Computer network services; Non-downloadable software for opinion polling; Nondownloadable software allowing users to post questions with answer options; Platform as a service (PAAS) services featuring technology that allows businesses, organizations and individuals to create and manage their online presences and to communicate with online users information and messages regarding their activities, products and services and to engage in business and social networking; Non-downloadable software featuring technology that allows users to manage their business networking accounts; Non-downloadable software for voice command and recognition software, speech to text conversion software, voice-enabled software applications for personal information management; Platform as a service (PAAS) featuring computer software platforms for personal assistant software; Platform as a service (PAAS) featuring computer software platforms for home automation and home device integration software; Platform as a service (PAAS) featuring computer software platforms for wireless communication software for voice, audio, video, and data transmission; Software as a service (SAAS) featuring computer software for personal information management; Non-downloadable software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; Software as a service (SAAS) featuring computer software for use to connect and control internet of things (iot) electronic devices; Software as a service (SAAS) featuring computer software for others to use for the development of

software to manage, connect, and operate internet of things (iot) electronic devices; Software as a service (SAAS) featuring computer software for use as an application programming interface (API); Design, development and maintenance of proprietary computer software for others in the field of natural language, speech, language, and voice recognition excluding post-production of picture and sound recordings; Technical support and consultancy services for developing applications; Information, advisory and consultancy services relating to voice command and recognition software, speech to text conversion software, and voice-enabled software applications, home automation, and internet-of-things software; Providing information, news, and commentary in the field of science and technology, home decorating, weather, and graphic, interior, product, and fashion design; Technological services, namely, data warehousing services; Application service provider (asp), namely, hosting computer software applications through the internet of others; Consultation services relating to programming of multimedia application management, computer programming, hardware, software, and computer system design and specification; Software as a service (SAAS) services, namely, hosting software for use by others for use in providing an online database featuring a wide range of general interest information via the internet; Non-downloadable mobile communications device software for enhancing mobile access to the internet via computers, mobile computers, and mobile communications devices; Technical support, namely, troubleshooting of computer hardware and software problems and mobile computer and mobile communications device hardware and software problems; Computer, mobile computer, and mobile communication device hardware and software consultation and design; Non-downloadable computer software that enables users to access and download computer software; Non-downloadable software and applications for accessing streaming audio and video files, games, social networks, text files, and multimedia files; Application service provider (ASP) featuring application programming interface (API) software for the streaming, storage, and sharing of video games, content, data and information; Computer software development in the field of mobile applications; Providing technical support services, namely, troubleshooting of computer software problems regarding the usage of communications equipment; Computer services; Information technology (IT) services; Application service provider (ASP) services, namely, hosting computer software applications of others; Application service provider (ASP) services, featuring e-commerce software for use as a payment gateway that authorizes processing of credit cards or direct payments for merchants; Application service provider (ASP) services, namely, providing, hosting, managing, developing, and maintaining applications, software, websites and databases in the fields of information technology, blockchain, virtual currency, digital currency, cryptocurrency, and digital assets; Application service provider (ASP) services featuring software for use in virtual currency, digital currency, cryptocurrency, and digital asset exchange and transactions; Application service provider (ASP) featuring software to enable or facilitate the creating, editing, uploading, downloading, accessing, viewing, posting, displaying, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via the internet and communications networks; Application service provider services featuring application programming interface (API) software to allow users to perform electronic business transactions via a global computer network; Application service provider (ASP) featuring software to enable or facilitate purchasing goods and services; Software as a service (SAAS) services; Platform as a service (PAAS) services; Non-downloadable cloud computing software; Providing distributed ledger technology; Non-downloadable distributed ledger software ;Non-downloadable cryptography software; Non-downloadable software for use with cryptocurrency; Non-downloadable software for use with digital currency; Non-downloadable software for use with virtual currency; Non-downloadable software for cryptocurrency mining; Non-downloadable software for cryptocurrency farming; Non-downloadable software that facilitates the ability of users to view, analyze, record, store, monitor, manage, trade and exchange digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Non-downloadable software for sending, receiving, accepting, buying, selling, storing, transmitting, trading and exchanging digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Non-downloadable software for implementing, executing, and recording financial transactions, Non-downloadable software for creating accounts and

maintaining and managing information about financial transactions on distributed public ledgers and peer to peer payment networks; Non-downloadable software for managing and verifying transactions on a blockchain; Non-downloadable software for processing electronic payments and for transferring funds to and from others; Providing electronic financial platform software; Providing software for use as an application programming interface (API) for the development, testing, and integration of blockchain software applications; Non-downloadable software for transfers of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens between parties; Non-downloadable software for use in financial trading; Non-downloadable software for use in financial exchange; Non-downloadable software for use in accessing financial information and market data and trends; Non-downloadable software for the management of cryptographic security of electronic transmissions across computer networks; Non-downloadable software for use with virtual currency; Providing software for use with digital currency; Providing software for use with cryptocurrency; Non-downloadable software for use with digital currency wallet and storage services; Providing non-downloadable software for use as a cryptocurrency wallet; Providing non-downloadable software for use as an electronic wallet; Providing non-downloadable software for use as a digital wallet; Non-downloadable software for creating and managing electronic wallets; Electronic data storage services; Non-downloadable software for electronic funds transfer; Non-downloadable software for currency conversion; Nondownloadable software for the collection and distribution of data; Non-downloadable software for payment and exchange transactions; Non-downloadable software for connecting computers to local databases and global computer networks; Non-downloadable software for creating searchable databases of information and data; Non-downloadable software for managing and validating digital currency, virtual currency, cryptocurrency, digital asset, blockchain asset, digitized asset, digital token, crypto token and utility token transactions; Non-downloadable software for creating, executing, and managing smart contracts; Development and implementation of smart contracts; Non-downloadable software for managing payment and exchange transactions; Non-downloadable software for electronically exchanging currency for digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Non-downloadable software for use in enabling the electronic transfer of funds to and from others; Non-downloadable software for decentralized finance; Non-downloadable software for creating a decentralized and open source digital currency for use in blockchain-based transactions; Non-downloadable software for creating a decentralized and open source virtual currency for use in blockchain-based transactions; Non-downloadable software for creating a decentralized and open source cryptocurrency for use in blockchain-based transactions; Non-downloadable software for encrypting and enabling secure transmission of digital information over the Internet, as well as over other modes of communication between computing devices; Distributed ledger platform software for use in processing financial transactions; Non-downloadable software for maintaining ledgers for financial transactions; Non-downloadable software for electronic funds transfer and currency conversion; Providing a web portal featuring blogs and non-downloadable publications in the nature of articles, columns, and informational guides in the fields of virtual currencies, digital and blockchain assets and market and trading trends; Non-downloadable electronic publications; Nondownloadable digital images, audio, video and multimedia files; Non-downloadable computer graphics; Platform as a service (PAAS) featuring computer software platforms for the selling and purchasing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software as a service (SAAS) featuring computer software platforms for the selling and purchasing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Computer services, namely, creating an on-line virtual environment for the selling and purchasing of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Platform as a service (PAAS) featuring computer software platforms for managing blockchain and token driven, distributed storage computer systems; Software as a service (SAAS) featuring computer software platforms for managing blockchain and token driven, distributed storage computer systems; Computer services, namely, providing secure, private encrypted cloud storage services;

Computer services, namely, providing open source decentralized cloud storage platform; Data encryption services featuring blockchain software technology and peer-to-peer protocols to provide secure, private, and encrypted cloud storage; Data mining; Non-downloadable software for use with blockchain technology; Software as a service (SAAS) services featuring software for clearing, allocation, compliance, recordation and settlement of trading related to digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Platform as a service (PAAS) services featuring software for clearing, allocation, compliance, recordation and settlement of trading related to digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Platform as a service (PAAS) featuring software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens that allow users to buy from, and sell products and services to others; Software as a service (SAAS) featuring software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens that allow users to buy from, and sell products and services to others; Blockchainbased software platforms and distributed computing software platforms for auditing and verifying digital information and codes; Non-downloadable blockchain software; Design, development and implementation of audit and security software for blockchain-based platforms; Non-downloadable software for use in facilitating secure transactions; Non-downloadable software for auditing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Design, development, and implementation of software for distributed computing platforms; Design, development, and implementation of software for blockchain; Design, development, and implementation of software for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token wallets; Design, development, and implementation of software for third-party verification services for digital currency transactions, including but not limited to transactions involving bitcoin currency; Non-downloadable software for users to buy and sell products by using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Non-downloadable software for use in accessing, reading, tracking, and using blockchain technology; Technical consultancy services related to digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token transactions; Platform as a service (PAAS) featuring computer software platforms for computer system and application development, deployment, and management; Software as a service (SAAS) featuring computer software platforms for computer system and application development, deployment, and management; Non-downloadable software enabling users to develop, build and run distributed applications through an open-source peer-to-peer smart-contract and payment network platform; Providing temporary use of non-downloadable authentication software for controlling access to and communications with computers and computer networks; Non-downloadable communications software; Non-downloadable software for use in the exchange of virtual items; Providing a digital exchange; Non-downloadable software for use in issuing digital currency, virtual currency, cryptocurrency, digital and blockchain assets; Application service provider (ASP); Application service provider (ASP) featuring application programming interface (API) software which facilitates online services for social networking, developing software applications; Application service provider (ASP) featuring location-aware software for searching, determining and sharing the location of goods, services and events of interest; Application service provider (ASP) featuring software for mapping services; Application service provider (ASP) featuring software for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Application service provider (ASP) featuring software for use in buying, selling, designing, managing, tracking, valuing, optimizing, targeting, analyzing, delivery, and reporting of online advertising and marketing; Application service provider (ASP) featuring software to enable or facilitate the sharing and displaying a user's location, planning activities with other users

and making recommendations; Application service provider (ASP) featuring software to enable or facilitate social and destination mapping; Application service provider (ASP) featuring software to enable or facilitate interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Application service provider (ASP) services; Application service provider (ASP) services featuring software for controlling, integrating, operating, connecting, and managing voice - controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; Application service provider (ASP), namely, hosting, managing, developing and maintaining applications, software, and web sites, in the fields of personal productivity, wireless communication, and mobile applications; Application service provider (ASP), namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; Application service provider (ASP), namely, remote hosting of computer applications of others; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation or website ranking based on user traffic; Computer consulting; Computer programming; Computer hardware and software consultation and design; Computer hardware, software, application, and network consulting services; Computer online services, namely, providing information, online links and electronic resources related to sports, health, and fitness; Computer services in the nature of providing customized online pages featuring user-defined or specified information, personal profiles, virtual reality, mixed reality, and augmented reality content and data; Computer services, namely, creating virtual communities for registered users to organize groups and events, participate in discussions, get feedback from their peers, and engage in social, business and community networking; Computer services, namely, curating online user-defined content and advertisements and creating social media feeds; Computer services, namely, hosting online web facilities for others for organizing and conducting meetings, events and interactive discussions via the internet and communication networks; Computer services, namely, providing information in the fields of technology and software development via the internet; Computer software development; Creating, maintaining and hosting of a website and other computer and electronic communication networks featuring information, online links, and electronic resources in the field of sports and fitness; Creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to enter, access, track progress, monitor and generate health, fitness, personal exercise, sports, and athletic activity information and achievements; Creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to compete and compare athletic information and achievements with other users; Design and development of augmented reality hardware and software; Design and development of computer hardware and computer software; Design and development of interactive multimedia software; Design and development of augmented reality hardware and software; Design and development of mixed reality hardware and software; Design and development of virtual reality hardware and software; File sharing services, namely, providing online facilities for others featuring technology enabling users to upload and download electronic files; Hosting of digital content on the internet; Mapping services; Mobile computer and mobile communications device hardware and software consultation and design; Mobile computer and mobile communications device software design for others; Non-downloadable computer software for displaying, aggregating, analyzing and organizing data and information in the fields of health, wellness, fitness, physical activity, weight management, sleep, and nutrition; Non-downloadable computer software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Non-downloadable computer software for sharing and displaying a user's location, planning activities with other users and making recommendations; Non-downloadable computer software for social and destination mapping; Non-downloadable computer software for tracking fitness, health and wellness goals and

statistics; Non-downloadable software for creating personalized fitness training programs; Nondownloadable software for creating, managing and accessing user-created and administered private groups within virtual communities; Non-downloadable software for ordering and/or purchasing goods and services; Non-downloadable software for processing electronic transactions; Nondownloadable software for providing a virtual marketplace; Non-downloadable software for providing personal training services, workouts and fitness assessments; Non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text and data; Non-downloadable software for streaming multimedia entertainment content; Nondownloadable software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; Non-downloadable software for processing images, graphics, audio, video, and text; Non-downloadable software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; Online ad-buying platform provider, namely, providing non-downloadable software programs for allowing buyers and sellers of online advertising to purchase and sell advertising inventory; Nondownloadable cloud computing software for use in electronic storage of data; Non-downloadable cloud computing software for virtual reality, mixed reality and augmented reality applications and environments; Non-downloadable computer software for use in providing retail and ordering services for a wide variety of consumer goods; Platform as a service (PAAS) featuring computer software platforms for use in purchasing and disseminating advertising; Platform as a service (PAAS) featuring computer software platforms for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Platform as a service (PAAS) featuring computer software platforms for voice command and recognition software, speech to text conversion software, voice-enabled software applications for personal information management; Platform as a service (PAAS) featuring software platforms for social networking and transmission of images, audio-visual content, video content and messages; Platform as a service (PAAS) services featuring computer software to allow users to perform electronic business and e-commerce transaction; Providing an interactive web site that enables users to enter, access, track progress, monitor and generate nutrition, calories, health, fitness, personal exercise, sports, and athletic activity information and achievements; Non-downloadable software to provide information regarding sports, athletic skill development, fitness coaching, and fitness training via an online website and other computer and electronic communication networks for gaming consoles, personal computers, personal digital devices, and smart phones; Providing an interactive web site that enables users to enter, access, track progress, monitor and generate calories, fitness, personal exercise, and athletic activity information and achievements; Providing an online network service that enables users to transfer personal identity data to and share personal identity data with and among multiple online facilities; Providing customized computer searching services, namely, searching and retrieving information at the user's specific request via the internet; Providing information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, electronic media, images and audio visual content via the internet and communication networks; Providing internet search engines; Non-downloadable software to allow users to perform electronic business transactions via the internet and communications networks; Providing online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information, to transfer and share such information among multiple online facilities, to engage in social networking, and to manage their social networking accounts; Providing online facilities that give users the ability to upload, modify and share audio, video, photographic images, text, graphics and data; Providing online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information and to transfer and share such information among multiple online facilities; Providing online non-downloadable software for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; Providing online sites that gives users the ability to upload, modify and share virtual reality, mixed reality and augmented reality content, information, experiences and data; Non-downloadable

personal assistant software; Non-downloadable social assistant software; Providing search platforms to allow users to request and receive photos, videos, text, data, images, and electronic works; Providing search platforms to allow users to request and receive content, text, visual works, audio works, audiovisual works, literary works, data, files, documents, and electronic works; Non-downloadable software for facilitating and arranging for the financing and distribution of fundraising and donations; Nondownloadable software for online charitable fundraising services and financial donation services; Non-downloadable software for mapping services; Providing online non-downloadable computer software and hosting online facilities to enable users to access and download computer software; Non-downloadable software enabling development, assessment, testing, and maintenance of mobile software applications for portable computing devices, namely, mobile phones, smartphones, handheld computers and computer tablets; Non-downloadable software for sharing and displaying a user's location, planning activities with other users and making recommendations; Nondownloadable software for social and destination mapping; Non-downloadable software for finding content and content publishers, and for subscribing to content; Non-downloadable software for accessing, collecting, displaying, editing, linking, modifying, organizing, tagging, streaming, sharing, storing, transmitting, and otherwise providing electronic media, photographs, images, graphics, audio, videos, audio-visual content, data and information via the internet and communication networks; Non-downloadable e-commerce software to allow users to perform electronic business transactions via the internet; Non-downloadable location-aware computer software for searching, determining and sharing the location of goods, services and events of interest; Non-downloadable software applications for searching and identifying local and location-based points of interest, events, landmarks, employment opportunities, entertainment, cultural events, shopping and offers; Non-downloadable software applications for providing location-based weather information; Non-downloadable software applications for providing, linking to, or streaming news or current events information; Non-downloadable software for modifying photographs, images and audio, video, and audio-video content with photographic filters and virtual reality, mixed reality, and augmented reality (AR) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, and hyperlinks; Non-downloadable software for taking photographs and recording audio, audio-visual and video content; Non-downloadable software for uploading, downloading, archiving, enabling transmission of, and sharing images, audio-visual and video content and associated text and data; Non-downloadable software for streaming multimedia entertainment content; Non-downloadable software and applications for instant messaging, voice over internet protocol (VOIP), video conferencing, and audio conferencing; Non-downloadable software for use in designing, managing, measuring, analyzing, disseminating, and serving advertising of others; Non-downloadable software for taking photographs and recording audio, audio-visual and video content; Provision of Internet search engine services; Rental of computer software that gives users the ability to upload, edit, and share images, videos and audio-visual content; Software as a service (SAAS) featuring computer software for accessing, browsing, and searching online databases, audio, video and multimedia content, games, and software applications, software application marketplaces; Software as a service (SAAS) featuring computer software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; Software as a service (SAAS) featuring computer software for connecting, operating, integrating, controlling, and managing networked consumer electronic devices, home climate devices and lighting products via wireless networks; Software as a service (SAAS) featuring computer software used for controlling stand-alone voice controlled information and personal assistant devices; Software as a service (SAAS) for use in designing, creating and analyzing data, metrics and reports in the areas of health, fitness, sleep, nutrition and wellness; Software as a service (SAAS) services featuring software for sending and receiving electronic messages, notifications and alerts; Non-downloadable software for sending and receiving electronic messages, graphics, images, audio and audio-visual content via the internet and communication networks; Software as a service (SAAS) services featuring software for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; Software as a service (SAAS) services, namely, hosting software for use by others for use of an algorithm for calculating and generating data for sport

activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; Software as a service (SAAS) services, namely, providing a customized website and mobile portal for individuals featuring data analytics based on physiological metrics for purposes of health monitoring; Software as a service (SAAS) that enables users to manage employee accounts, schedule and track employee participation, and facilitate and manage corporate fitness and wellness programs; Software for electronic messaging; Technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; Technological services, namely, data warehousing services; Non-downloadable software for minting, creating, and issuing digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; Nondownloadable software for viewing and providing access to digital assets, digital tokens, cryptotokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; Non-downloadable software for distributing, trading, storing, sending, receiving, accepting, and transmitting digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, cryptocollectibles, cryptocurrencies, digital currencies and virtual currencies; Organization, management and governance of decentralized autonomous organizations (DAOs);Recording, management and tracking of ownership interests in decentralized autonomous organizations (DAOs);design and development of decentralized applications; Non-downloadable software for developing decentralized applications; Non-downloadable software for recording, managing, tracking, and transferring ownership interests in decentralized autonomous organizations; Non-downloadable software for management and governance of decentralized autonomous organizations; Nondownloadable software for participating and voting in decentralized autonomous organizations; Non-downloadable software for managing and validating transactions involving digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, cryptocollectibles, cryptocurrencies, digital currencies and virtual currencies in the name of **YUGA LABS, INC. of 1430 S. Dixie Hwy, Ste. 105 1075, Coral Gables, FL 33146-3108, United States.**

Address for service: **MacMillan's Intellectual Property Attorneys Ltd  
2nd Floor, Allied Building Annex, Francis Rachel Street

Application No: **323/2022** in Class **9** DNA chips; electric locks for vehicles; instruments for diagnosis [for scientific use]; laboratory instruments [other than for medical use]; apparatus and instruments for physics; optical apparatus and instruments except for glasses and photographic apparatus; vehicle safety equipment, namely, cameras; blind-spot detection cameras for exposing and eliminating the blind spots on both sides of the vehicle; black box camera for cars; car recognizing cameras; night vision infrared cameras with built-in airlines; photographic equipment; video conferencing apparatus; home theater systems; audiovisual teaching apparatus: distance sensors; lidar sensor for detecting objects and motions for autonomous cars; blind spot motion detecting sensors; blind spot object detecting sensors; blind spot motion sensors; sensors for measuring speed; apparatus for testing vehicle brakes; apparatus for testing vehicle transmissions; thermostats for vehicles; apparatus for driving vehicles automatically; parking sensors for vehicles; kilometer recorders for vehicles;

diagnostic apparatus for vehicles; automatic indicators of low pressure in vehicle tyres; sensors for engines; sensors for determining position, velocity, acceleration and temperature; sensors for determining position; automatic vehicle speed control apparatus; motion sensors for automobiles; electronic sensors for automobiles, namely, forward and backward safety sensors; speed sensors for automobiles; OBD (On-Board Diagnosis) apparatus for automobiles; electronic sensors for automobiles, namely, detector units for use in controlling the actuation and operation of automotive safety apparatus and equipment; electronic sensors for automobiles, namely, sensors for use in controlling the actuation and operation of automotive safety apparatus and equipment; parking and locational sensors for automobiles; parking sensors for automobiles; crash sensors for automobiles; odometers; vehicle safety equipment, namely, back-up sensors; electronic sensors for vehicles; lateral distance sensor for cars; lateral safety sensor for cars; measuring instruments; vehicle speed control apparatus; temperature and environmental sensors for measuring the presence of objects in the environment and the speed, trajectory, and heading of objects; protective eyeglasses; sunglasses; eye glasses; eyeglass cases; time recording equipment; calculating machines, data-processing equipment and computers; warning apparatus for engine virtual sound of automobiles; collision alarms; alarms for tire pressure monitoring system; theft prevention apparatus; signals, luminous or mechanical; warning lamps for vehicles; fire trucks; air sensor for vehicles; USB battery chargers for use in automobiles; robotic electrical control apparatus; uninterruptible electrical power supplies; voltage regulators for vehicles; electrical controlling devices for engines; charging appliances for rechargeable equipment; charging stations for electric vehicles; electricity energy supply controller; electrical controlling devices; control installations (Electric -); apparatus and instruments for regulating electricity; regulating apparatus, electric; apparatus and instruments for conveying, distributing, transforming, storing, regulating or controlling electric current; current rectifiers; apparatus for adjusting headlights; solar modules; batteries for vehicles; fuel cells; batteries for automobiles; rechargeable batteries; batteries for electric vehicles; electric batteries; nickel-hydrogen batteries; energy storage apparatus comprised of batteries; power bank (rechargeable batteries); electricity measuring apparatus and instruments; starter cables for motors; electric cables, wires, conductors and connection fittings therefor; electric hybrid cables; black boxes [data recorders]; voice processing systems; video recording apparatus for vehicles; car cassette players; smartwatches; wearable computers; apparatus for recording, transmission or reproduction of sound, images and data; remote monitoring apparatus; electronic monitoring instruments, other than for medical use; television monitoring apparatus; GPS navigation device; GPS tracking and location devices; remote control apparatus for industrial automation instruments; radar object detectors for vehicles; electric igniting apparatus for igniting at a distance for vehicles; navigation apparatus for vehicles [on-board computers]; remote control apparatus; GPS navigation devices for cars; electric telecommunications apparatus; Audio Video Navigation for vehicles mounted with in-vehicle simple payment system; telecommunication apparatus for use in cars; terminals for electronic transaction with built in cars; electronic terminals for highway toll collection; laboratory robots; humanoid robots with artificial intelligence for use in scientific research; software for controlling robots; downloadable computer software for the provision of information relating to vehicle trip information history, parking location management, trip information, vehicle health management, driving information, and third-party promotional data in the form of advertising for drivers; downloadable and recorded computer software for autonomous driving of motor vehicles; recorded software for data processing for autonomous driving control; downloadable and recorded computer software for autonomous vehicle navigation, steering, calibration, and management; downloadable software for parking location identification; downloadable and recorded computer software for vehicle navigation; recorded software for vehicle fleet launching, coordination, calibrating, direction, and management; downloadable and recorded computer software for controlling vehicle communications networks; downloadable and recorded computer software platforms for advanced safety and driver assistance systems for vehicles; computer programs and software for vehicles; downloadable software for the control and remote control of vehicles; computer databases; computer software for simple payment; computer application software for use on smart phones for simple payment; in-vehicle Audio Video Navigation software for simple payment; software for secure data storage and retrieval and transmission of customer

information used by individuals, banking and financial institutions for electronic payment; downloadable smart phone application (software); computer software for use with route planners, electronic maps and digital dictionaries for navigation purposes; computer application software for smart phones for use in rental car leasing and rental car maintenance; computer software for facilitating payment transactions by electronic means over wireless networks, global computer networks and/or mobile telecommunications devices; downloadable computer application software for use on smart phones for the provision of information relating to vehicle trip information history, parking location management, trip information, vehicle health management, driving information, and third-party promotional data in the form of advertising for drivers; downloadable computer software for providing remote vehicle diagnosis, vehicle maintenance information, entertainment in the form of audio and visual displays in vehicles, third-party communication in vehicles, navigation function, and audio and visual display in vehicles; smart phone application (software) that enables the drivers to make in-vehicle simple payment regarding refueling, parking, using toll gate and purchasing products at various stores; smart phone application (software) that enables the drivers to make in-vehicle simple payment regarding refueling, parking, using toll gate and purchasing products at various stores as well as ordering purchase of foods and beverages in vehicle; computer software that enables the drivers to make in-vehicle simple payment regarding refueling, parking, using toll gate and purchasing products at various stores as well as ordering purchase of foods and beverages in vehicle; application software for providing electronic payment agency service; computer software for platform of in-vehicle simple payment; smartphone application (software) accessible to in-vehicle systems; computer program for simple payment through in-vehicle Audio Video Navigation; computer firmware for platform of in-vehicle simple payment; smartphone application (software) for in-vehicle simple payment; computer application software for use on smart phones for use in the management of vehicle rental and vehicle maintenance; computer application software for use on smart phones for a vehicle lease; downloadable computer application software for mobile phones for use in the operation and management of vehicles; recorded computer software for safe car driving; downloadable computer application software for vehicles; computer application software for computers and mobile devices, namely, software for locating and sharing information regarding electric vehicle charging stations; encoded cards for use in relation to the electronic transfer of financial transactions; computer hardware for use with satellite and/or GPS navigation systems for navigation purposes; data processing apparatus; computer hardware for facilitating payment transactions by electronic means over wireless networks, global computer networks and/or mobile telecommunications devices; laser installations, other than for medical use, for sensing distance to objects; steering apparatus, automatic, for vehicles; simulator for optical devices; vehicle drive training simulators; flight simulators for aircraft; electronic payment terminal operated by encoded cards, stored value cards, prepaid cards and smart cards; speech recognition apparatus; digital car driving recording apparatus; black box for cars; electronic keyless entry system for automobiles; electronic control apparatus for autonomous driving of vehicles; computer apparatus for parking location identification; security terminal for in-vehicle electronic transactions; devices for in-vehicle e-payment process; computer hardware for vehicle fleet launching, coordination, calibrating, direction, and management; computer hardware for transmission of data within a vehicle and for communications between and among vehicles and a cloud-based platform; LED information display apparatus for car; laser object detectors for use on vehicles; computer apparatus for the control and remote control of vehicles; computer display monitors; computer components and parts; computer hardware; peripherals adapted for use with computers; video game cartridges and cassettes; articles of protective clothing for wear by motorcyclists for protection against accident or injury; downloadable music files; downloadable multimedia file; downloadable image files; downloadable computer graphics; downloadable image; encoded plastic card; downloadable ticket; downloadable electronic maps; computer digital maps; metaverse contents operating software; game software for metaverse; interfaces for metaverse; recorded data files featuring meta data containing information on digital assets; downloadable image files featuring virtual merchandise such as clothing, shoes, bags, headgear, eyewear, sports equipment, works of art, paintings, toys, etc. for metaverse; downloadable image files featuring virtual cars for metaverse; downloadable image files featuring character images for metaverse;

downloadable image files featuring avatars for metaverse; software for non-fungible tokens; software for metaverse; computer software for automatic storage of trading data of blockchain-based non-fungible tokens; computer software for issuing, trading, selling, managing, and verifying blockchain-based non-fungible tokens; blockchain-based non-fungible tokens; computer software for issuing, trading, selling, managing, and verifying blockchain-based ownership and license of digital contents; downloadable software for virtual money; downloadable computer programmes for electronic money payment; computer application software for metaverse experience; metaverse contents distributing software; computer software for providing metaverse contents; game software for smart phones in order to experience indirectly various information through metaverse; video display software; software (for the purpose of photos/ videos/ editing/ storing/ sharing/ broadcasting/ sending/ viewing or chatting); computer application software for mobile phone camera based on virtual/augmented reality; computer programs and software featuring service that automatically converts portrait into 3D avatar images); software for creating/manipulating/participating 3D virtual environments; computer e-commerce software featuring non-fungible tokens (NFTs); computer software for used in implementing the metaverse; computer software for metaverse service; software for navigating an augmented reality environment; virtual reality software; software for virtual reality experiences; software for navigating a virtual reality environment; virtual reality software for users to experience virtual reality visualization, manipulation and immersion; augmented reality software for interactive experiences; virtual reality software for interactive experiences; software for augmented reality experiences; augmented reality software; virtual reality software that enables you to provide virtual reality experiences with computers/tablets/mobile devices/mobile phones in the name of **KIA CORPORATION of 12, Heolleung-ro, Seocho-gu, Seoul, Republic of Korea.**

### **MERCHANT SHIPPING ACT**

*(Cap 282)*

#### **Merchant Shipping (Marine Accident Reporting and Safety Investigation) Regulations, 2022**

In exercise of the powers conferred by section 242 of the Merchant Shipping Act, the Minister responsible for ports and marine makes the following regulations —

#### **Part I - Preliminary**

##### **Citation**

1. These Regulations may be cited as the Merchant Shipping (Marine Accident Reporting and Safety Investigation) Regulations, 2022.

##### **Interpretation**

2. In these Regulations unless the context otherwise requires —

“access” means the process of embarking on or disembarking from a ship, by whatever means employed;

“accident” means a marine incident, marine casualty, serious marine casualty or very serious marine casualty;

“Act” means the Merchant Shipping Act (Cap 282);

“Authority” means the Seychelles Maritime Safety Authority established by the Seychelles Maritime Safety Authority Act, 2019;

“agent” means any person, natural or legal, engaged on behalf of the owner, charterer or operator of a ship, or the owner of the cargo, in providing shipping services, including managing arrangements for the ship being the subject of a marine safety investigation.

“Board” means the Marine Accident Investigation Board established by section 227 of the Act;

“causal factor” means actions, omissions, events or conditions, without which —

- (a) the marine casualty or marine incident would not have occurred; or
- (b) adverse consequences associated with the marine casualty or marine incident would probably not have occurred or have been as serious;
- (c) another action, omission, event or condition, associated with an outcome in paragraph (a) or (b), would probably not have occurred;

“Chief Inspector” means the Chief Inspector for marine safety investigation appointed by the Minister;

“coastal state” means a State in whose territory, including its territorial sea, a marine casualty or marine incident occurs;

“Code” means the Code for the Investigation of Marine Casualties and Incidents annexed to Resolution A.849 (2.0) of the IMO Assembly of 27<sup>th</sup> November 1997 as amended;

“exclusive economic zone” means the exclusive economic zone as defined in the Maritime Zones (Exclusive Economic Zone and Continental shelf) Order, 2014;

“high seas” means the high seas as defined in article 86 of the United Nations Convention on the Law of the Sea;

“IMO” means the International Maritime Organisation;

“investigator” means a member of the Marine Accident Investigation Board or any person appointed under regulation 12 carrying out a marine safety investigation;

“marine casualty” means an event, or a sequence of events, that has resulted in any of the following which has occurred directly in connection with the operations of a ship, excluding a deliberate act or omission with intention to cause harm to the safety of a ship, an individual or the environment —

- (a) the death of, or serious injury to, a person;
- (b) the loss of a person from a ship;
- (c) the loss, presumed loss or abandonment of a ship;
- (d) material damage to a ship;
- (e) the stranding or disabling of a ship, or the involvement of a ship in a collision;
- (f) material damage to marine infrastructure external to a ship, that could seriously endanger the safety of the ship, another ship or an individual; or
- (g) severe damage to the environment, or the potential for severe damage to the environment, brought about by the damage of a ship or ships;

“marine incident” means an event, or sequence of events, other than a marine casualty, which has occurred directly in connection with the operations of a ship that endangered, or, if not corrected, would endanger the safety of the ship, its occupants or any other person or the environment, excluding a deliberate act or omission, with the intention to cause harm to the safety of a ship, an individual or the environment;

“marine safety investigation” means an investigation into a marine casualty or marine incident, conducted with the objective of preventing marine casualties and marine incidents in the future, including the collection and analysis of evidence, the identification of causal factors and the making of safety recommendations as may be necessary;

“marine safety investigating state(s)” means the flag state or, where relevant, the state or states that take the responsibility for the conduct of the marine safety investigation as mutually agreed in accordance with these Regulations;

“marine safety record” means the following types of records collected for a marine safety investigation —

- (a) all statements taken for the purpose of a marine safety investigation;
- (b) all communications between persons pertaining to the operation of the ship;
- (c) all medical or private information regarding persons involved in the marine casualty or marine incident;
- (d) all records of the analysis of information or evidential material acquired in the course of a marine safety investigation;
- (e) information from the voyage data recorder;

“material damage” in relation to a marine casualty means —

- (a) damage that —
  - (i) significantly affects the structural integrity, performance or operational characteristics of marine infrastructure or a ship; and
  - (ii) requires major repair or replacement of a major component or components; or
- (b) destruction of the marine infrastructure or ship;

“Minister” means the Minister responsible for maritime affairs;

“preliminary assessment” means a preparatory evaluation by the Board which is intended to establish the likely causes and circumstances of an accident with a view to determining whether or not a safety investigation should be undertaken;

“seafarer” means any person who is employed or engaged or works in any capacity on board a ship;

“serious injury” means an injury which is sustained by a person, resulting in incapacitation where the person is unable to function normally for more than 72 hours, commencing within 7 days from the date when the injury was suffered;

“serious marine casualty” means serious marine casualty, which is an event or sequence of events that has occurred directly by or in connection with the operation of a ship but which does not qualify as a very serious marine casualty, that involves —

- (a) fire;
- (b) explosion;
- (c) collision;
- (d) grounding;
- (e) contact;
- (f) heavy weather damage;
- (g) a suspected hull defect; resulting in any of the following —
  - (i) the immobilization of the main engines;
  - (ii) extensive accommodation damage;
  - (iii) severe structural damage including penetration of the hull underwater rendering the ship unfit to proceed;
  - (iv) pollution;

(v) breakdown that necessitates towage or shore assistance.

“severe damage to the environment” means damage to the environment which, as evaluated by the state affected, or the flag state, produces a major deleterious effect upon the environment;

“substantially interested state” means a state —

- (a) which is the flag state of a ship involved in a marine casualty or marine incident;
- (b) which is the coastal state involved in a marine casualty or marine incident;
- (c) whose environment was severely or significantly damaged by a marine casualty, including the environment of its waters and territories recognized under international law;
- (d) where the consequences of a marine casualty or marine incident caused, or threatened serious harm to that state or to artificial islands, installations, or structures over which it is entitled to exercise jurisdiction;
- (e) where, as a result of a marine casualty, nationals of that state lost their lives or received serious injuries;
- (f) that has important information at its disposal that the Board considers useful to the investigation; or
- (g) that for some other reason establishes an interest that is considered significant by the marine safety investigating State.

“territorial sea” means territorial sea as defined by section 4 of the Maritime Zones Act (Cap 122);

“very serious marine casualty” means a marine casualty involving the total loss of the ship or a death or severe damage to the environment.

“voyage data recorder” means the electronic or mechanical equipment which may be installed on a ship to record key navigational and control information.

### **Application of Regulations**

**3.** These Regulations apply in respect of accidents involving or occurring on board —

- (a) any Seychelles flagged ship worldwide;
- (b) any ship within Seychelles territorial sea;
- (c) any other ship where in the opinion of the Board, Seychelles is a substantially interested state.

### **Functions of the Board in relation to marine safety investigations**

**4.(1)** The Board shall conduct marine safety investigations in accordance with these Regulations.

(2) For the purpose of sub-regulation (1), the Board shall be supported by a Chief Inspector, a pool of investigators and a secretariat.

(3) The Board shall determine its procedures and manners in which its business and meetings shall be conducted.

(4) The Board members shall be remunerated in accordance with the fees set out in the remuneration policy and framework on fees for executive boards.

(5) A member of the Board may at any time resign by a letter addressed to the Chairperson and such member shall cease to be a member of the Board from the date on which the Chairperson accepts the resignation.

(6) The Board may establish working relations through mutual agreements of understanding with other agencies and stakeholders being an interested party to the investigation, such as, but not limited to the Police, rescue services, the coast guard, and the Port Authority.

## **Objective of marine safety investigation**

5.(1) The conduct of a safety investigation into an accident under these Regulations shall be for the prevention of future accidents through the ascertainment of its causes and circumstances.

(2) The purpose of a safety investigation shall not be for the determination of liability to apportion blame, except so far as is necessary to achieve its objective.

(3) Subject to sub-regulation (2), the investigators conducting a marine safety investigation shall not refrain from fully reporting on the causal factors which may infer fault or liability from the findings.

(4) The safety investigation shall be independent from any inquiry or investigations conducted in accordance with the Seychelles Maritime Safety Authority Act, 2019, the Act and any police investigation.

## **Duty to report accidents and serious injuries**

6.(1) When an accident occurs, the Authority, the Board and the Chief Inspector shall be notified of the accident, as soon as is practicable following the accident and by the quickest means available by —

- (a) the master, or in the event that the master has not survived, the senior surviving officer; and
- (b) the ship's owner, unless the owner has ascertained to his satisfaction that the master or the senior surviving officer has reported the accident.

(2) In addition to any notification made under sub-regulation (1) the Authority, the Board and the Chief Inspector shall be notified, as soon as is practicable and by the quickest means available, of any accident by —

- (a) the harbour authority of a harbour, in the case of an accident within or adjacent to the limits of any harbour;

(b) an official of the Seychelles Coast Guard, in respect of an accident within Seychelles territorial waters.

(3) A person making a notification in accordance with sub-regulation (1) shall, in so far as is practicable, include the information set out in the First Schedule.

(4) In addition to making a notification, the persons specified in sub-regulation (1) (a) and (b) shall —

(a) so far as is reasonably practicable, ensure that the circumstances of every accident are examined; and

(b) as soon as is practicable, submit a report to the Board, giving the findings of such examination, stating any measures taken or proposed to be taken to prevent a recurrence.

(5) If the accident reported under sub-regulation (1) is a marine casualty or a very serious marine casualty, the Authority shall without delay, notify any state considered to be a substantially interested state.

## **PART II - MARINE SAFETY INVESTIGATIONS**

### **Preliminary assessments**

7.(1) In the case of a serious marine casualty, in relation to a ship, the Board in consultation with the Chief Inspector shall conduct a preliminary assessment to determine whether it is appropriate in the circumstances to conduct a marine safety investigation that will ultimately lead to the publication of a report.

(2) When conducting a preliminary assessment the Board and Chief Inspector shall take into account, but shall not be limited to —

(a) the seriousness of the accident;

(b) the type of ship and cargo involved;

- (c) the potential for the findings of a safety investigation to lead to the prevention of future accidents;
- (d) any other factor the Board considers relevant.

(3) Where the Board in consultation with the Chief Inspector decides that a marine safety investigation into an accident shall not be carried out, the reasons for this decision shall be recorded.

### **Ordering a marine safety investigation**

8.(1) The Board in consultation with the Chief Inspector shall ensure that a safety investigation is carried out in relation to any accident that is a very serious marine casualty.

(2) The Board may decide to undertake a safety investigation in relation to an accident that is a serious marine casualty having carried out a preliminary assessment in accordance with regulation 7.

(3) The safety investigation shall include, but shall not be limited to —

- (a) the collection and analysis of evidence;
- (b) the identification of causal factors; and
- (c) where appropriate, the making of safety recommendation.

(4) A safety investigation in relation to an accident that is a marine casualty or a marine incident may be conducted, if it is considered likely that a marine safety investigation will provide information that can be used to prevent marine casualties and marine incidents in the future.

(5) Where the Board and the Chief Inspector has received a notification under regulation 6, the Board and the Chief Inspector shall determine whether or not a safety investigation should be conducted and shall publish details of that decision in such manner as is seen fit, as soon as is reasonably practicable.

(6) Before deciding whether a safety investigation should be conducted and if so, what form it should take, the Board may obtain information that the Board considers necessary concerning the accident and any remedial action taken as a result.

(7) Any person who is in possession of information requested by an investigator for the purposes of regulation 6 shall provide such information to the best of their ability and knowledge.

(8) In the case of an accident to which regulation 3 applies, the Board may decide not to conduct a safety investigation if it is satisfied or otherwise established to the Board's satisfaction, that —

- (a) any loss of life resulted from suicide or natural causes; or
- (b) any serious injury resulted from attempted suicide;
- (c) a criminal investigation has been opened by the Police into the case.

(9) When a marine safety investigation is commenced under these Regulations, the master, the owner and agent of a ship involved in the marine casualty or marine incident being investigated, shall be informed as soon as practicable, of —

- (a) the marine casualty or marine incident under investigation;
- (b) the time and place at which the marine safety investigation will commence;
- (c) the name and contact details of the Board;
- (d) the relevant details of the legislation under which the marine safety investigation is being conducted;
- (e) the rights and obligations of the parties subject to the marine safety investigation; and
- (f) the rights and obligations of the state or states conducting the marine safety investigation.

(10) The marine safety investigation shall commence, as soon as is reasonably practicable, without delaying the ship unnecessarily.

### **Subsequent or re-opened investigation**

9.(1) Notwithstanding a decision not to investigate, the Board may at any subsequent time undertake a safety investigation if the Board is satisfied that there is a good reason in the interests of future safety to do so.

(2) The Board may re-open a safety investigation if, following its completion, new and important evidence is discovered which in the Board's opinion could have a material effect on any safety recommendations made.

(3) In cases under sub-regulation (2), the new evidence shall be fully assessed and referred to other substantially interested States for appropriate input.

(4) Any safety investigation may be re-opened either in whole or in part and shall be subject to and conducted in accordance with the provisions of these Regulations.

### **Preservation and collection of evidence**

10.(1) Following an accident involving a ship to which regulation 3 applies, the persons referred to under regulation 6 (1) shall so far as is practicable, ensure the keeping of all —

- (a) charts;
- (b) log books;
- (c) recorded information relating to the period preceding, during and after an accident, including information from a voyage data recorder and video recorders; and
- (d) all documents or other records which might reasonably be considered pertinent to the accident.

(2) Any recordings or entries referred to under sub-regulation (1) shall not be altered.

(3) In the case of an accident involving a ship to which regulation 3 applies, the persons referred to under regulation 6 (1) shall ensure that —

- (a) all information from a voyage data recorder or recording system relating to the circumstances of an accident is saved and preserved, in particular by taking steps, where necessary to prevent such information from being overwritten; and
- (b) any other equipment which might reasonably be considered pertinent to the investigation of the accident is so far as practicable left undisturbed.

(4) The obligation under sub-regulation (1), (2) and (3) shall continue until —

- (a) a published notification is received from the Board that no safety investigation is to take place or that the investigation has been completed;
- (b) 30 days have passed since the Board received the report under regulation 6 (1) and no notice has been published by the Board that an investigation will be conducted in the matter; or
- (c) the Board or an investigator conducting the investigation gives written notification that they are no longer required.

(5) Following an accident in Seychelles waters involving a ship which is not a Seychelles ship, the persons referred to under regulation 6 (1) shall comply with the requirements of sub-regulation(1), (2) and (3) if required to do so by or on behalf of the Board.

(6) Following an accident, the Board may, if it considers it necessary for the collection or preservation of evidence in connection with any safety investigation, including a preliminary assessment relating to the accident, require the master or, if the master has not survived, the senior surviving officer and the ship's owner to ensure that a ship is accessible to

any investigator engaged in the investigation of such accident, until the process of collecting or preserving evidence is completed to the investigator's satisfaction.

(7) The Board shall not require a ship that is subject to regulations 4 (a), (b) or (c) to remain in Seychelles waters any longer than is necessary for the collection or preservation of the evidence referred to under sub-regulation (6) and shall ensure that such evidence is collected or preserved expeditiously.

(8) Any person from whom evidence is sought should be informed and allowed access to legal advice, regarding —

- (a) the nature and basis of the investigation;
- (b) any potential risk that they may incriminate themselves in any proceedings subsequent to the marine safety investigation;
- (c) any right not to self-incriminate or to remain silent; and
- (d) any protections afforded to the person to prevent the evidence being used against them if they provide the evidence to the marine safety investigation.

### **Obtaining evidence from seafarers**

11. Where a marine safety investigation requires a seafarer to provide evidence, the investigator shall take into account the provisions of the IMO guidelines on the fair treatment of seafarers in accordance with the Second Schedule.

### **Conduct of a safety investigation**

12.(1) If the Board decides to conduct a safety investigation, the investigation shall be undertaken by one or more investigators at such times and places and in such manner most conducive to achieving the objective under regulation 5.

(2) An investigator undertaking a marine safety investigation shall have working knowledge and practical experience in areas pertaining to their normal duties.

(3) To assist investigators to perform duties outside their normal assignments, the Board and Chief Inspector shall, ensure ready access to expertise in —

- (a) navigation and the collision regulations;
- (b) flag state regulations on certificates of competency;
- (c) causes of marine pollution;
- (d) interviewing techniques;
- (e) evidence gathering; and
- (f) evaluation of the effects of the human element.

(4) To assist with specific investigations, the Board in consultation with the Chief Inspector may appoint —

- (a) investigators with necessary specialist skills to form part of a marine safety investigation;
- (b) consultants to provide expert advice on any aspect of a marine safety investigation.

(5) All investigators conducting a marine safety investigation shall have functional independence from —

- (a) the parties involved in the marine casualty or marine incident;
- (b) anyone who may make a decision to take administrative or disciplinary action against an individual or organisation involved in a marine casualty or marine incident; and

(c) judicial proceedings.

(6) A safety investigation may extend to cover, but shall not be limited to —

- (a) all events and circumstances preceding the accident together with subsequent events and circumstances;
- (b) hazard identification and the estimated risk assessment which is used to identify the frequency of a hazard occurring and its consequences;
- (c) issues involving salvage and pollution connected with the accident;
- (d) the conduct of search and rescue operations,

if in the opinion of the Board or the Chief Inspector they are relevant to future safety.

(7) When accessing a ship to conduct a marine safety investigation, an investigator may carry on board the ship any equipment deemed necessary to collect evidence and conduct the investigation.

(8) An investigator may record a witness interview of any person who is assisting a safety investigation carried out in accordance with these Regulations in any manner that the Board considers reasonable.

### **Disclosure of Records**

13.(1) Subject to this regulation, the names, addresses or other details of anyone who has given evidence to an investigator shall not be disclosed.

(2) The Board shall only disclose information from a marine safety record where —

- (a) it is necessary or desirable to do so for transport safety purposes and in this instance shall take into account any impact on the future availability of safety information to a marine safety investigation;

- (b) information from a marine safety record needs to be provided to an external expert for their analysis or second opinion; or
- (c) as otherwise permitted in accordance with these Regulations.

(3) Any marine safety record specified in the Third Schedule, in the possession of the Board shall not be disclosed in criminal, civil, disciplinary or administrative proceedings unless —

- (a) the court determines that any adverse domestic or international impact that the disclosure of the information may have on any current or future marine safety investigations is outweighed by the public interest in the administration of justice; or
- (b) where appropriate in the circumstances, the substantially interested state which provided the marine safety record to the marine safety investigation authorises its disclosure.

(4) Any part of the marine safety records which are not pertinent to the analysis of the marine casualty or marine incident shall not be included in the final report and shall not be disclosed.

(5) Information from a marine safety record shall only be disclosed to a substantially interested state where doing so will not undermine the integrity and credibility of any marine safety investigation being conducted or of the Board.

(6) The Board may require that a substantially interested state receiving information in relation to a marine safety investigation undertake to keep such information confidential.

### **Discontinuing a marine safety investigation**

**14.(1)** The Board may, at any time, after its commencement, decide to discontinue a marine safety investigation and the reason for discontinuation shall be recorded.

(2) Sub-regulation (1) shall not apply to an investigation of a very serious marine casualty.

(3) The Board shall discontinue an investigation under sub-regulation (1) if the Board is of the opinion that the accident occurred due to a deliberate act or omission which had the intention to cause harm to the safety of a ship, a person or the environment.

(4) Whenever an investigation is discontinued in accordance with this regulation, the Board shall report the reasons for discontinuation to the Minister.

### **PART III - COOPERATION WITH OTHER SUBSTANTIALLY INTERESTED STATES**

#### **Notification to substantially interested states**

**15.(1)** When a ship flying the flag of another state is involved in a marine casualty that occurs —

- (a) in the exclusive economic zone of Seychelles; or
- (b) within the territory, including the territorial sea of Seychelles, the Authority shall, as soon as is reasonably practicable, notify any other substantially interested state.

(2) When a Seychelles flag ship and a ship flying the flag of another state are involved in a marine casualty that occurs on the high seas, the Authority shall, as soon as is reasonably practicable, notify any substantially interested states.

(3) Notification under this shall not be delayed due to the lack of complete information.

#### **Agreement with another substantially interested state to conduct a marine safety investigation**

**16.(1)** Where a marine casualty occurs —

- (a) within the territory, including the territorial sea, of Seychelles involving a ship flying the flag of another state;
- (b) within the territory or exclusive economic zone of another coastal state, involving a Seychelles flag ship; or
- (c) on the high seas, involving a Seychelles flag ship and another flag ship,

the Authority shall consult with that other state to seek agreement on which state will be the marine safety investigating state.

(2) Prior to reaching an agreement or if an agreement is not reached in accordance with sub-regulation (1), the existing obligations and rights of states under international law to conduct a marine safety investigation remains with the respective parties to conduct their own investigation.

(3) When an agreement is being sought in accordance with sub-regulation (1), the parties involved shall take into account —

- (a) whether the ship or ships involved in a marine casualty or marine incident occurring on the high seas, or in the exclusive economic zone, subsequently sail into the territorial sea of a state;
- (b) the resources and commitment required of the flag state and other substantially interested states;
- (c) the potential scope of the marine safety investigation and the ability of the flag state or another substantially interested state to accommodate that scope;
- (d) the need of the investigators carrying out a marine safety investigation to access evidence and consideration of the state or states best placed to facilitate that access to evidence;

- (e) any perceived or actual adverse effects of the marine casualty or marine incident on other states;
- (f) the nationality of the crew, passengers and other persons affected by the marine casualty or marine incident.

(4) Where a Seychelles flag ship is involved in a marine casualty, by fully participating in a marine safety investigation conducted by another substantially interested state, Seychelles shall be considered to fulfil its obligations under the Code, SOLAS regulation I/21 and article 94, section 7 of the United Nations Convention on the Law of the Sea.

### **Parallel investigations**

17. Where a marine safety investigation is being conducted in parallel with another substantially interested state's own separate marine safety investigation, the Board shall, where possible, seek to co-ordinate the timing of their investigations, to avoid conflicting demands upon witnesses and access to evidence.

### **Co-operation**

18.(1) Where a marine safety investigation is being conducted by another substantially interested state, the Board shall, to the extent practicable, co-operate with that other state.

(2) Where a marine safety investigation involving another substantially interested state is being conducted by the Board, the Board shall allow any substantially interested state to participate, to the extent practicable, in aspects of the marine safety investigation relevant to it.

(3) The participation of a substantially interested state shall include allowing the states' representatives to —

- (a) interview witnesses;
- (b) view and examine evidence and make copies of documents;

- (c) make submissions in respect of the evidence, comment on and have their views properly reflected in the final report; and
- (d) be provided with the draft and final reports relating to the marine safety investigation.

(4) Where the marine casualty or marine incident involves a Seychelles flag ship, the Board shall facilitate the availability of the crew to the investigators carrying out the marine safety investigation.

## **PART IV - MARINE SAFETY INVESTIGATION REPORT**

### **Reports of marine safety investigations**

19.(1) Whenever a marine safety investigation is conducted, the Board shall produce a full marine safety investigation report or in cases where deemed fit by the Chief Inspector, a simplified report.

(2) The Board shall make publicly available a report of a marine safety investigation at the earliest, but in any case, no later than 1 year after the date of receiving notification of the accident.

(3) The report under sub-regulation (1) shall contain but not be limited to —

- (a) a summary outlining the basic facts of the marine casualty or marine incident and stating whether any death, injury or pollution occurred as a result;
- (b) the identity of the flag state, owner, operator as identified in the safety management certificate, and the classification society;
- (c) where relevant, the details of the dimensions and engines of any ship involved, together with a description of the crew, work routine and other matters, such as time served on the ship;

- (d) a factual narrative detailing the circumstances of the marine casualty or marine incident;
- (e) an analysis and comments on the causal factors including any mechanical, human or organisational factors;
- (f) a discussion of the marine safety investigation's findings, including the identification of safety issues;
- (g) conclusions relating to the facts of the evidence;
- (h) where facts cannot be clearly established, an analysis and professional judgement to determine the probable facts and;
- (g) where appropriate, recommendations with a view to preventing future marine casualties and marine incidents.

(4) The Board shall seek to fully verify the accuracy and completeness of the draft report by the most practical means.

### **Release of marine safety reports**

**20.(1)** A report shall not be made publicly available until the Board has —

- (a) served a notice, accompanied by a draft copy of the report to any person who, or organisation which, could be adversely affected by the report or, if that person is deceased, upon such person or persons who appears to best represent the interests and reputation of the deceased in the matter;
- (b) considered the representations relating to the facts or analysis contained in the report which may be made to the Board by persons or organisations, served a notice under paragraph (a).

(2) Subject to sub-regulation (1), the report shall be amended in such manner as the Board thinks fit.

(3) The representations referred to in sub-regulation (1) shall be in writing and shall be served on the Board within 30 days of service of the notice issued under that sub-regulation.

(4) The Board may extend the time period prescribed under sub-regulation (3), notwithstanding its expiration, where the Board considers it appropriate to do so having regard to the requirements under regulation 19 (2).

(5) The Board may not furnish a draft marine safety report to a substantially interested state unless that state has agreed, in writing —

- (a) to comply with the provisions of Chapter 13 of the Casualty Investigation Code; and
- (b) not to disclose the draft report in any criminal, civil or administrative proceedings.

### **Publication of final marine safety report**

**21.(1)** A final marine safety investigation report shall be submitted to the Minister and made available to the public and the shipping industry in such manner as the Minister considers fit.

(2) A copy of the report shall be given to —

- (a) any person who has been served a notice under regulation 20 (1) (a);
- (b) persons or organisations to which recommendations have been addressed in that report;
- (c) any person who in the opinion of the Board may find the report useful or of interest.

(3) For every marine safety investigation conducted into a very serious marine casualty, the Board shall, through the Authority submit the final marine safety report to —

- (a) all stakeholders of interest; and
- (b) the IMO.

(4) Where a marine safety investigation is conducted into a marine casualty or marine incident other than a very serious marine casualty, and a marine safety investigation report is produced which contains information which may prevent or lessen the seriousness of marine casualties or marine incidents in the future, the final marine safety investigation report shall be submitted to the IMO.

(5) Where a marine safety investigation report is published by another State or the IMO, the Authority shall undertake to assist the public and the shipping industry with details necessary to access the report.

(6) The Board may publish safety information relating to an ongoing investigation.

### **Recommendations**

**22.(1)** Any person, agency or authority to whom a recommendation is addressed in accordance with section 21 (2) (b) shall, as soon as is reasonably practicable —

- (a) take the recommendation into consideration;
- (b) send to the Chief Inspector —
  - (i) lay down the details of the measures, if any, that they have taken or propose to take to implement recommendations, and the timeline for securing that implementation; or
  - (ii) an explanation as to why no measures shall be taken to implement the recommendation;

(c) give notice to the Chief Inspector if at any time, any information provided to the Chief Inspector in accordance with paragraph

(1)(b)(i) concerning the measures they propose to take or the timetable for securing their implementation is rendered inaccurate by any change of circumstances.

(2) Recommendations shall be made publicly available if the Chief Inspector considers that to do so is in the interests of safety or the prevention of pollution.

## **PART V - MISCELLANEOUS**

### **Penalties**

**23.(1)** A person commits an offence if —

- (a) being a person referred to under regulation 6 (1) (a) or (b), fails without reasonable cause to report an accident as required by regulation 6; or
- (b) being a person referred to in sub-regulation 1 (a), fails without reasonable cause to provide information as required by regulation 6 (3); or
- (c) he or she falsely claims to have any additional information or new evidence pertaining to any accident,

and shall be liable on conviction, to a fine not exceeding SCR20,000.

(2) Any person who fails without reasonable cause to comply with any requirement or duty under regulation 10 (1), (2) or (5) commits an offence and is liable on conviction, to a fine not exceeding SCR 20,000 or to imprisonment not exceeding 1 year, or to both.

(3) Any person who, without reasonable cause discloses or permits to be disclosed any information in contravention of regulation 13, or makes available any documents or records in contravention of regulation 13, commits an offence and is liable on conviction, to a fine not exceeding SCR 20, 000 or to imprisonment for a term not exceeding 1 year, or to both.

## **Judicial proceedings**

**24.(1)** If any part of a publication produced by the Board as a result of a marine safety investigation, or any analysis or conclusion reached in the publication is based on information obtained in accordance with an investigator's powers under section 227 of the Act, that part, analysis or conclusion shall be inadmissible in any judicial proceedings held to attribute or apportion liability or blame.

(2) For the purposes of these Regulations, an investigator who is required to attend a judicial proceeding shall not provide at the proceeding —

- (a) information that was obtained through use of the investigator's power under section 227 of the Act; and
- (b) any opinion evidence or analysis based on such information.

(3) Any evidence provided in breach of subregulation (2) shall be inadmissible in any judicial proceedings.

(4) In this regulation “judicial proceedings” includes any civil or criminal proceedings before any court, or person having by law the power to hear, receive and examine evidence on oath.

## **Investigation not to be subject to external interference**

**25.(1)** A marine safety investigation shall be conducted in an impartial and objective manner, free from interference or influence.

(2) The Board shall be able to report on the results of a marine safety investigation without direction or interference from any person or organisation that may be affected by its outcome.

(3) An investigator carrying out a marine safety investigation shall do so, free from interference from any interested party with respect to —

- (a) the gathering of all available information relevant to the

marine casualty or marine incident, including voyage data recordings and ship traffic services recordings;

- (b) any analysis of evidence and the determination of causal factors;
- (c) drawing conclusions relevant to the causal factors;
- (d) distributing a draft report for comments and preparation of the final report; and
- (e) if appropriate, the making of safety recommendations.

### **Interim safety measures**

**26.** At any stage of a marine safety investigation, where the Board is of the view that urgent action is required to be taken to prevent the risks of further accidents occurring, the Board may recommend interim safety measures and urgent actions to be taken to interested parties and stakeholders.

### **Administrative responsibilities**

**27.** The Minister shall ensure that the Board has sufficient material, financial resources and suitably qualified personnel available to enable them to facilitate the State's obligations to undertake maritime safety investigations into marine casualties and marine incidents.

## **FIRST SCHEDULE**

*[Regulation 6(3)]*

Marine Casualty or Incident Notification Data —

1. The name of the ship and its flag State;
2. The International Marine Organisation ship identification number;
3. The nature of the marine casualty;

4. The location of the marine casualty;
5. The time and date of the marine casualty;
6. The number of any seriously injured or killed persons;
7. Consequences of the marine casualty to individuals, property and the environment; and
8. The identification of any other ship involved.

## **SECOND SCHEDULE**

### *[Regulation 11]*

The IMO guidelines on the treatment of Seafarers —

1. The evidence shall be taken at the earliest practical opportunity;
2. The seafarer shall be allowed to return to his or her ship, or be repatriated at the earliest possible opportunity;
3. The seafarers human rights shall, at all times, be upheld;
4. All seafarers from whom evidence is sought shall be informed of the nature and basis of the marine safety investigation; and
5. A seafarer from whom evidence is sought shall be allowed access to legal advice, regarding —
  - (a) any potential risk that he may incriminate himself in any proceedings subsequent to the marine safety investigation;
  - (b) any right not to self-incriminate or to remain silent; and
  - (c) any protection afforded to him to prevent the evidence being used against himself if he provides the evidence to the marine safety investigation.

## **THIRD SCHEDULE**

*[Regulation 13(3)]*

Marine Safety records that shall not be disclosed in any criminal, civil, disciplinary or administrative proceedings —

1. All declarations or statements taken from persons by an investigator or supplied to an investigator in the course of an investigation, together with any notes or recordings of witness interviews;
2. Medical or confidential information regarding persons involved in an accident;
3. Any report made under regulation 6 (4);
4. Copies of the report other than the final report;
5. All correspondence received by the Board from parties involved in a safety investigation;
6. Evidence from voyage data recorders;
7. The notes made by an investigator, whether written or held electronically along with any recordings or photographs;
8. All communications between persons having been involved in the operation of the ship or ships; and
9. The investigator's opinions expressed in the analysis of information.

**MADE this 29th day of August, 2022.**

**ANTONY DERJACQUES  
MINISTER OF TRANSPORT**
